The Black Wrapper Keeps light and moisture away from the tire—prevents deterioration. THE SAVAGE TIRE CO., San Diego, Cal. Factory Distributor C. E. GATES MEDFORD

Thank your lucky stars if you feel that way about it when you get good service from your tires, but there is a deeper and more understandable reason. The tire that you and every other motorist undoubtedly want most is not the result of hit or miss efforts. Some great factory has gone to the limit in giving you the best that human ingenuity can produce, and stakes its reputation on the result. That's how Diamond Tires are built and the great factory behind them is the largest rubber factory in the world. The horse-shoe was all right to nail over the barn-door, but for the garage four Diamond Tires on the wheels of your car constitute the best omen of good luck we know anything about.
