WAGE AGREEMENT FOR COAL MINERS

INDEPENDENCE, Ind., April 11.—The wage agreement adopted at a conference of the officials of the United Mine Workers of America and representatives of the coal mine owners in New York has been ratified by a referendum vote of the miners' organization, according to an announcement made today by William Green, international secretary-treasurer of the union. The vote was 84,100 in favor of the agreement and 12,277 against it.

The new contract is for a period of two years, dating its beginning from April 1, 1919, when the old agreement expired. It provides for the payment of mining coal on a mine rat basis, an increase of three cents a ton, and an increase of five per cent for day labor, dead work and yardage.

This agreement is held as a basis for the negotiation of wage contracts in all of the districts of the organization.

MONEY DEVIL PLANS TREASON-WATTERSON

LOUISVILLE, April 11.—Under the caption, "The Money Devil Plans Treason," Henry Watterson says in the Courier-Journal:

"With Watterson to lead the way and Gary to foot the bills, the committee at Wall street are probably dominating the resulting national republican convention. Those of the delegates who cannot be secured may be bought. The streets of Chicago will be made to ring with Roosevelt music. The galleries of the Coliseum will be packed with Roosevelt claqueurs. Everywhere comes chaos—indeed, the world abounds with fools who can be had for nothing."

"On the surface it will look as if the wounds were actually on fire for Roosevelt. What of the day after—tomorrow, or the day after that—the voters of the republican party who are at heart republicans? What of the issues which will dawn at no man's bidding and cannot be explained away?"

What of the revelations the campaign is sure to bring forth?

"How might it profit the republican party to gain a man-of-horseback and lose its immortal soul, the likelihood being that if it monkeys with the Roosevelt buzz saw it will lose both?"

SENATE VOTES TO RESTORE SUGAR TARIFF

WASHINGTON, April 11.—The senate late today passed its substitute for the house free sugar repeal resolution extending the present duty of one cent a pound on sugar until May 1, 1919. The vote was 40 to 32. The Works amendment was voted down, 41 to 29.

MILLION DOLLAR RAIN FOR VALLEY

It was a million-dollar shower that gave us its first and a quarter of rain-fall since it began Sunday night. The weather bureau reports for today and tomorrow, with a light frost Wednesday morning. The exact measurement of precipitation since the shower began is 1.21 inches.

Conditions on the farms and in the orchards of the valley were favorable and "in a receptive mood" when the rain began. Generally it could not have come at a better time during the month of April. On many of the smaller ranches the work of seeding had been completed, but in many other cases the seeds of wheat, corn and other crops were waiting for the spring rains.

The rainfall was gradual and the temperature warm. At no time was there a downpour. The crops will receive the benefit of the entire precipitation.

The condition of the orchards and farms is excellent. Never was spring-time promise better for bumper crops. Notwithstanding the possibility of drought losses on account of water shortages, in crops that require a long season of growth, the old farmers express the belief that crops which mature early will escape injury from that cause.

The fumes of the pincers this year still passes at par.

PLAN REOPENING OF LUMBER MILL UPPER APPLIGATE

Arrangements are now being made to reopen operations of the sawmill of the Grand Applegate Lumber Co., located near Winking at the terminus of the canal of that company, also near the Blue Lodge mine. The mill has a capacity of 5000 feet a day of one shift. It will cut the lumber for the frames and other necessary improvements in the mines and mining camps of that district.

The Grand Applegate Lumber Co. reinstated its big drive about twenty years ago, intending to use it for reclamation purposes in the Applegate country. The canal was never finished for that purpose. It is in good repair now. It will be used to develop power also for the mines. Its owners figure that they can develop 1000 horsepower for distribution.

Tuxedo The Perfect Tobacco for Pips and Cigarette

ROBERT T. HOUGH Former Director U. S. Internal Revenue Service. "When a man finds the right tobacco, a pipe becomes his trusted counselor and friend. I have found the right tobacco in Tuxedo. Its delicious fragrance and mildness afford perfect enjoyment."

A whole lot of men at one time or another have tried to smoke a pipe—and used the wrong tobacco. Result—a hot tongue and "cold feet." Try again with the right tobacco—Tuxedo!

Tuxedo has made thousands of happy, contented pipe-smokers because it's so wonderfully mild and cannot burn, bite or blister the tongue or irritate the throat.

The rich, sun-ripened leaf for Tuxedo is aged 3 to 5 years. Then it's treated by the original "Tuxedo Process"—a doctor's discovery—which removes every particle of bite. There are many so-called processes—all are imitations of the "Tuxedo Process"—none has ever even approached the "Tuxedo Process" in making tobacco leaf mild and wholesome.

Try Tuxedo for a week and learn what it means to love your pipe. YOU CAN BUY TUXEDO EVERYWHERE Convenient, glassine wrapped, 5c Famous green tin with gold lettering, curved to fit pocket 10c In Tin Humidor, 40c and 80c. In Glass Humidor, 50c and 90c. THE AMERICAN TOBACCO COMPANY
