Manager Frank C. Clark of the Medford Creamery, who became a resident of this city last November, is watching the precipitation in this valley this winter, knowing the value of moisture in the soil for the production of good crops. "Last year in North Dakota," said Mr. Clark, "we produced \$137,000,000 worth of wheat because we had abundant rains. This was a good deal of money for distribution in that state, for it has a population of 700,000 only. For the two or three years previous to that we had only from 20 to 25 per cent of normal yields because of lack of moisture in the soil. Each year of that condition we lost in the neighborhood of one hundred million dollars. So, you see, the value of water in proper quantity in the soil runs into the millions very quickly.

Elwood W. Roberts, who for six weeks has been alone at the Knox-McClay property on what is known as the "middle fork" of the Applegate, came in today for a rest and vacation of two or three weeks. He says the snow was six feet deep when he left and a good deal has fallen there since. Mr. Roberts is enthusiastic over property in which he is interested extensively on middle fork. Recent discoveries in their development work have served to elate everyone interested in the proposition, but Mr. Roberts belongs to that class of miners who prefer to announce definite results or say nothing. So far, this property looks like a big thing, but no news is being given out about it at this time.

ROSEBURG TO PLAY MEDFORD TONIGHT

The Roseburg team took Monmouth high school to a decisive defeat on Monday night, beating that team by a lap-sided score of 35-15. The score does not indicate that Monmouth is a weak team for without doubt it must be reckoned as one of the best in the northern section of the state. This was the first defeat for this team after a long string of victories and Monmouth had backers who were predicting it could beat Salem.

Ackley and Jewett are the stars for Roseburg. Jewett at center is a wizard and his opponent must be on duty every second of the time for he can net baskets at any angle when he is right.

Narregon is going fine and his return to form has heartened the whole team. In fact it looks like he has found himself and with this true Medford is going to shoot baskets and guard better than ever as the team used to be weak at center.

Williamson has found new confidence and has speeded up. It looks like victory and the whole city is behind the team.

FOURTEEN TOWNS ZEPPELIN VICTIMS

LONDON, Feb. 3.—Details of the Zeppelin raid continue to come in, now that the authorities have removed a number of restrictions. A diary kept by a traveler through the regions visited gives a list of fourteen towns and villages in which there were casualties and where damage to property was done.

The list includes the town of Derbyshire, in which two persons were killed and a shaft and axle-tree factory and tube works were blown in. One Staffordshire town fourteen persons were killed, and in another six. One bomb dropped on the grounds of a historic castle, but no one was injured. Three towns in the iron and coal district were visited.

STORM ISOLATES PORTLAND (Continued from page one)

snow has fallen since 10 o'clock last night. The weather office reports 29 inches of snow on the ground. The temperature at 8 o'clock this morning was 28 and probably will rise slightly. Street cars are not yet running, but progress is being made in clearing the tracks.

More people were downtown today than yesterday, the motor buses having resumed operations and the walking being better on account of the paths having been trodden through the snow.

All the railroads remain tied up. The wind is still from the northeast and more snow is expected.

Bids for Wood

School District No. 49 will receive sealed bids at the office of the clerk until 5 p. m., Feb. 8th, 1916, for 400 cords of wood, of either body fir, oak or laurel. Same to be delivered at school buildings, between May 1st, 1916, and August 15th, 1916. All wood must be cut from live trees. Each stick to be four feet long and not less than eight inches or more than 18 inches in diameter. Wood to be measured on the grounds by Jackson county scaler of weights and measures, and all measurements to be satisfactory to both parties.

The board reserves the right to reject any or all bids.

CONTRACT LET FOR SUGAR FACTORY

Salt Lake, Utah, Feb. 3. Mail Tribune, Medford, Ore.

The directors of the Oregon-Utah Sugar company yesterday let a contract to the Dyer company of Cleveland, Ohio, for the erection of a sugar factory in Rogue river valley. The factory will have a capacity of treating 700 tons of beets per day. It will be of fireproof steel construction throughout and will have all the modern improvements. When completed the plant will be the last word in scientific sugar manufacture. It will be ready to run September 1, this year.

The company now has contracts with farmers to plant and grow over five thousand acres of beets and the directors today authorized the superintendent and agents of the sugar company to accept and sign up three thousand more acres as it is the company's desire to start the industry with seven thousand acres of sugar beets. The beet seed has been provided for the seven thousand acres.

SUFFERED FROM BACKACHE AND KIDNEY TROUBLE FOR YEARS.

Dear Readers—I wish to tell you that I suffered from backache and kidney trouble for years. I heard of Doctor Pierce's Anuric Tablets and I tried them. They cured my backache. I hope people that are troubled with backache will give them a good trial. I am sure they will not fail to benefit. Yours sincerely, Mrs. Geo. Demers.

NOTE: Folks in town and adjoining places are delighted with the results they have obtained by using "ANURIC," the newest discovery of Dr. Pierce, who is head of the TRAVELERS' HOTEL and Surgical Institute, in Buffalo, N. Y.

Those who started the day with a backache, stiff legs, arms and muscles, and an aching head (worn out before the day began because they were in and out of bed half a dozen times at night) are appreciating the perfect rest, comfort and new strength they obtained from Dr. Pierce's Anuric Tablets. To prove that this is a certain uric acid solvent and conquers headache, kidney and bladder diseases and rheumatism, if you've never used the "Anuric," cut this out and send ten cents to Doctor Pierce for a large sample package. This will prove to you that "Anuric" is thirty-seven times more active than lithia in eliminating uric acid—and the most perfect kidney and bladder corrector. If you are a sufferer, go to your best druggist and ask for a 50-cent box of "Anuric." You run no risk for Dr. Pierce's good name stands behind this wonderful new discovery as it has for the past half century for his "Golden Medical Discovery" which makes the blood pure, his "Favorite Prescription" for weak women and his "Pleasant Pellets" for liver ill. All Dr. Pierce's medicines can be had in Tablet form—by mail or at drug store.

Your Headache, Sir

probably proceeds from a disordered vision—weak or over-taxed eyesight. It can be remedied—and banished—by wearing the right kind of glasses, the kind we shall be glad to prescribe and adjust for you. We are specialists in all matters pertaining to the human eye, and bear a reputation for first class work only. A trial will convince you.
