W HAT is the matter with the Rogue River valley (Lack of production, which places the balance of frade against the valley.

How can it be remedied?

By irrigation, by encouragement of local industries, by development of natural resources.

Do Not Feed Ourselves

The valley does not produce enough to feed itself, even of staples. This is proven by the Southern Pacific rail-

This philosophy tensiles us . that each one is a unit in the body corporate of humanity; that there are certain laws of nature which exist in the whole; that when those laws are understood and applied by each of us, the results are immediate, sure and unovestionable.

There exists the realms of mind, emotion and action, and each one of as possesses vehicles or bodies related to those realms, vehicles of mind, emotion' and action. In the same manner as we use our physical bodies for action, so we possess subtle bodies through which we feel and think. These are sometimes called the vestures of the soul. The laws of nature govern those realms and onversant with those laws and their methods of operation in order to reveal the secret of the inharmonious conditions of life, and in time to be mystical speculation, but an occult fact, and many thoughtful minded people have proven it to their satisaction.
