

EXPERT DISCUSSES STOCK SITUATION SOUTHERN OREGON

C. M. McAllister, representing the Union Stock yards at Portland, is visiting among the farmers of the valley for a few days.

"Draw a line from Canada through the United States to the Gulf of Mexico," said Mr. McAllister, "and you will have divided the two sections of the country in which conditions have been unusual since the European war began."

"Generally, when prices of feed go up, the figures of the stock market rise. That situation has been reversed in the west during the past several months."

"The farmers became discouraged on account of the shortage in feed crops and concluded to get rid of their stock. Particularly was this the case in the matter of hogs."

"Your farmers have neglected one important essential in their farm progress in this valley. They have overlooked the importance of maintaining a few hogs and sheep and cattle, where they can raise the feed for them."

"They have neglected another thing in this valley. They need water for irrigation purposes to insure a crop of good feed stuff."

"You have a magnificent valley here, fine soil, very rich, very fertile. There is just one expense for shortage of feed."

"Mr. Goodsell is advocating for a boat to sail from Portland about November 1 for the apple and pear growers of Oregon, Washington, Utah and California."

GROWERS' ORGANIZATION NECESSARY FOR SUCCESS

A very interesting and instructive talk was given local fruit growers at the public library Saturday afternoon by E. L. Goodsell of New York, a prominent member of the auction fruit market.

Mr. Goodsell did not ask the growers to sell their fruit at auction, on the contrary said that until the apple and pear values attained more desirable proportions, the auction market would not care to handle the fruit.

The speaker emphasized the need of cooperation among the apple and pear growers and said that such a better organization was effected there would be no money in these fruits just as there was no money in oranges and grapes before the growers of California organized.

WHEN TO PRUNE SHRUBS AND PLANTS ABOUT THE LAWN

WASHINGTON, March 5.—A BLUE early care given to the pruning of ornamental trees and shrubs during the early part of March will do much to control their growing and flowering habits, and enable the home owner to have well-formed plants and well-trained hedges or boundaries plantings.

Flowering trees and shrubs that bloom in the spring or early summer should not receive radical pruning at this time, according to the garden specialists of the United States department of agriculture.

Trees and shrubs that bear their flowers in midsummer and which were not pruned in the fall may be pruned at this time.

Climbing roses should not be pruned at this time except for the removal of surplus or interfering branches.

Roses need for cut flowers, like the hybrid perpetuals, the hybrid tea and teas, should be severely pruned.

Mr. Goodsell was pointed out by Mr. Goodsell who said that if the market went down after the sale was made then the consequences reported the fruit unsatisfactory and if it went up he of course made an extra profit while the grower suffered a loss.

PRESIDENT RETURNS FROM CRUISE ON MAYFLOWER

WASHINGTON, March 5.—President Wilson returned early today from his week-end trip down the Pacific coast aboard the royal yacht Mayflower.

Extensive advertising of northwest fruit as a whole was advised with some trade names (which) to Sunkist oranges, which would not replace the local brand but would put all the fruit under one inclusive term.

At the close of his remarks a vote of thanks was extended Mr. Goodsell by a motion from the floor by J. A. Perry.

CAPITOL SEETHES IN LABORED SPASM OVER PREPAREDNESS

By GILSON GARDNER. WASHINGTON, D. C., March 5.—Whether one approves or not, it is impossible to ignore the fact that there is a very strong present-of-moment-of-price sentiment in congress.

The simple jingo is not heard from to any large extent. The man with a preparedness argument is strongly holding his ground.

The president's party is rapidly dividing and subdividing. A lot of people who were formerly most enthusiastic Wilsonites are bitterly assailing him now for his alleged emulation of Theodore Roosevelt.

The Goodrich touring bureau was established for the express purpose of giving free aid and information to motorists on unaccompanied tours.

"It is the most successful organization of the kind ever inaugurated and no other, whether public or private service, can approach it in efficiency and scope."

"We help the motorist plan his trip from start to finish, supply him with accurate information as to distances, creosoles, bridges, repair shops, etc., and in fact, make it easy for him as if he had already covered the route."

"Motorists have not been slow to avail themselves of this opportunity, and the deluge of letters and cards which daily pour in speaks eloquently of its growing popularity."

THERE IS A VAST ARMY

of men and women who really never know what it is to enjoy sound, vibrant health—who would be surprised to suddenly gain that exhilarating vitality that robust health brings.

At the close of his remarks a vote of thanks was extended Mr. Goodsell by a motion from the floor by J. A. Perry.

RUN-DOWN WOMEN

We Have a Remedy That Will Cure You Nothing If It Does Not Help You

Medford women will please realize that we mean just what we say in the above heading. Letters like the following prove the efficiency of Vinol in such cases:

"For the benefit of the other tired women, I want to say that I keep house for seven in my family. I became run-down, all played out, I did not seem to have any life in me and looked badly. I read so much about Vinol I decided to try it and I must say it helped me in every way. It built me up so I felt like a new woman, and my friends said they could see a great change in me."

We recommend Vinol to our customers as the greatest strength creator we know—due to the extractive medicinal elements of fresh cod livers, without oil, combined with hypophosphate of iron and beef peptone, all dissolved in a pure medicinal wine.

The following is a schedule of expenditures of Jackson County, Oregon, together with a list of claimants and articles or services for which the claim is made, and which were passed upon by the County Court for Jackson County, during the month of January, 1916.
