ITCHING ECZEMA IS A CONSTANT BLOOD CRY

The Blood Reaches Every Part of the Body Every Twelve Seconds.

There are approximately 200,000,000 cells in the skin of a human body. These cells are constantly being renewed. If the blood is impure, the skin will be impure. The skin is the largest organ of the body and is the most sensitive. It is the first line of defense against disease. If the blood is impure, the skin will be impure.
