Those who were induced to plant beet seed early are now sorry that they yielded to incompetent advice. They have the expense of planting again, the cold weather in March and a part of this month having destroyed the germs in the seed. It was published in this paper that sugar beet seeds are peculiarly sensitive to cold soil and ought not to be planted until the warm weather has come permanently for the season. The safest period in which to plant sugar beet seed in this valley is between the 20th of April and the 10th of May. That fact has been clearly stated a number of times. The rivalry between sugar concerns prompted representatives of the one already in the field of the lower part of the valley to urge farmers to believe that it would be a loss of valuable time to wait for the possible consummation of the plan for a mill in this part of the valley. The result, particularly noticeable in Sams valley, is that the work of planting has to be done over, the seed of the first planting having been chilled to death. The proper time for planting sugar beet seed is now approaching.

Furniture for the federal building has begun to arrive piecemeal. It comes from various parts of the United States. The arrival of the furniture equipment for the postoffice is being delayed by the usual red tape formula in such cases made and provided. The cost of the furniture for the entire building will exceed $4,000. A carload of chairs has arrived. Another half-carload is on the way. Postmaster Woodford believes the postoffice equipment will arrive in time for removal to the new building the latter part of this month.

WOMEN TO WEAR MEN'S PANTS IF WAR CALL FALLS

NEW YORK, April 15.—American women soldiers will wear trousers as part of their uniform if they follow the example set by the 200 members of the American Women's League for Self Defense. These women have been attending weekly drills here throughout the winter.

The style of uniform came up for vote last night and was the cause of animated discussion in which Mrs. J. Hungerford Millbank, head of the organization, asserted that the suits worn by the women need not necessarily be uniform. She objected to trousers on the ground that such a uniform would be opposed by husbands.

Others denounced dresses as a "curse and burden" to women and advised the women soldiers to get rid of them.

"When your husbands go to the front," said one speaker, "you will have to guard your home against marauders. It will be man's work and you cannot do it in dresses."

The vote for trousers was carried by an overwhelming majority.

The local ball team went to Jacksonville Sunday, where they trimmed the boys of the county seat to the tune of a 5-7 score. Taking everything into consideration the playing of the local team is remarkable as practically all the practice they get is during a matched game, as the busy season and distance prevents their meeting any oftener.

The return game with Jacksonville will be played next Sunday at the grounds of the Table Rock team.

BIGAMY CHARGE CONFRONTS MAN ACCUSED MURDER

SAN FRANCISCO, April 15.—Another complication arose today to confront James Gelfende, held here in the police as Pietro Tortorici, and charged with the murder of Joseph Villando in 1905. According to a telegram from Chief of Police Hickinbotham of Seattle, Mrs. Minnie Bonner, arrested there for shoplifting, has confessed that she was married to Gelfende in Kansas City, Mo., seven or eight years ago.

Gelfende or Tortorici has repeatedly declared to the police that he never married, although Mrs. Rose Tortorici, of New Orleans, is said to have identified a photograph of Gelfende as that of her husband. She lived here with Tortorici at the time of the murder.

It was in connection with the arrest of Mrs. Bonner in Seattle that Gelfende was caught.

LANSING WRITES NOTE TO KAISER ON SUBMARINES

WASHINGTON, April 15.—The United States government today was ready to take its next step in the struggle with Germany over the submarine warfare. This was the presentation of a second note to be sent to Berlin designed to bring the situation to an issue.

The communication will go forward within the next few days.

Indications are, however, that the United States' case against Germany is complete and that Germany will be informed that the Washington government considers the case satisfactorily made to the country.

It is made clear that the following communication, although accepted as the last word of the United States government, will leave the way open for forwarding to avoid a severance of diplomatic relations.

During the last nine days San Francisco led with 531 applications and 135 acceptances.
