

ASHLAND AND VICINITY

The city faces two legal complications. The first is in regard to its septic tank, on which system a Chicago concern claims letters patent. The amount demanded is not excessive and the demands of the patentees will probably be complied with. The second relates to title to the Berkeley springs, from which the city gets its sulphur water by gravity pipe line. The city got this property for a mere song, \$250, and if it goes into litigation over it the costs will quadruple that sum. The homes estate claims prior water rights as back to this claim through the courts in spite of a title which conveyed the spring to the city. City attorneys and other attorneys are getting in readiness to solve the problem, which is a matter that the city considered settled in good faith for all time.

The old Grand Army hall on Chautauque grounds has been undergoing extensive repairs, particularly in regard to new roof.

Several families have also signified an intention of coming with them. Mrs. Glick was formerly Miss May Beaver, daughter of Mr. and Mrs. J. M. Beaver, and taught school in this vicinity.

The tangled realty affairs of "Dr." E. A. Fisher, an exponent of kullar here, and who some time ago shook the dust of Ashland off his feet, are now passing through mortgage foreclosure proceedings. A sheriff's sale will be held on March 11 of four lots, well improved. The amount involved including costs aggregates \$3000.

Stockmen from the Langley valley, Klamath county, report that 3000 rabbits were rounded up and slaughtered in a single drive in that territory recently. Probably a share of these carcasses will be shipped to feed the poor of Portland.

A missionary returned from China, his next friend a preacher in Portland, and a totem pole sent to the missionary from beyond the seas as an evidence of esteem from the converted heathen, recently figured in a censor movement at San Francisco. The Society for the Propagation of Christianity passed upon the demerits of the totem before it was allowed to pass through this territory on its way north in bond, with the result that the offending image was censured with a mallet and chisel.

The Bellevue parent-teacher circle meets at the schoolhouse on Friday afternoon of this week. County Superintendent Wells will address the gathering.

Mrs. A. F. Hunt of Portland, mother of Mrs. Will Dodge, and who has been visiting her daughter here for some time past, left for Medford, Cal., on Thursday, where she will join Mr. Hunt for an indefinite stay in central California.

N. W. Gorman, S. P. brakeman residing on Fourth street, has traded a house and lot in Eldorado, Okla., for a five-acre tract in Overlook addition, which he will improve and eventually may locate upon it. Beaver Realty Co. made the deal.

He is the owner of the Grave creek ranch of 4200 acres, in the vicinity of Leland, on which tract the remains of Josephine Leland, after whom Josephine county was named, were buried. Dr. Nehrbas is a retired dentist from Oregon City.

Personal portraits, the ancient as compared with the modern, will be on exhibition in a distinct display at the entertainment by the Wednesday Afternoon club, on Washington's birthday. All other social appointments have given way to the annual event as "staged" by this popular club. Refreshments on the New England plan will be served by the ladies in colonial costume. Unless announcement is made to the contrary, the loan exhibit will be held at the Presbyterian church.

The Elks give a social dancing party on Friday evening of this week. Dennison T. Lawton of Medford and fire inspector of that city, was here on business Thursday. In a conversation regarding his family surname, it developed that he is a distant relative of the late General Lawton of Philippine fame.

The banquet at the Lincoln birthday anniversary observance at Medford on Saturday evening of this week, February 12, will take place at 7:30 o'clock. Tickets \$1. Indications point to a large attendance from this vicinity.

Miss Beattie Applegate, former instructor in the Klamath Falls high school, is a candidate for school superintendent of Klamath county.

J. B. Ware left on Wednesday for a visit to his old home at Grand Haven and other Michigan points.

W. L. Moore, W. D. Kincaid and E. T. Staples are among the panel of petit jurors, summoned to appear from this vicinity at the next term of circuit court at Jacksonville, Febru-

ary 20, at 10 a. m. Staples is really the only one from Ashland, inasmuch as the two former reside in suburban districts.

Dr. Gilbert of the faculty of the state university at Eugene, will lecture here in the near future on sundry topics. An effort will be made to have him make an address on fruit topics specifically.

Universal porch lights may be in order in town before long. A certain element wants the city council to grant this privilege absolutely free, inasmuch as they will add to the general illumination of the town. This the city does not see its way to grant just at present, but will probably meet citizens more than half way by installing the improvements "at cost."

On the assumption that the average preacher likes chicken, Rev. Wm. Northridge, 272 Orange avenue, exhibited some extra fine specimens of buff Leghorn fowls at the Southern Oregon Poultry show at Medford this week.

The depth there has been 220 inches. This is the highest and most exposed point on the entire line.

Redding is contemplating installation of a municipal electric light plant, and will hold a special election in April to determine the question. In the meantime it is investigating the experience of Ashland and other towns which have introduced the plan.

When a cold grips your system it is convincing proof that your condition is weakened—remember that. It is risky indeed to simply trust your strength to throw it off, because neglected colds have brought more serious sickness than any other one thing, while weakening cathartics and stimulating syrups are often depressing and dangerous.

The one best treatment for any cold—the one so often relied on when others fail, is the powerful blood-nourishment in Scott's Emulsion, which feeds the very sources of bodily strength to suppress the present cold and generate strength to thwart further sickness.

Get Scott's first, not last—and insist on the genuine—always free from alcohol and injurious drugs.
