President M. K. Meyer of the Winnetka bank, of Winnetka, Illinois, which lies close up against the big business end of Chicago, is in the city today, accompanied by his daughter, Miss Blanche Meyer. They arrived yesterday and are guests of Dr. and Mrs. Gordon MacCracken of this city. Mr. and Mrs. Meyer stopped over these two days for a hurried visit with Dr. MacCracken and wife, whom they had known for many years, but will leave this evening for Fullerton, California, one of the picturesque suburbs of Los Angeles, where Mr. Meyer's brother resides, being manager there of the Fullerton Packing company, a business concern. During the month of January the goats were fed well and are in excellent condition. Shearing has just begun. They will average four and a quarter pounds of mohair each, worth now only 20 cents a pound, but the promise is that the price is rising. Coyotes have not bothered the flock much during the winter so far. Mr. Kershaw killed about 20 of the slyling marauders during the winter.

Washout on Main Street. For the first time in the history of Medford there occurred a washout in the business section of Main street, which caused the street department no great worry and is also arousing considerable interest among passersby.

It is a washing of such snowy whiteness as to arouse the wonderment and curiosity of those who see it. Paul's Electric Store is operating a Thor electric washing machine on its floor, and in conducting this demonstration is actually doing the washing.

The fact that the machine is operated by a man who with his sleeves rolled up is going through the motion of doing the family washing affords considerable amusement to passersby.

AS WE GROW OLDER

our minds are quite as active as in former years but our strength does not respond when we need it most; perhaps the kidneys are weak, the liver torpid, rheumatic pains or stiffened joints beset us, and we cannot easily throw off the colds that winter brings.

What we need is the rich cod liver oil in Scott's Emulsion to renew the blood and carry strength to every organ of the body, while its glycerine and hypophosphites strengthen the excitable nerves.

Scott's Emulsion is a scientific food, of unusual benefit to those past fifty years—particularly during the colder seasons, it imparts warmth and creates strength. One bottle will prove its worth. No alcohol or harmful drugs.

SUCCESS OF A NEW REMEDY FOR BACKACHE, KIDNEYS, RHEUMATISM.

Dear Mr. Editor—I suffered for years with backache. Last March I tried "Anurie" and have used this new kidney medicine recently discovered by Dr. Pierce, and it was wonderful the way it eased the pain and gave me relief in such a short time. I have tried several medicines, but "Anurie" is the only one that gave satisfaction. I feel it my duty to recommend "Anurie Tablets" to any one who suffers as I did. (Signed) Mrs. MARGARET E. STEDER.

NOTE: Folks in town and adjoining counties are delighted with the results they have obtained by using "ANURIC," the newest discovery of Dr. Pierce, who is head of the INVALIDS' HOTEL and SCIENTIFIC INSTITUTES, in Buffalo, N. Y. Those who started the day with a backache, stiff legs, arms and muscles, and an aching head (worn out before the day began because they were in and out of bed half a dozen times at night) are appreciating the perfect rest, comfort and new strength they obtained from Dr. Pierce's Anurie Tablets. To prove that this is a certain uric acid solvent and cures headache, kidney and bladder diseases and rheumatism, if you've never used this "Anurie" medicine, get a large sample package. This will prove to you that "Anurie" is thirty-seven times more active than lithia in eliminating uric acid—and the most perfect kidney and bladder corrector. If you are a sufferer, go to your best druggist and ask for a 50-cent box of "Anurie." You run no risk for Dr. Pierce's good name stands behind this wonderful new discovery as it has for the past half century for his "Golden Medical Discovery," a general tonic made from roots with pure glycerine which makes the blood pure, his "Favorite Prescription" for weak women and "Pleasant Pellets" for liver ills.
