"Mines are made. They are not found." That is what Chas. E. Huff, postmaster at Copper, in the Blue Ledge district, said on Monday in an interview with this paper. He was incorrectly reported on that expression. Miners at once recognized the fact that the predicates of the two sentences had been exchanged, conveying positively an opposite meaning from that intended. A mining prospect, no matter how promising, is not a mine. It requires the demonstration of development to show that it is a mine. That requires money and energy. Mr. Huff said that money would accompany the railroad into the Blue Ledge country and that the transportation facilities would create the energy for their development.

E. W. Liljegran, the assayer and mineralogist, has returned from Gold Hill, where the sale of the King Mountain was made during the week. He says the district in which the tungsten was recently discovered is a region of busy prospectors. The veins have been traced for a considerable distance toward the Sardine creek country and it is believed that other discoveries may yet be announced.

Chief of Police Hitson has in his possession the remnants of a bicycle after thieves had finished the work of stripping it of such things as readily sell as "parts" and junk. It was found in an old unoccupied house in this city. It is not known who owns it, but if anyone lost a machine during the past few months and has not recovered it, the chief invites him to inspect the remains of this one.

Marvin Fisher, who lost a bicycle some nights ago, found parts of it in the basement of the Colonial apartment house on Riverside avenue. The seat of the wheel, together with other parts, had been carried away. It is evident that an organized gang of bicycle thieves are busy in this community, and yet almost any night bicycles may be seen, even at a late hour, left lying against the curbing of walks in out-of-the-way places, practically inviting a thief to go and help himself. Such carelessness encourages the enterprise of thieves.

Mrs. G. E. Johnson and Miss Dorland Robinson, the latter the artist of Jacksonville, left today for San Francisco, where they will devote ten days or two weeks to a study of the magnificent art exhibit of the Panama-Pacific exhibition which will be removed on the 1st of May. Neither of these prominent artists enjoyed the advantage of a visit to the great exposition, but they could not overlook the opportunity to see the extraordinary art exhibit which attracted practically all of the great artists of the country and claimed so many hundreds of thousands during the progress of the exposition. While in San Francisco the two artists of Jackson county, far above the average in talent and skill, will study the systems of the great art schools of that city.

VERDICT OF SUICIDE IN HOWARD TRAGEDY

OMAHA, April 12.—The coroner's jury in the inquest over the body of Mrs. Joseph Howard today returned a verdict of self destruction. Testimony at the inquest did not vary from the stories told by different persons since the tragedy. Joseph E. Howard testified that the day his wife committed suicide he had purchased a ticket to Chicago for her on a train that was to leave Omaha at 6 o'clock, that Mrs. Howard later cancelled the reservation and decide dto go with a woman friend later that day.

Howard was to meet her after the evening vaudeville and take her to the train. Just before his act was called, Mrs. Lamberti rushed into his dressing room and told him his wife had committed suicide.

WORKS OPPOSES TRYING TO TEMPT JUSTICE HUGHES

WASHINGTON, April 12.—Senator Works, republican, today compiled an attack on the army bill with a denunciation of politicians, who, he declared, were trying to tempt Justice Hughes with a presidential nomination.

"Partisan politics," declared the California senator, "is ruthless in its demands and invades the most sacred precincts of the national government. It is seeking place and pelf and power wherever it can find entrance.

"Just now it is attempting to invade the supreme court of the United States. It is presenting to a member of that body the greatest temptation that could be offered to an American citizen—to surrender his place on the bench and become a candidate for political office. This attempt to bring the highest judicial tribunal of the country, or any member of it, into politics should be resented not only by the member to whom the tempting offer is made but by the whole country.

"To my mind it is of the gravest importance that the great tribunal should be separated absolutely and forever from politics, candidacy for office or any interest in elections beyond that disinterested and patriotic interest of a private citizen.

"Whether Justice Hughes is going to allow his name to be used as a candidate," said Senator Works, "is of profound interest and of great importance to the country at large. Whether one man or another is named at Chicago is of little importance compared with the question whether the name of the member of the supreme court can be used to advance the interest or secure the success of any political party."

FOOD SITUATION IN TURKEY MOST SERIOUS

WASHINGTON, April 12.—The government has official information that the food situation in Turkey is serious. Little hope is entertained of securing concessions from the entente allies for shipment of supplies.

NEEDS PRESIDENT'S AID

(Continued from Page One.)

expediency and gone on record against Brandies because Clifford Thorne persuaded the farmers in his section of the country that Brandies had done something wrong in the five per cent rate case. Thorne is a very able man and quite sincere, but being obsessed with a bad case of temperament he permitted his feelings to become injured and took it out on Brandies with this rather unfortunate sequel. John D. Works of California has reported against Brandies, but Work's career in the senate has been evidently determined by flinging a coin on any question, so that his position is set down to pure eccentricism. William E. Borah of Idaho is studying the case and says he will come to a decision regardless of partisanship or the attitude of his fellow republicans on the committee, and will try to free his mind from prejudice and reach a fair conclusion.

The prospect of a favorable report adverse or unfavorable, placing the name from this committee is not a good of Brandeis before the senate to be one. About all the friends of Brandeis can do is the full membership and deis has hope for is a report favor- even then the floor of the senate is somewhat doubtful. Much will depend on the reaction of public sentiment. The senate is quite responsive to public opinion.

BE PRETTY! TURN GRAY HAIR DARK

Try Grandmother's old Favorite Recipe of Sage Tea and Sulphur.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is mussy and troublesome. Nowadays, by asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe, improved by the addition of other ingredients, for about 50 cents.

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, glossy and attractive.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire dark hair and a youthful appearance. It is not intended for the cure, mitigation or prevention of disease.
