

500 MORE ACRES OF SUGAR BEETS NEEDED AT ONCE

Saturday the beet sugar average campaign will close, though the headquarters will be kept open at the Commercial club for a few days longer to close up contracts.

So far 1800 acres have been signed up in this section of the valley. Mr. Brunwell, in charge at Grants Pass, reports that 2000 acres in that locality will have been signed by Saturday evening. The local committee hope to sign up at least 500 more acres by tomorrow night, but "hope deferred maketh the heart sick."

Over ninety business men and citizens of Medford have subscribed \$200 apiece to the proposed \$20,000 company to engage in beet culture. This company plans to lease 600 acres to be added to the average already signed. It is hoped to sign the balance tomorrow.

The disappointment of the campaign has been the failure to arouse farmers of the Central Point section, the section with the largest available average under water. Little co-operation has been forthcoming in this locality. A-land also has fallen down, through lack of irrigated land.

Land owners are urgently requested to exert every effort to increase the average before Saturday evening, for the time is growing short and 500 acres more are needed than are in sight at the present time.

Those farmers who have been hesitating about signing up for sugar beet culture ought to be able now to see clearly their own immediate interest in this important matter and meet the committee's proposition favorably at once. Delay at this juncture is discreditable, alike to the individuals involved and to the valley.

JOS HILLSTROM SHOT

(Continued from page one)

"I'm going, good-bye, everybody."

The word to fire was given and the reports of the rifle came an instant after Hillstrom's final words, "Let her go!"

Breakfast Untasted

Hillstrom wore his prison suit. A dark suit had been obtained for him, but the officers feared delay might cause another outbreak from him and did not wait to remove the clothing he wore.

His breakfast, which was placed before him about 6:45 o'clock, remained untasted, and, in fact, un-noticed, as he was then in the midst of his nervous outbreak.

Hillstrom's body was claimed by Ed Rowan, secretary of the local Industrial Workers of the World organization, who intimated that it would be sent to Wyoming for burial, as requested by Hillstrom in a telegram to W. D. Haywood yesterday.

Telegrams Protest Innocence

Telegrams from O. N. Hilton of Denver, one of Hillstrom's attorneys, asserting that William Busky of Seattle had made an affidavit that he was with Hillstrom the night J. G. Morrison was murdered and that Hillstrom was innocent, were received by Governor Spry and other officers of the state and county early this morning. The sheriff was requested to postpone the execution until this statement had been investigated.

Warden Arthur Pratt of the prison then asked Hillstrom if he knew Busky and Hillstrom answered that he did not. The sheriff was then directed to proceed with the execution.

None of Hillstrom's I. W. W. friends were present. The law provides that not more than five friends of a condemned man may be present if their presence be requested by him. Hillstrom declared last night that he did not wish any of his friends to see the execution and a committee of the I. W. W. was accordingly denied admission to the prison.

Seattle Story Wired

SEATTLE, Nov. 19.—According to a story told today at Industrial Workers of the World headquarters here, William Busky, a German-American, aged 21, while watching a parade of Industrial Workers last night, was overheard to say that he knew Hillstrom was not guilty. Busky was questioned by Industrial Workers who heard him, and then was taken to headquarters where he made affidavit that he was with Hillstrom continuously from 2 p. m. to 10 p. m. on the day of the murder, and that he and Hillstrom were seeking work at the Murray, Utah, smelter. The affidavit was made before Thomas Whitehead, secretary of the Industrial Workers of the World here. Telegrams containing a summary of Busky's affidavit were sent at 2 o'clock this morning to Governor Spry, President Wilson and O. N. Hilton, Hillstrom's attorney.

If he's so hot to die in poverty—think of the guy that has got to LIVE!!—D. B.

FORMER CHICAGO MAYOR'S DAUGHTER TRACES LINEAGE BACK TO POCAHONTAS

Miss Edith Ogden Harrison With Mrs. Galt she shares the distinction of tracing her lineage back to Princess Pocahontas. She and her father, Carter H. Harrison, former mayor of Chicago, are among the few living descendants of the beautiful Indian girl of Jamestown.

AERO SQUADRON FLYING FROM FT. SILL TO SAN ANTONIO

PORT SILL, Okla., Nov. 19.—The first aero squadron, United States army, composed of six airplanes, sailed from the aviation field here this morning on a flight to the new headquarters of the organization at San Antonio, Tex. Fifteen minutes after the first machine, carrying Captain P. D. Foulis, commanding, was in the air, the entire squadron was on its way southward.

