The local Angora mohair pool disposed of its 1915 clip by auction Saturday. About six tons of the product, the whole job lot, was secured by J. N. Dennis of this city, representing Theo. Bealheim & Co. of Portland. The bid was \$2.55 cents per pound, a record price. Other bidders were Louis Worth of Ashland, in behalf of Norton & Co., of Portland, and Williams & Co., of Jacksonville. Medford bidders did not put in an appearance until the sale was over. C. W. Renta & Sons, Sam Holt, Davis & Sons, Don Williams and others constituted the pool, which was made up of stock-raisers of this vicinity and the Green Mountain springs district. In response to an invitation from the Springs commission, quite a number of local residents visited the Dodge soda well on Sunday, noting the scope of work done on that property in the untiring efforts of the commission to develop the soda as to both quantity and quality. This effort was virtually abandoned by previous contractors in favor of new engineers who are "onto the job," and have looked the problem in experts, securing flattering results. The flow is ample and the water possesses the qualities of the real genuine soda instead of being diluted to excess with common everyday drinks. These springs are about six miles out, the conduits from which are already laid awaiting a connecting up of the entire system.

More Strength for Feeble Old People

If all the old people in Medford realized what Vinol will do for them, we would not be able to get enough of it to supply the demand. We quote from a recent letter received from Mrs. A. E. Carson of Kingston, N. Y.

"I am 54 years of age, and had been ailing for a long time with indigestion. I got run-down, was weak, dizzy and could not sleep at night. I consulted two doctors who said I had hardening of the arteries and at my age could not expect to be strong again. My daughter would give me no peace until I tried Vinol, as it had done so much for her. I have taken five bottles and my health and strength have come back, so I am able to do all the housework for my family of four, and I am recommending Vinol to all my friends."

The reason Vinol is so beneficial to old people is because it contains the very elements needed to replace decaying strength with renewed vigor. It is the medicinal elements of fresh cod livers without oil, potentiate of iron, beef peptone, and a mild tonic wine. Medford Pharmacy—Adv.

The "Strawberry Special," running as second 16, now has three refrigerators as equipment. These will be increased to ten cars when the shipments are at their height. Each car contains 1200 crates, 15 cups to the crate. When the berries are going north at the rate of ten cars daily it will mean that over a million cups

weekly are speeding to the markets of the northern terminals. To reach up a million cups of berries will take the output of a sugar factory and the cream product from several herds of dairy cows.
