

IRISH FILIBUSTER LEADER CAPTURED TAKEN TO BRITAIN

LONDON, April 25.—It is announced officially that Sir Roger Casement was brought to London on Sunday for trial.

The announcement follows: "Sir Roger Casement, who was arrested in connection with an abortive attempt to land arms in Ireland from a German vessel, was brought to London on Sunday morning. He was met at Euston by officers from Scotland Yard and is now detained in military custody. It is understood evidence of his proceedings in Germany since the outbreak of the war will be produced at his trial."

Owing probably to the British censorship, only the bare facts in connection with the arrest of Sir Roger Casement and the present situation in Ireland have been made public. It was announced officially last night that an attempt was made last week to land arms and ammunition in Ireland from a German auxiliary under the guise of a neutral merchant ship, in conjunction with a German submarine. The auxiliary was sunk and a number of prisoners, including Sir Roger, were made.

In another London dispatch it was indicated that unsettled conditions prevail in certain parts of Ireland. An unsuccessful attempt was made Sunday to wreck a train near Maryborough, southwest of Dublin.

Sir Roger, who was leader of the separatist faction in Ireland, went to Berlin after the outbreak of the war with the intention, it was said, to open negotiations between the German government and the anti-English party in Ireland.

Just as Mrs. Arnold Scudder's auto dashed into the big plateglass window of the Davis building, 44 North Central avenue, smashing it to many pieces, a woman was passing that same window. Those who saw the accident declare that they couldn't see daylight between the pedestrian and the car. The woman escaped narrowly from possible death, for Mrs. Scudder's car was running away, the Japanese driver having lost control, both of his head and the machine. The car was damaged some, but neither Mrs. Scudder nor the driver was hurt.

The Japanese driver, as he turned from Sixth street, at the Ulrich-Ryan corner, turned quickly out of the usual course on the corner to avoid a clash with Dr. Conroy's car, only to run almost into Willard Campbell's car, from which he quickly veered again to avoid a collision. He became bewildered in the mix-up and was not skilful enough to manage the machine. Recognizing this, he lost his head so seriously that he forgot to shut off the power.

Dr. Conroy, who was accompanied by Mrs. Conroy, regards it as a fortunate escape all around. The broken winduppane cost \$52.50. The accident occurred at 5:45 Monday evening.

At the second meeting of the Woodrow Wilson club last night, Judge W. E. Crews, presiding, Miss Martin Towne of Phoenix was elected vice-president; G. W. Cherry, Miss Berry, Mrs. C. L. Schnefflin and Colonel George P. Mann were elected a finance committee. Porter J. Neff delivered an address appropriate to the occasion. President Crews spoke eloquently of the virtues of the present administration. Miss Bess Bryan sang "My Little Soldier Boy" patriotically. Mrs. Harry Tucker and Miss Ione Flynn accompanied her on the violin. Miss Ione Flynn rendered the "Miserere" and Mrs. R. B. McCabe recited "The Shipwreck." Secretary Newton W. Borden made an interesting talk on national issues. Fletcher Fish closed the program for the evening with a humorous denouement and a telephone monologue as an encore. The club is now officially equipped to open the work of the campaign in this district.

LONDON, April 25.—The British steamship Ross, of 2666 tons gross, and owned at Cardiff, has been sunk. Eleven members of the crew were saved.

WOODMEN PLAN TO INITIATE CLASS OF 75 WEDNESDAY

D. J. Beakley, district manager of the Woodmen of the World, is starting the camps of southern Oregon and will assist the officers of Medford lodge No. 99 Wednesday night in introducing a class of fifty candidates into the mysteries of Woodcraft. Mr. Beakley has been engaged in the field work of the order ten years, has visited nearly every town in the nine Pacific states and says he thinks, when it comes to climate, the Medford country can't be beaten.

"The Woodmen of the World is getting to be an old story with me," said Mr. Beakley. "Love is an old story; yet some people know little

District Manager D. J. Beakley

about either. Both go hand in hand. Love has prompted a million men to protect their families in our organization. We have a big membership and a big reserve fund, but the biggest thing about the Woodmen of the World is its purpose—the protection of the home.

