# GERMAN PLOT TO TAKE MADAGASCAR FOILED BY NATIVES

PARIS, Feb. 18 .- The Paris Jour- 1916. nal's corresponden tat Tenanarivo says that German agents financed and otherwise encouraged a native plot to overthrow the government of Madagasear on December 31 last, lawsuit or trouble, his testimony of this place. The seat of the conspiracy was Fianarant-on ,and it was planned to poi son the French officers and soldiers on New Year's and either gain the native troops to the cause of the con- these be analyzed and comparisons. Applegate the past six weeks, remilitary weapons. The white offic- is not materially changed in transit. ials and colonists were then to have been massacred. The plot was re- with the springs project, important venied to the authorities and already or otherwise, be acted on by the comover 200 persons have been arrested mission as a whole and not by indiand other arrests are expected, as the vidual members. investigation is still proceeding. The great bulk of the population remains commission make a definite proposi loyal to France and has not been af- tion at this time to the Smith-Emery feeted by seditions propaganda.

The great island of Madagascar, in of the mineral water plant." the Indian ocean, lying off the east coast of Africa, was officially recognized as a French colony in 1896 at ter a war of occupation. The majority of the natives are not Africans, the Malayan element predominating in their greatly mixed blood.

## UNITED STATES STANDS PAT

(Continued from page one)

able argument on this subject embodied by Mr. Lansing in his note of last August to the government of Austria-Hungary. The war, and the war plone, has also created conditions under which any change at this time in the springs water plant, the followthe attitude which we took officially at the outset of the war in regard to ing recommendations were properly armed merchantmen would be an unneutral act. The merchantmen of one belligerent have been swept from the seas, therefore, if we should abandon all the principles on this acceptance of the plant as constructsubject that we have ever sustained, ed by the Smith-Emery company if we should abandon the rules laid there should be a thorough test of down by Mr. Lansing in his circular the physical plant under usual runof September, 1915, and declare that ning conditions and tests made of our ports were closed to armed mer, the mineral constituents of the watchantmen, or that goods and passen- ers said tests to be conducted with gers from the United States could full access of the nublic to all parts not be placed on an uncommissioned of the plant and for not less than merchantman armed solely for self. thirty days. (Signed.) defense, our actions would affect only one belligerent; it would alter conditions created by the war and would therefore be unneutral. It would make us at once the ally of the belligerent whose merchant marine has been driven from the ocean. It would be a step toward war. "I cannot believe that the adminis-

tration thinks for a moment of altering the well-defined position which it took at the outset of the European war, and I believe that it must stand as firmly on this question as it has on the question of the embargo. Should it act otherwise, it would accept a humiliation and incur a danger of war from which even the boldest and most unscrapulous would shrink.

# TEMPEST IN LITHIA TEAPOT

# DRINK HOT WATER IIF YOU DESIRE A ROSY COMPLEXION

Says we can't help but look better and feel better after an inside bath.

To look one's best and feel one's best is to enjoy an inside bath each morning to flush from the system the previous day's waste, sour fermentations and poisonous toxins before it is absorbed into the blood. Justlas coal, when it burns, leaves behind a' certain amount of incombustible material in the form of ashes, so the food and drink taken each day leave in the alimentary organs a certain amount of indigestible material, which if not eliminated, form toxins and poisons which are then sucked into the blood through the very ducts which are intended to suck in only nourishment,

to sustain the body.

If you want to see the glow of bloom in your cheeks, to see your skin get clearer and clearer, you are told to drink every morning upon arising, a glass of hot water with a teaspoonful of limestone phosphate in which is a harmless means of washings the waste material and toxins from the stomach, liver, kidneys and bowels, thus cleausing, sweetening and purifying the entire alimentary tract,

before putting more food into the stom; Men and women with sallow skins, liver spots, pimples or pallid complexion, also those who wake up with a coated tongue, bad taste, breath, others who are bothered with headaches, blitous spells, acid stomach or constipation should begin this phosphated hot water drinking and are assured of very pronounced results in

one or two weeks A quarter pound of limestone phosphate costs very little at the drug store but is sufficient to demonstrate just as soap and hot water cleanses, purifies and freshens the skin on the outside, so hot water and limestone phosphate act on the inside organs. We must always consider that internal sanitation is vastly more important than outside cleanliness, be cause the skin pores do not absorb impurities into the blood, while the sowel pores do.

You know, and every physician knows, that when any sickness has passed, whether it be throat trouble, organic distorbances, contagiona diseases, or even a severe cold, a relapse is feared, because sickness tobs the system of Nature's resistance and leaves it subject to lingering germs,

Drugs never build up a worn-out body-only food can do that, and the first thing to take after any sickness is the concentrated, blood-making oilfood in Scott's Emulsion, which feeds the tissues, benefits the blood and strengthens both lungs and throat.

Physicians prescribe Scott's Emulsion after sickness. Nurses everywhere advocate it. Scott's is pure medicinal food, without alcohol or drugs. Scott & Bowne, Bloomfield, N. J.
