

LOCAL AND PERSONAL

A. Edgar Mann, of Eureka, California, tarried in Medford a few hours today on his way to Portland. "The people of Eureka," said Mr. Mann, "are very much interested in the proposed highway from Rogue river valley to our city. It will prove to be a tip-top proposition for both termini of the line. It will give us a new and shorter line of travel out of our section this way and it ought to prove a great advantage to the people of this valley in their effort to reach the coast and San Francisco by a more direct line. There will be no lack of enthusiasm over the project when the work of establishing the highway shall begin."

LOOKING FOR WORK

Everywhere men complain about work; even boys and girls in school or business find work tedious and irksome, but it isn't the work half so much as their own lack of physical strength that makes it hard.

Rich blood, strong lungs and healthful digestion make work pleasurable in business, in school or even home-work, and if those who are easily tired—who are not sick, but weak and nervous—would just take Scott's Emulsion for one month and let its pure concentrated food create richer blood to pulsate through every artery and vein—let it build a structure of healthy tissue and give you vigorous strength—you would find work easy and would look for more. Insist on Scott's.

A. L. Miller, of Grants Pass, who is in Medford today in the interests of the construction department of Twombly Bros, work on the Grants Pass-Crescent City railroad, speaks very optimistically of the prospect of getting the best sugar factory at that point. "But we are not sticking about that point," he said. "Our purpose is to get the farmers in the notion of taking advantage of this splendid opportunity to make more money, to make it more sure, to escape the middleman and to get all there is in their work of cultivating their soil. They have not been doing that in Southern Oregon. The great bulk of our resources are yet undeveloped—that is, scientifically. That class of work is only beginning. It will bring with it the advanced idea of diversified farming—and when the farmers get properly into that line of business, including the establishment of industrial and commercial enterprises and taking care of their home market, their fortunes are made."

Mayor J. H. Beeman, of Gold Hill, accompanied by Mrs. and Miss Beeman, is an official visitor in this city yesterday and today. Mrs. Beeman and daughter are enjoying a brief visit with friends, while Mayor Beeman is "getting a line on" paving matters, his little city now being in the throes of a paving fever. That the streets of Gold Hill may be paved with gold is no joke. Residents pick up gold in the streets of that thrifty business center most any old day and some people down there claim that they could make a fortune, if they had time, by working the gold ore that Colonel Ray has thrown away. The rock in that town and vicinity is noted for its gold bearing quality and we may expect to read of many wonderful nuggets picked out of the crushed material with which the streets will soon be boulevarded.

New Herbal Balm for Skin Disease

So many alleged cures for skin disease are now on the market that care is necessary. We sell all the well known skin remedies, but we will say this, that when we advise you to use DEXMA, the new herbal balm, we are advising you right. We have found nothing that begins to equal this formula, made exclusively from Nature's healing herbs—pure after care and from reports all cures seem to be permanent. The best part is, it gives instant relief from the most intense suffering.

The Lakeview Laboratories of Chicago have just given us the exclusive right to sell DEXMA in our home town. We like this because DEXMA is going to make us many friends through giving satisfaction to skin sufferers.

Come in today and get a box on our personal guarantee that if it doesn't soothe and cool you nothing. If you are not thoroughly cooled you and begin healing at once, it will soothe, come and get your money back.
