# PLATINUM FOUND ALONG WITH GOLD AT FOOTS CREEK

At a time when platinum is worth more than four times as much as gold, market quotations giving it as from $80 to $85 an ounce, the discovery of platinum in the quartz of the Highland mine on Foots creek in an unusual proportion is somewhat sensational.

While the Highland mine has been worked for a year or more, it wasn't until during recent months that the showing in gold created any excitement. The present owners, finding reason to believe that the ore was increasing peculiarly in richness as depth was attained, added strength to their force in an eager desire to uncover more evidence of the extent and richness of the ledge. Every development has been uniformly favorable, the increase in the output portion being especially gratifying.

**Platinum is Found**

Recently they made a shipment of bullion from the mine to the refiners at San Francisco. When the card came back the Highland owners were most agreeably surprised to find that they had a platinum mine. In 10,021 ounces of fine gold was found .032 of an ounce of native platinum by the refiners.

Since the platinum was discovered in the bullion, it is not known from what rock it came. At once the mine owners became busy on the proposition of developing the platinum content of their vein. They have already sent for a complete equipment to handle the platinum by separating it from the gold. The proportion shown between the gold and the platinum is unusual. It gave reason to believe that the latter is probably the richer of the two elements of their mine, although in gold the quartz runs as high as $200 or more.

**Watching Developments**

Miners have been watching the developments in the Highland mine during the past six weeks with more than ordinary interest. F. O. Elliott, formerly one of the owners of that property, visited it on Wednesday of this week, bringing back a number of very attractive samples of ore. They are now on exhibition at the Commercial club.

Not many gold miners, in proportion to the large number engaged in that fascinating business, know anything about the science of platinum and tungsten mining. The discovery in this district of these precious metals, now being quoted at sensational figures, has prompted an unusual inquiry into that feature of the business in this extensive mining territory.

# GREER NOT STATUE OF ABE LINCOLN

(From the Ashland Record.)

Mr. Greer apparently has himself and the mineral springs project confused. Every time anyone questions his judgment or his integrity or his acts he says they are knocking the springs project. Mr. Greer isn't the springs project—he isn't the park for the auto camp, nor the Scott-Evers contract nor the Butler-Perozzi fountain nor the statue of Abe Lincoln nor the children's playground nor the distributing station nor the lake nor the tea garden nor the fudge well nor the sulphur cave nor the waterfall nor the pipeline nor the bond issue. He isn't the springs nor the earth from whose bosom they gush. He isn't Mount Ashland nor the climate nor the owners nor the altitude nor the annual rainfall. He constitutes part of the "local clique" and he may or he may not be the springs commission, but he is not the project. What Mr. Greer is a public servant elected by the people to perform specific duties. He has no more right to run the springs project to suit himself than the mayor of Ashland has to run the city to suit himself. He is answerable to persons and remonstrances. He can be more easily spared the moment he ceases to perform his duties than can the mayor, and if he does not like the way the people want him to run the springs project he can resign and let some one else run it. He has a perfect right to withhold public information from the people, but if he does he will be relieved of his own private affairs more than he yet has. Mr. Greer should live to remember that "God and mankind abhor things."

**Beef Roll**

**A New Way of Using Left Overs**

*By Mrs. Janet McKenzie Hill, Editor of the Boston Cooking School Magazine*

Every housewife finds the disposition of left overs a most perplexing problem. K C Beef Roll will go a long ways toward helping you out when the family get tired of hash and stews. You really ought to try it for supper tonight or tomorrow night at the latest.

Beef Roll, K C Style

*Three cups flour, 3 teaspoonfuls salt, 3 heaping teaspoonfuls K C Baking Powder, 3 tablespoonfuls short or cold, 1 cup cold beef, any kind, 1 tablespoonful mixed mustard, 2 tablespoonfuls onion, grated or juice, ½ teaspoonful sage, salt and pepper, broth or water.*

Make a biscuit dough of the flour, salt, K C baking powder, shortening and milk, and roll into a sheet half an inch thick, having the ends even. Mix the other ingredients by themselves, using liquid as needed to make a paste. Spread the paste over the dough and roll like a jelly roll. Bake in a buttered pan about forty minutes. Brush over the outside with a little beaten egg left for the purpose and return to the oven to brown. Serve hot with a rich brown sauce. Other meats, such as chicken or veal, alone, or in combination, may be used. The onion and mustard may be omitted.

Ninety recipes—just think of it—by the famous cooking authority, Mrs. Janet McKenzie Hill, sent free upon receipt of the colored certificate packed in 25-cent cans of K C Baking Powder. Send for the handsome Cook's Book today to the Jaques Mfg. Co., Chicago.