"The man who is true to his home is true to himself. The man who drifts away from the path that leads to home finds that he has left true happiness behind him, and soon or later begins to realize the full meaning of 'Home, Sweet Home.'"

Webster's definition of "fraternity" is: "A body of men associated together for their common interest, with a representative form of government—not carried on for profit." This definition perfectly describes the Woodmen of the World. All members are on the same basis, each carrying an equal share of the burden and each sharing in the glory of its achievements.

"As we review the record of the years gone by, we surely have abundant reason to be proud of the fact that we now number 879,000 members and have thirty-five million dollars invested in bonds in the United States."

Mr. and Mrs. E. Bagley, former residents of this city, will try to adjust their marital difficulties in the circuit court at Baker tomorrow. Mr. and Mrs. Bagley have been separated about a year. The wife retained the custody of the child, apparently by common consent. Recently Mrs. Bagley, who was living with her parents here, went to Yreka to accept employment. Later, Mr. Woodlan, her father, went to Wood to accept work offered. Bagley, the father of the child, heard of his wife's residence in Yreka and her father's temporary residence in Wood. He, it is alleged, obtained custody of the child and left with it, taking it to Baker. The mother of the child followed and obtained custody of the little girl in order of the court. Divorce proceedings were set on foot and it is said, will be heard tomorrow. Bagley, it is said, was recently employed on a little fly-by-night paper started and stopped in this city during the past few months.

COLEMAN'S, N. M. April 25.—Tests were made here today of four of the latest new aeroplanes ordered for experimental purposes. The new machines have a smaller engine power than the old ones, but experts say that the large control power is offset by a larger engine to be installed.

PRESIDENT VOTES AND PLANTS TREE LINCOLN HIGHWAY

PRINCETON, N. J., April 25.—President Wilson came to his former home here today for the double purpose of voting in the New Jersey presidential primaries and planting a tree on the route of the Lincoln highway. With Mrs. Wilson he arrived here shortly before 1 p. m.

Mr. Wilson by inference voted for himself. There were no contests for delegates to the democratic national convention and all candidates were pledged to vote for the president's nomination. Mr. Wilson came here to cast his ballot, however, because he believed every citizen should vote.

This was Mrs. Wilson's first visit to Princeton since she married the president. He introduced her to a group of his old friends in the university faculty. Despite a drizzling rain, a large crowd of students was at the station to cheer Mr. and Mrs. Wilson. The president walked from the station to vote, but Mrs. Wilson did not go to the polling booth.

As the president finished voting, Mrs. Wilson arrived in an automobile and they stood talking in the middle of the street.

With Governor Fielder, the president sat on a temporary platform during the inaugural exercises, held under the New Jersey Women's Federation of Clubs.

BLIND PIGGERS UNDER ARREST

Arthur Diltz and Mrs. Viola Stone were arrested yesterday afternoon on a charge of selling liquor. Immediately also Mrs. Lola Hill was arrested, charged with the same offense. They were taken before Justice of the Peace Taylor and gave bonds in the sum of \$250 each for their appearance before that court on Thursday for trial. Mrs. Stone and Mr. Diltz of the Elwood rooming house to be heard tomorrow and Mrs. Hill, of the Karnes' rooming house, on Grape street, to be heard Friday. Mrs. Stone and Arthur Diltz were arrested some weeks ago on a similar charge. That case was dismissed on account of insufficient evidence.

GERMAN AIRSHIPS ATTACK SALONIKI

PARIS, April 25.—A squadron of German aeroplanes has delivered another attack on the entrenched camp of the entente allies at Saloniki, according to a Havas dispatch from Saloniki today, the aeroplanes flying over the camp from all directions, and dropping bombs at various points. Little damage was done by the raiders, according to the dispatch.

WILSON APPEALS TO BUSINESS MEN FOR PREPAREDNESS

NEW YORK, April 25.—An appeal by President Wilson to business men for co-operation with the committee on industrial preparedness, of the naval consulting board in its industrial inventory of the country's resources for national defense, was made public here today. The president's letter, dated April 21, follows: "To the Business Men of America: 'I bespeak your cordial co-operation in the patriotic service undertaken by the engineers and chemists of this country under the direction of the industrial preparedness committee of the naval consulting board of the United States.'"

