Over 100 people went to Jacksonville from Medford last night to enjoy coasting on the mountain side back of the town. They had a real old-time frolic on coasters and skids and slides until a late hour, many remaining until midnight. The Bullis electric line ran an extra car or two to accommodate those who remained late. Another party will go tonight. The snow on the hillside back of Jacksonville is said to be a foot deep or more and dry enough to make good coasting.

The big leather couch made by the high school students of this city, in the manual training class, for exhibit at the Panama-Pacific exposition at San Francisco, was shipped back to this city, arriving here in good condition this morning. It is not known yet what will be done with it. The frame and the upholstery were done by the students. In fact, they did the whole job and have been frequently complimented on their remarkably excellent workmanship.

Pearson J. Welch, of Fresno, California, is a visitor in this city and vicinity today and tomorrow and will go to Grants Pass Friday for a day. He will return to this city to complete his business before leaving for the San Joaquin valley. He says a better business spirit appears to prevail in this part of the coast than in the central part of California, but a feeling of optimism pervades the business atmosphere down there since the first of the year.

Out of the quintet of men arrested the other day for gambling, Edwards was the only one held by Justice Taylor's court today as a result of the preliminary examination. Edwards was held to the grand jury, but allowed his liberty on his own recognizance. There are several other "counts" against Edwards, it is alleged, that may show up to vex his soul before he gets through with this experience.

WASHINGTON, Jan. 12.—American Consul Kempt at Matsuyama called today that the crew of the Persia had reached there and said that, because they had given affidavits to the British authorities at Alexandria, Egypt, they refused to give him any statements. The state department will call on the British government for the information they contain.

PUPILS TO SPREAD FAME OF COUNTRY TO FOUR CORNERS

Superintendent V. Melde Hillis of the public schools of this city observes that the students are all anxious to enter the letter-writing campaign that will culminate next week in sending out hundreds of letters from this city to people of the east and south, describing the marvelous scenic beauties of the southern Oregon country and incidentally giving a deal of data concerning our resources. It will be made a part of the regular work in English in the schools, Professor Hillis says, and there will be no "hot air work" about it. The letters will be accompanied by poster stamps, 600 of which have been supplied by the Medford Commercial club, Secretary Latta affording the students every assistance possible in conjunction with the work of the teachers.

"This is a wonderfully charming country to write about," said Superintendent Hillis today, "and our students will enter upon the task with great pleasure, although they regard it as a business proposition. Their work will be held strictly to truth about the valley and its picturesque environments and resources. Pictures of the most attractive spots of scenic beauty in and about Rogue River valley will accompany these letters. They will supply a substantial feature. The matter of sending some of the letters to the newspapers in eastern communities will be taken up by the teachers this week. It is believed that would give the data sent out additional publicity, and there is no doubt that community papers in the east and south will be glad to give them space. The Commercial club favors that idea, also."

GOATS' MILK FOR COUGHS

"Go to the Hills and drink goats' milk" was the prescription given by Hippocrates more than 2000 years ago for coughs, colic and bronchitis, but nowadays our local druggists, the Medford Pharmacy, have a secret constitutional remedy just as certain which can be taken right at home. It is Vinol,—composed of the healing medicinal extracts of cod livers, without oil, peptonate of iron for the blood and the nourishing properties of beef peptone. It goes to the seat of the trouble; removes the cough and eases the cold. Vinol is a very reliable preparation.—Adv.

QUINLAN NAMED AS POSTMASTER OF GRANTS PASS

WASHINGTON, Jan. 12.—President Wilson has nominated W. P. Quinlan to be postmaster at Grants Pass, Ore., upon the recommendation of Senators Chamberlain and Lane.

W. P. Quinlan has for four years been secretary of the Grants Pass Commercial club and was selected from among nine applicants who have conducted an energetic campaign for the office. The term of Postmaster Donnell expired nearly a month ago, and the bitterness of the fight waged among the aspirants delayed the appointment.

George W. Donnell, former superintendent of the Medford & Crater Lake railroad, now the Pacific & Eastern, who will retire from office with the coming of the democratic appointee, has held the position for eight years, and has given general satisfaction. He was allowed to hold out his full term even under a democratic president, and will have served a considerable more than his term by the time his successor can qualify.

HUSBAND OBJECTS TO OPERATION

Wife Cured by Lydia E. Pinkham's Vegetable Compound

Des Moines, Iowa.—"Four years ago I was very sick and my life was nearly spent. The doctors stated that I would never get well without an operation and that without it I would not live one year. My husband objected to any operation and got me some of Lydia E. Pinkham's Vegetable Compound. I took it and commenced to get better and am now well, am stout and able to do my own housework. I can recommend the Vegetable Compound to any woman who is sick and run down as a wonderful strength and health restorer. My husband says I would have been in my grave ere this if it had not been for your Vegetable Compound."—Mrs. BLANCH JEPPERSON, 703 Lyon St., Des Moines, Iowa.

Before submitting to a surgical operation it is wise to try to build up the female system and cure its derangements with Lydia E. Pinkham's Vegetable Compound; it has saved many women from surgical operations.

THE "ENDLESS CHAIN" DANGER OF CATARRH

S. S. S. the Proper Safeguard.

Catarrh is a "virus" in its chronic form. The air is filled with bacteria which is taken into the mouth and nose through the process of breathing. When the body is in a healthy condition no harm results. But with our modern methods of indoor living and sedentary occupations, the mucous membrane are unable to get rid of this harmful bacteria, making catarrh a very common ailment. From acute fever and influenza, causing inflammation, the virus enters in the mucous membrane to start the "chain." When the blood is in a septic condition its defenders—leucocytes—use successful citizens to the "old" danger on "chain" into catarrh.

Catarrh is a chronic inflammation of the mucous membranes. Mucous membranes are the lining on all the internal cavities of the body. Not that—All catarrhs. There is the "endless chain" element of danger.

The only way to treat catarrh is to purify the blood. The sure way is to write for special advice. Swift Specific Co., Atlantic, Georgia.
