age and business was resumed as usual.

Wednesday night J. C. Dusenbury of Gold Hill spent the night with us. He was looking for a location to open up a meat market or a chance to sell a saw mill or buy some young cattle or almost anything to make business.

County Superintendent Wells was out Wednesday afternoon and visited the school and there was an appointment for a Parent-Teachers' meeting that night at the school house, but owing to the rain, darkness of the night, mud, etc., there was but very few turned out. In an informal talk we had before the exercises were begun I asked Mr. W. what he thought of Dr. Meyer's article in the Evening Telegram and comments on it in the editorial comment in the Mail Tribune, and he, while he agreed in part that there were some grounds for criticism that we must remember that those who graduate from the eighth grade are but children and that we must not expect too much from them. But I insisted that if they were but children, that they had so many studies that they had no time to apply to "the fundamentals" and the result is the children now have but a superficial knowledge of the studies. A case in hand, one of the graduates in our school a few years ago was selling tomatoes to a peddler and the price was one cent a pound and the boxes weighed 2 1/2 pounds apiece gross and the tax was 2 1/2 pounds and she couldn't tell the amount the tomatoes came to, and she afterwards had a permit to teach on the strength of her eighth grade certificate. I think that it would be better to do away with some of the extra frills and go back to the old way of learning first the old three R's, reading, writing and arithmetic.

**Glass of Hot Water Before Breakfast a Splendid Habit**

Open sluices of the system each morning and wash away the poisonous, stagnant matter.

Those of us who are accustomed to feel dull and heavy when we arise, with a splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, lame back, can, instead, both look and feel as fresh as a daisy always by washing the poisons and toxins from the body with phosphated hot water each morning.

We should drink before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it to flush from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary tract before putting more food into the stomach.

The action of limestone phosphate and hot water on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, acids, sweets and gives you a splendid appetite for breakfast and it is said to be but a little while until the roses begin to appear in the cheeks. A quarter pound of limestone phosphate will cost very little at the drug store, but is sufficient to make a glass of hot water with a teaspoonful of limestone phosphate in it. It is a splendid remedy for indigestion, acid stomach, constipation, stomach trouble or rheumatism a real sensation on the subject of internal sanitation. Try it and you are assured that you will look better and feel better in every way shortly.

**SAYS ACID STOMACH CAUSES INDIGESTION**

Excess of hydrochloric acid sours the food and forms gases.

Undigested food delayed in the stomach decays, or rather, ferments the same as food left in the open air, says a noted authority. He also tells us that indigestion is caused by hyperacidity, meaning, there is an excess of hydrochloric acid in the stomach which prevents complete digestion and starts food fermentation. Thus everything eaten sours in the stomach much like garbage sores in a can, forming acid fluids and gases which inflame the stomach like a toy balloon. Then we feel a heavy, lumpy misery in the chest, we belch up gas, we eructate sour food or have heartburn, flatulence, water-brash or nausea.

He tells us to lay aside all digestive aids and instead, get from any pharmacy four ounces of Jds. Sals, and take a tablespoonful in a glass of water before breakfast and drink while it is effervescing and furthermore, to continue this for a week. While relief follows the first dose, it is important to neutralize the acidity, remove the gas-making mass, and the liver, stimulate the kidneys and thus promote a free flow of pure digestive juices.

Jds. Sals is inexpensive and is made from the acid of grapes and lemon juice, combined with lily and sodium phosphate. This harmless salt is used by thousands of people for stomach trouble with excellent results.

Brandeis' Nomination Object- ways Came From Different

—Labor Organizations and League Hitherto Protest- Hearings Denied.

**HILSON GARDNER.**

NGTON, Feb. 15.—Until the nomination of Louis D. Brandeis to the United States supreme court, objections which have been made to proposed candidates for the court have always come from a different quarter. Labor organizations and people's leagues have been the protesters. Hearings hitherto have been secret and every effort to force the publication of backers and indiscretions of candidates has failed.

William J. Bryan in past years has consistently demanded such publicity. When President Taft promoted Justice White to be chief justice, Bryan published an open letter October 20, 1911, in which he said: "You appointed to the chief justiceship of the supreme court Justice White, who thirteen years ago took the trust side of the trust question. You appointed him over the head of Justice Harlan, who had served longer and with more distinction and who had taken the people's side on trust questions. You appointed Governor Hughes to the supreme bench after he had interpreted your platform to suit the trusts and proceeded to join Chief Justice White and carry out your platform promise to amend the anti-trust law by weakening it."

**Taft Dodged Reply.**

Bryan asked Taft to make public the recommendations, written and verbal, upon which he had made these and other appointments and "to let the people know the influences that dictated your appointments." President Taft replied evasively, saying that he considered the questions "an insult to the supreme court."
