The American navy with next-to-nothing aeroplane service is a good deal like a 25-room house with one bathroom.

From Hens to Literature.

For Exchange—Buff Orpington hens for second-hand Remington typewriter. (Want ad. in a daily newspaper.)

A Hint For Some Girls

When Japanese women go to the theatre, they begin dressing for it the day before.—Newspaper Item.

Today's Bellringer.

For nearly an hour the salesman had been dilating on the merits of the motor-car he was trying to sell.

"And the price of the car is \$1000" the customer murmured, thoughtfully. "Does that include everything?"

"Yes—oh, no; of course, the lamps are extra."

"Lamps extra?" said the customer, sharply. "But they are shown in the illustration."

"My dear sir, so is a very beautiful woman shown riding in the car," said the salesman, smoothly, "but we do not give a lady with every car!"

Says the Girl on the Film

I think the women should stick together, but I can't help sympathizing with the husband who kicked when his wife had her film's monogram stamped on his dog biscuits.

A Terrible Threat

If these automobiles don't quit howling like a dying calf and spitting dust in our eyes, we are going to lose our religion long enough to puncture a tire on somebody.—The Hoxie (Ark.) Enterprise.

Scare-head in southern newspaper: "Man Arrested For Trying to Blow Up Theater." Folks of the present day have a fine chance to prevent the stage.

Some publication flashed another for the book: "Girl Paints When Told Her Mother Married Again." She couldn't go a step farther.

A Chance For Investors

Invent an alarm clock that will wake up the maid without arousing the entire family to take the place of the present clocks that arouse the whole family without disturbing the maid.

SETTING A GOOD EXAMPLE

TO be put out of an established and recognized business of years' standing by a vote of the people is a hard blow to a business man, but the liquor dealers of Oregon seem to have accepted the new order philosophically and are making the best of the situation.

One thing seems certain, the old order is gone for at least a long time. The saloon has probably closed its doors forever. If the embargo is lifted it will be in a new form. There is no reason why, if the importation of liquor is permitted, its local sale should not be sanctioned under similar restrictions—for there is no use in sending the money out of the state. But the present tendency is for further restriction, for the people are becoming educated out of its use—not because of prohibition, but because of the universal recognition of increased efficiency due to abstinence.

Some of the buildings occupied by the saloon are still vacant, for this is the period of readjustment, but gradually they will be occupied for other uses, with an eventual gain to the community. A good example has been set by the former liquor dealers themselves. One in this city has converted a former saloon into one of the handsomest, most attractive and well-patronized institutions in the city. And who can gainsay but that humanity is the gainer thereby?

GASOLINE FROM SHALE

IN reply to a recent senate resolution on gasoline, Secretary Lane calls attention to the feasibility of manufacturing gasoline from shale, from which an almost inexhaustible supply can be obtained.

The United States geological survey bulletin states that shale contains many materials which, when heated, may be converted into crude oil, gas and ammonia. The increasing cost of gasoline enables the profitable manufacture of gas from this material.

The oil derived from the shale is similar to that which is being produced from wells. When refined by ordinary methods the shale oil yields an average of about 10 per cent gasoline, 35 per cent kerosene and a large amount of paraffin. The yield of gasoline may be increased by the use of refining methods especially designed for that purpose. The gas, which is a very good illuminating gas, will perhaps be sufficient to furnish all the heat required to distill the crude oil from the shale. Ammonia is a most valuable byproduct of the distillation and may be utilized in the manufacture of commercial fertilizer or other nitrogen compounds, as the market demands.

There are vast deposits of shale in southern Oregon which could be utilized for this purpose, as well as extensive coal deposits, superior to the shale for the purpose of manufacturing oil. They form one of the many undeveloped resources of the region.

REGISTER AT ONCE

VOTERS of Jackson county are strangely negligent about registering. Only about an eighth of the vote has so far been registered, and unless the voters are registered they cannot sign candidate petitions nor can they vote at the primaries.

Under the present law, registrars have been appointed for each precinct, and registration must be made with the registrar. This registration is permanent and will not have to be repeated for every general election, as in the past.

To avoid the rush of the closing days of registration and the incidental errors, every one should register at once and have it over with.

SCHOOL CHILDREN PLANTING GARDENS; SEED IS REQUESTED

Eight boys of the Washington school, under the supervision of Roy B. Peebles, have planted 2100 feet of early peas on the lots on West Main street, owned by Dr. Hargrave and W. S. McIlwain. The boys interested in this work are Lyman Sprague, Matthew Wolff, James Bell, Franklin Brandon, Oris Daily, Robert Caster, Howard Fancher and Ralph Brandon.

The ground is exceptionally good and with some attention should give a splendid yield.

In order to encourage this work the firm of Marsh & Bennett has offered seeds at wholesale price. The city council has granted free water for the vegetable garden, also for a border of flowers fifteen feet wide on the opposite side of the street, on the Brandenburg property. The city also contributed the plowing and harrowing.

G. E. Marshall has generously offered to loan 200 feet of water pipe, greatly reducing the amount of hose required.

A. S. Bliton superintended the plowing and helped in many other ways to get the work started, while Roy B. Peebles has gallantly stood by the boys in fair weather and foul, until at last the peas are planted.

Messames Bliton, Graham, Potten-

ger, Perry and Stoddard planted three rows of Shasta daisies, which were contributed by Mrs. Earl C. Gaddis and Mrs. William Aitken.

