BREWERIES MAKE NEW PROHIBITION DRINK FROM HOPS

Rather than close down their great plant at Portland, the Weisbord company have retained their men and are manufacturing a new temperance drink in strict conformance with the Oregon prohibition law.

Golden and Amber Nectar is made of Oregon hops and barley and contains vital strength-giving qualities which will make it a favorite throughout the state. It took many months of experimenting and research to bring this new product up to its present state of perfection. Henry Wessinger of the Weinhard plant took a great pride in erasing them. His identity with business interests in Oregon for so many years, prompted the desire to keep the Weinhard plant in operation after January 1 and to give employment to many employes who have been connected with this concern for years.

Mr. Wessinger is determined in his effort to prevent any violation of the law in the case of Golden and Amber Nectar. He required a cash bond of \$250.00, which is subject to forfeiture, if any dealer is guilty of selling intoxicating liquors under the guise of this new temperance drink.

"Here's one bit of proof of our policy regarding this new drink," said Mr. Wessinger in talking with a reporter the other day. It was a letter written to a man in Madras, Ore.: "Now, in regard to yours of January 7, in which you say that your district attorney is going to prevent you from selling our Nectar, all we have to say is that if this should really be the case, we would prefer not to ship any at all and return to you the money paid to us." This shows that Mr. Wessinger is absolutely sincere in his statement that nothing will be done contrary to law or interpretation of the law.

"We are frank to state," continues Mr. Wessinger in this letter, "what we do not desire, even in the remotest way, to offend any public official or to do anything contrary to law, but as explained before, the people when voting on the question, certainly voted only on intoxicating malt and intoxicating vinous liquors. Grape juice, although vinous in its very origin, is recognized all over the United States as one of the leading temperance drinks. Our Nectar is certainly in the same class, as it contains not to exceed one-fifth of one per cent of alcohol, while most contain 1 per cent, sugar more than that and a number of other foodstuffs used in everyday life contain more or less, at least a small quantity of alcohol.

There has been considerable misunderstanding and a gross abuse of the term "near-beer." Many people have no idea what this term really means. Originally it was used to designate beer that contained approximately 2 to 2 1/2 per cent of alcohol, hence the name, while Nectar is practically free from alcohol, containing much less than allowed by law, and therefore is strictly a temperance beverage.

RARE MUSICAL TREAT PROMISED MEDFORD TONIGHT

Skovgaard tonight at the Natatorium will inspire with an exalted sense of the art of music probably the most critically interested audience ever assembled in this city to hear a musical entertainment. The appearance here of Denmark's greatest violinist, the man who has demonstrated his art in its most perfect expression before kings and emperors and in the presence of the greatest critics of music in all the world, has elated local lovers of music, who have promised themselves this one great opportunity to see and hear this great artist and his excellent company of star performers, both vocally and instrumentally.

It will prove to be a most remarkable and attractive presentation of the choicest music, both on the instruments and through human voices. Skovgaard, the great master, will perform on a \$13,000 violin. Among the charming vocalists whose fame has preceded them will be Molly Byerly in "O Dry Those Tears"; Florence Hawkins' birdlike voice, Clara Freuler in marvelous interpretation of Swiss folk songs, and Francis W. Cowles, who will sing "Danny Deever," especially to delight you.

This remarkable company of star musicians will appear tonight at the Natatorium under the auspices of the local Ministerial association. The people of Medford are particularly fortunate to be permitted to enjoy such an entertainment at ordinary show prices.

FOUR CHINA PROVINCES READY TO JOIN REVOLT

PEKING, Jan. 14.—The foreign office has advised the various legations that travelers and missionaries should not enter the provinces of Yunnan, Kwangsi, Kwai Chow and Sze Chuen, because they are within the zone of military operations against the rebels in the province of Yunnan. This last province alone is rebelling, but unless state that Kwai Chow is wavering.

The government is moving troops to the borders of Yunnan province through Sze Chuen and is confident of preventing the revolution from spreading. The government declares that the sporadic attacks of customs stations in Kwang Tung province are the usual bandit operations. The military governor of Sze Chuen reports that province well under control.

LONDON, Jan. 14.—The Luxembourg cabinet headed by Dr. Loutsch has resigned according to an Amsterdam dispatch to Reuter's Telegram company.

BRONCHITIS SUFFERER

Cured by a Simple Remedy

Columbus, Ga. "I am telling everybody what Vinol has done for my husband. He had a bronchial cough, his system was run-down and I felt sure he would die. His father insisted on his trying Vinol, and I am so thankful he did, because it cured his cough and built him up. My doctor highly recommends it and said he could not take anything better."—Mrs. Thomas Monk.

Vinol, you know, contains the real cod liver curative extract, together with pentonate of iron, and beef-peptone. It enriches and revitalizes the blood and conveys in the system the vital elements necessary to strengthen the body and throw off the disease. That is the reason it was so successful in Mr. Monk's case.

Anyone in Medford who has bronchitis, a chronic cough, or needs a building up, may try a bottle of Vinol, with the understanding that his money will be returned if he is not satisfied. Medford Pharmacy—Adv.
