OBREGON IN FIELD TO ATTACK VILLA

NOGALES, Nov. 16.—General Alvaro Obregon, in charge of the Carranza campaign against Villa in Sonora, has taken personal command of troops preparing to attack Cananea, according to reports reaching here. Villa and the Yaqui chief Urbalejo, according to the same reports, have combined for an attack with 11,000 men on Hermosillo, which is defended by 5000 Carranza troops under General Manuel Dlekuez.

Villa, it is stated, has looted every store in Cananea and Magdalena, taking everything of value.

DOUGLAS, Ariz., Nov. 16.—It was officially announced at the headquarters of General Calles in Agua Prieta today that General Obregon had ordered the advance against General Villa to begin tonight.

Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a running sound or imperfect hearing, and when it is entirely closed deafness is the result, and this is restored to its normal condition by our method. This method is the only one that cures deafness. We will give one Hundred Dollars for any case of deafness, if you can not be cured by Hall's Catarrh Cure. Send for circulars, free. J. C. CHENEY & CO., Toledo, O.

NOT ENOUGH RAIN TO ENABLE PLOWING BY THE FARMERS

Less than an inch of rain has fallen since the showers began this fall, the precipitation yesterday and last night, up to 5 o'clock this morning, being .39 of an inch. It fell gradually, however, and the thirsty soil got the benefit of all of it. It was just the kind of rain that made the farmer and orchardist glad, although there wasn't enough of it.

The illusion that a sufficient rainfall has come to make it easy plowing in the fields of the valley should be dispelled. While the moisture extends probably six inches below the surface in most soils in the valley, they are not yet sufficiently soaked with it to loosen the hard places enough to make it easy plowing. Of course, if the farmer intends merely to skin the surface with his plow, he rubs his hands with glee over what moisture he has received to date. But the real farmer who knows that it is necessary to go down a foot to do simple justice is not yet satisfied to begin his winter plowing.

The fate of nature, however, has been washed a little, after a long period of neglect. The rain so far has brightened the foothills with a suggestion of green, showing that the range has been favorably affected.

The orchards have been washed clean of dust and cobwebs and, altogether, the precipitation to date has done much good in freshening the growth of green things in the rural districts.

OPEN NOSTRILS! END A COLD OR CATARRH

How to Get Relief When Head and Nose are Stuffed Up.

Count fifty! Your cold in head or catch discharge. Your stuffed nostrils will open, the air passages of your head will clear and you can breathe freely. No more snuffling, howling, mucous discharge, dryness or headache; no struggling for breath at night.

Get a small bottle of Ely's Cream Balm from your druggist and apply a little of this fragrant antiseptic cream in your nostrils. It penetrates through every air passage of the head, soothing and healing the swollen or inflamed mucous membrane, giving you instant relief. Head colds and catarrhs yield like magic. Don't stay stuffed-up and miserable. Relief is sure.

MOTHER! DON'T TAKE CHANCES IF CHILD'S TONGUE IS COATED

If Cross, Feverish, Sick, Bilious, Clean Little Liver and Bowels.

A laxative today saves a sick child tomorrow. Children simply will not take the time from play to empty their bowels, which become clogged up with waste. Liver gets sluggish, stomach sour.

Look at the tongue, mother! If coated, or your child is listless, cross, feverish, breath bad, restless, doesn't eat heartily, full of cold, or has sore throat or any other children's ailment, give a teaspoonful of "California Syrup of Figs," then don't worry, because it is perfectly harmless, and in a few hours all this constipation poison, sour bile and fermenting waste will gently move out of the bowels, and you have a well, playful child again.