All who have pansies, sweet Williams, snapdragons, foxglove, larkspur, petunias or other perennials which they could contribute, will greatly assist in this work if they will report same to Mrs. A. S. Bliton or Mrs. T. E. Pottinger. Seeds of the following are also needed: Shirley poppy, zinnias, cornflowers, snapdragons, asters and petunias.

Mrs. T. E. Pottinger will have charge of this work for the civic department of the Greater Medford club, and the people living in that immediate neighborhood, as well as many other public-spirited citizens, promise their heartiest co-operation. Will Warner rendered very material aid by the loan at various times of his seeding machine. P. H. Daily furnished the boys, and all the passers-by smiled—that also helped.

NOTICE

FAIR SHOW FOR HOME TEAM TO WIN AT TONIGHT'S GAME

BY L. S. HEVERIDGE

Medford will be crippled in tonight's game by the loss of its captain, Duth Thomas, who has been suffering with an injury to his foot. Yesterday noon, the physician examined it and pronounced it an abscess that should be lanced immediately.

Interest in the game with Ashland is beginning to be optimistic instead of the resigned feeling that we are due for another defeat. A close study of the two teams shows conclusively that Medford is not outclassed, but that in one part of the game she is far superior to her rival. That in the scoring department we have been deficient, coupled with a hoodoo that jinxes the locals from scoring.

In the Ashland and Medford games we had the ball 70% of the time, had 30 chances at baskets that we did not score. Made one field goal that did not count, and lost 5 shots that went into the ring, but came out. Ashland had 18 chances at baskets that did not count, none that went in without counting and have not lost a completed field goal. They lead us by but two baskets, and in the last game here our forwards and center had five easy shots, that at any other time would have made scores, and lost the game by a 6-7 margin.

This proves three things, since we keep the ball more our team work and passing are better. We have allowed fewer shots at baskets and spoiled more plays to baskets, holding Grisez and Fralry to a margin of only two more field goals than our forwards made, therefore our guards and defense are higher.

Ashland has beaten us at the offensive scoring, not only on close plays but long phenomenal shots. They have been lucky to score these, not that they should not get credit for making them, but that Medford has shot the same kind only to have them balance on the ring or to go inside and crawl out.

This points conclusively to one thing, Medford must get a scoring system of plays that will enable them to score more often and practice shooting baskets for better accuracy.

Coach Klum feels that he has the better system and one that will work. The boys have wakened up and pep with determination to win will go a long way to victory. They are getting the feeling that they are the better team and that they can defeat Ashland. Not overconfidence, but faith in their ability. Every man is training hard and practicing faithfully.

A word of praise should go to Narrean for his splendid work at Ash-

WAY TO GAIN FLESH

Conductor Tells How He Gained Flesh and Strength.

So many cases like the following are continually coming to our attention we want everyone in Medford to know that our offer still holds good to return money in every case where Vinol, our delicious cod liver and iron tonic, fails to create strength and build up weak, run-down, nervous, overworked men and women.

"I am a conductor on the Scranton Ry., and became run-down and tired out, lost my appetite, flesh and strength and yesterday I was weighed and it showed I had gained twenty-six pounds since taking Vinol. I cannot say enough in praise of Vinol, for what it has done for me."—G. B. Sorber, 1512 Vine St., Scranton, Pa.

About every other day we are publishing letters like this in Medford newspapers about Vinol. They are guaranteed to be truthful and genuine, and show the good Vinol is doing all over the country.—Medford Pharmacy.—Adv.

STAR THEATRE. WHERE THE CROWDS GO.

Without the glitter and glory. Without its horrible, heartless cruelty; its wasteful, wanton destructiveness—just as it really is. All this you see in the most truthful pictures of the great world struggle ever presented.

"THE HORRORS OF WAR" BIG SHOW OF REAL TRUTH TODAY ONLY. See a Big Ocean liner Sunk Before Your Eyes by a Russian Battleship. ADMISSION 10 AND 15c.

land. He returned to form and pep and was a tower of strength to the boys. He had several hard luck shots that if they had not fallen away from the ring would have won the game.

Miss English of the girls' team has held the Ashland girl wonder, Miss Moore, to a scoreless game. This defense on the part of Medford has prevented Ashland from winning, for Ashland has built their plays around Moore.

Stewart and Bacon have proved to be stars and they have scored several very fine shots.

Miss Stewart has been the main scorer all year and is piling up a great record. She really has defeated Ashland.

Davis and Corlies are both good, though the forward has not struck her scoring stride. She can do so and the next game will probably show her in the field goals thrown. She has been suffering a slump in this department for a little while but in practice has proven that she has come back. Corlies has held Klein to a fare-you-well, out playing her opponent and rendering the scoring department of the Ashland team to be inefficient.

A little practice on foul shots and better passing will make them victors overwhelmingly.

GIRLS! GIRLS! TRY IT! STOP DANDRUFF AND BEAUTIFY YOUR HAIR. Hair Stops Falling Out and Gets Thick, Wavy, Strong and Beautiful.

Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a Danderine hair cleanse. Just try this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt and excessive oil and in just a few moments you have doubled the beauty of your hair.

Desires beautifying the hair at once, Danderine dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair. But what will please you most will be after a few weeks' use when you will actually see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. If you care for pretty, soft hair and lots of it surely get a 25-cent bottle of Knowlton's Danderine from any druggist or toilet counter, and just try it.—Adv.