The flight is the first of its kind attempted by army aviators and is being made under conditions as nearly like those encountered in war times as is possible. The planes will fly close together and it is planned to complete the journey in six days.

The flight will end on Wednesday, on the government reservation grounds at Fort San Houston, unless accidents or bad weather interfere.

The squadron is composed of fifteen aviators and ninety men. Those who did not fly today accompanied the motor equipment to land with equipment for making repairs.

TO ADD CHINA TO LIST (Continued from Page One)

yond question and stabilizing the national government.

None of the communications that have passed on the situation indicate that the allies have any hope that President Yuan Shi Kai will abandon his plan to establish a monarchy. In fact the indications are that efforts to add China to the allies resulted largely from the supposition that the change in government was inevitable, and that it was the duty of the allied powers in order to prevent possible complications between Japan and China to act definitely at this time. The assurance from Peking that the monarchy will not be established immediately is being interpreted, therefore, by various observers, as a development growing out of a knowledge of the plans of the European allies to bring about a new understanding on far eastern questions.

Publicity.

Press Agent—Miss Star, I'm going to put over a yarn to the effect that your pet poodle swallowed all your diamonds.

Miss Star—What? Do you suppose I'd have people think I have only enough diamonds to fill one poodle's go out and buy a St. Bernard!

ATLANTIC COAST SWEEP BY GALES IN DOUBLE STORM

WASHINGTON, Nov. 19.—Heavy gales and rain whipped the Atlantic coast from Jacksonville to Eastport, Me., and similar conditions prevailed through the Great Lakes region and the Ohio valley during the night, in what the weather bureau officials described as "one of the most remarkable storm developments in many years."

The two storms early were heading toward each other.

NEW YORK, Nov. 19.—High gales accompanied by rains swept over New York, New Jersey, Pennsylvania and the New England states today, seriously interfering with telegraphic communication in many places and endangering shipping along the coast. At New York City the wind this morning had a velocity of between sixty and sixty-five miles an hour.

The Norwegian bark Killena was driven aground near Brunswick, Ga. One or two west-bound trans-Atlantic liners were reported to have encountered the gales off the coast.

Several persons were injured here today by falling signs blown down by the gale, one probably fatally. A number of pedestrians were knocked

down, in some cases sustaining minor injuries.

Virtually all shipping in New York was at a standstill.

The freighter Corozal, of the New York and Porto Rico line, was blown from its anchorage and foaled the Greek steamer Andreas Gerakis, both vessels being damaged.

SPOKANE PRISONER FACES LIFE SENTENCE

SPOKANE, Wash., Nov. 19.—Fred Johnson was found guilty in superior court Thursday of a charge of assault with intent to kill. Johnson while being taken to the prosecuting attorney's office recently knocked Deputy Sheriff Logan unconscious and was at liberty for half an hour.

AS WE GROW OLDER

our minds are quite as active as in former years but our strength does not respond when we need it most; perhaps the kidneys are weak, the liver torpid, rheumatic pains or stiffened joints beset us, and we cannot easily throw off the colds that winter brings.

What we need is the rich cod liver oil in Scott's Emulsion to renew the blood and carry strength to every organ of the body, while its glycerine soothes the respiratory tract, and its hypophosphites strengthen the excitable nerves.

Scott's Emulsion is a scientific food, of unusual benefit to those past fifty years—particularly during the colder seasons, it imparts warmth and creates strength. One bottle will prove its worth. No alcohol or harmful drugs. Scott & Bowne, Bloomfield, N. J.

Mann's The Woman's Store advertisement featuring a list of corsets and winter suits. It includes prices for various styles of corsets (e.g., \$1 Corsets 59c, \$1.25 Corsets 69c) and a list of winter suits and coats with their respective prices. A central illustration shows a woman in a long winter coat and hat. The text emphasizes that every winter suit and coat must go.

SURGEON EXPLAINS DEFECTIVE BABE'S DEATH TO JURY

CHICAGO, Nov. 19.—Six leading surgeons espoused as a coroner's jury to decide whether Dr. Henry J. Haiselden did right in refusing to operate on the deformed Bollinger baby, and thus save its life, are to make public their decision today.

It was reported that their verdict would vindicate Dr. Haiselden. Replying to questions by the coroner's jury Dr. Haiselden said:

"The father left the case in my hands entirely. After a conference I came to the conclusion that it would be best not to operate. It would require a delicate operation to prolong the child's life and had it died under an operation I might have been accused of killing it. A dangerous surgical operation would have gained nothing for the child. Without an operation there was no chance for it to live."
