The Oregon Lumber company located in Baker is scheduled to resume operations next Monday. It was announced today. The W. H. Eccles Lumber company plans to operate its full plant next month. The Stoddard company's company's plant will remain as soon as repairs are completed. The Baker white pine plant is running full time.

ASHLAND AND VICINITY

At the recent meeting of the Business Men's Association, it was decided to hold a picnic for members of the organization throughout the valley here in June. In line with this decision invitations are hereby generally extended. Honier Elhart was appointed recording secretary in place of Monte Briggs, resigned. A suggestion that the monthly dues be fixed at 50 cents per month instead of one dollar will be decided later on.

"Carmen," as given by the high school students, will hardly be rendered before rehearsals will be in order for "Miss Hobbs," the senior class-play which will be staged May 5th.

A community of basketball interests has been locally suggested whereby Ashland and Medford might pool their best players and challenge Red Bluff for a game at Medford in the near future. Red Bluff has been taking all of northern California, but might run across a barrier at the state line.

Spring matters remain in statu quo in spite of the resignation of the publicity manager and boy commissioner. Frank Jordan is on the job to fill the vacancy on the board, and at a recent meeting of the commercial club was hailed over the carpet, ready and rapidly responding to a lot of questions concerning the springs plant, answering satisfactorily interrogations respecting past, present and future plans and operations. Expert engineers from Portland have come and gone, after making a physical and technical examination of the entire system. This cost about \$400. Claims for damages incident to pipe line defects have been settled in an amount approximating \$300.

O. A. C. chemical experts are still analyzing the waters to determine if the are qualitatively the same at this end of the pipeline as they are at the other. And now comes the state board of health demanding a further analysis to determine if the waters are the same at the other terminal of the line as they are at this end. Evidently the end is not yet. In the meantime the big fountains are gushing lithia to perfection and it is a pleasure to watch them foam. One may now slack thirst either in the park or at the railway station.

A recent vice probe in Portland has unearthed an unsavory case of seam-ming, in which Marie Townsend, former resident here, is implicated as principal witness against a bunch of rouses who have been indicted and are either in jail or out on bail. Marie, who is 18, was allowed to stay with her mother at the Sargent hotel, where her mother was a waitress. Instead of being sent to the Home of the Good Shepherd, Mother and daughter have disappeared, and it is thought they have been spirited away to prevent them from appearing as witnesses. There are intimations of police "protection" in the case. Mrs. Townsend formerly kept the Savoy hotel here. Marie was an adopted daughter. She was a bright, attractive girl and many friends in Ashland regret to hear of the shadow which has come over her young life.

Lara Elinson leaves early next week to join his brother Ross who has located on a broad acreage of grain lands near Sun Dial, Province of Alberta in the Canadian northwest.

DRINK HOT WATER BEFORE BREAKFAST

Says you really feel clean, sweet and fresh inside, and are seldom ill.

If you are accustomed to wake up with a coated tongue, foul breath or a dull, dizzy headache; or, if your meals sour and turn into gas and acids, you have a real surprise awaiting you.

Tomorrow morning, immediately upon arising, drink a glass of hot water with a teaspoonful of limestone phosphate in it. This is intended to first neutralize and then wash out of your stomach, liver, kidneys and thirty feet of intestine all the indigestible waste, poisons, sour bile and toxins, thus cleansing, sweetening and purifying the entire alimentary canal.

Those subject to sick headaches, harkbacks, bilious attacks, constipation or any form of stomach trouble, are urged to get a quarter pound of limestone phosphate from the drug store and begin enjoying this morning inside-bath. It is said that men and women who try this become enthusiastic and keep it up daily. It is a splendid health measure for it is more important to keep clean and pure on the inside than on the outside, because the skin pores do not absorb impurities into the blood, causing disease, while the bowel pores do.

The principle of lashing inside is not new, as millions of people practice it. Just as hot water and soap cleanse, purify and freshen the skin, so hot water and a teaspoonful of limestone phosphate act on the stomach, liver, kidneys and bowels. Limestone phosphate is an inexpensive white powder and almost tasteless.

The Great Kidney Medicine Fulfills Its Mission

I was afflicted with bladder trouble. I suffered such great pain that the doctor had to take my urine. After the doctor had treated me for two weeks, I did not get any better. Remembering that a few doses of Dr. Kilmer's Swamp-Root completely relieved by mother-in-law, after all the doctors who were called on her case had failed to do her any good, I asked my husband to get me a bottle of Swamp-Root, which he did, and I took it and threw the doctors' preparations away, because immediately after I started taking Dr. Kilmer's Swamp-Root I was greatly relieved. My husband was so pleased he said I should take one dozen bottles of Swamp-Root, but by the time I had taken seven bottles I was completely restored to health. That was six years ago and I have not taken any medicine since. My weight is 195 pounds, have three children, do my own work in a house of twelve rooms, and keep boarders.

Very truly yours, MRS. ANNIE BAUGHMAN, 627 Newell st., Baberton, Ohio.

Personally appeared before me this 19th day of December, 1914, Mrs. Annie Baughman, who subscribed the above statement and made oath that the same is true in substance and in fact.

\$10,000 STOLEN FROM CUBA BANK RETURNED

NEW YORK, Mar. 17.—A United States government \$10,000 gold note, one of twenty of the same denomination stolen from the mail in September, 1912, while on the way to New York from Havana, Cuba, was received today by a bank in this city, from Madrid, Spain. It was sent by registered mail by the American Bank of Spain with the request that it be placed to the credit of that institution. It was the ninth of the stolen notes to reappear since the theft. No information was available as to how the note reached the Madrid bank. A cable message was sent explaining the situation. As the notes appear they are given to the insurance company which paid insurance covering the amount of the theft to the National Bank of Cuba.