"The confidential industrial inventory you are asked to supply is intended for the exclusive benefit of the navy and war departments, and will be used in organizing the industrial resources for the public service in national defense.

"At my request the American Society of Civil Engineers, the American Institute of Mining Engineers, the American Society of Mechanical Engineers, the American Institute of Electrical Engineers, and the American Chemical society are gratuitously assisting the naval consulting board in the work of collecting this data, and I confidently ask your earnest support in the interest of the people and the government of the United States."

Instructions issued by the industrial preparedness committee to its field organization of more than 30,000 engineers in taking the inventory of manufacturing establishments, directs them to keep the inventory confidential and to retain no copies of it for their own use.

ODD FELLOWS MEET TALENT WEDNESDAY

The Southern Oregon Odd Fellows' congress will convene in business session at Talent Wednesday at 10:30 a. m. Following the business routine will come the enjoyment of a

SUFFRAGISTS HEAR SHAFROTH DEFEND VOTES FOR WOMEN

WASHINGTON, April 25.—Women suffragists flocked to the senate galleries today to hear Senator Shafroth, democrat, of Colorado, urge the adoption of the Susan B. Anthony amendment.

In the formation of the republic, Senator Shafroth declared, new principles of government were put forth, one of which was that all men were created equal in rights.

"While men of our republic acknowledge these principles of government," he said, "as applicable to all men, many refuse to recognize them as applicable to women. They cling to their power like the monarchs and the aristocracy cling to theirs. They invoke the divine right of sex as the monarchs asserted the divine right of kings.

"The arrogance with which men assert that women have a sphere to which they should be confined must be irritating to women of thought and action. Who gave man the right to determine woman's sphere without even consulting her?"

"Many assume that women do not want equal suffrage. That is no argument against a woman's right to vote, even if it were true. Even prisoners become satisfied with their condition.

"It is contended because women cannot bear arms, therefore she is not entitled to participate in the affairs of her country. I do not believe that the right to vote should be dependent upon the right to kill."

Senator Shafroth mentioned the incident of Elizabeth Cady Stanton, who was asked by Horace Greeley if there were a call by the government upon the women for troops what she would do. Her reply was: "I would do exactly as you did in the civil war, Mr. Greeley. I would hire a substitute."

IS IT A COLD, COUGH OR BAD BLOOD?

Dr. Pierce's Medical Discovery not only cures the cough but it is a wonderful alterative and tonic. It builds up the weak body! Get it this very day from any medicine dealer, in extract liquid or tablet form, or send 10 cents to Dr. Pierce, Invalids' Hotel, Buffalo, N. Y., for large trial package of tablets.

Contains neither alcohol nor narcotics. Its ingredients are made public and printed on wrapper. It's a pure alterative extract made with glycerine from native roots and herbs.

Have you become run-down, weak, emaciated, pale after a long siege of colds? Does the skin show that the blood is thin and watery? Spring is the time when vitality is at its lowest ebb—cleanse your system by ridding the body of its accumulated poisons. Refresh the blood with a stimulating tonic.

Profit by the experience of others. Build up the system with a reliable remedy, such as Dr. Pierce's Golden Medical Discovery, which has stood the test of time, and for nearly a half of a century has sold more largely than any other blood remedy.

Take This Case for Instance. Beaver, Oregon.—"I was suffering longer than 12 months with asthma, bronchitis and sore throat. I had a very bad cough, difficulty in breathing, tightness about the chest; could not sleep; had no appetite; was always tired. I was running down, from 108 pounds to 117. Every one told me I must die. I started to use the 'Golden Medical Discovery,' and with the best of results. I used three bottles, which cured me. I have no asthma, no cough, no sore throat, no difficulty in breathing any more. Bronchitis is gone. I thank Dr. Pierce for his kind advice."—MRS. THERESA TOTZAUER.

SUFFERERS AND WIVES OF THIS COUNTRY

—those who after months and even years of suffering, have been restored to health and strength by that most old-fashioned and best remedy, Lydia E. Pinkham's Vegetable Compound—are the ones who have spread the good news of health restored, until today there is hardly a town so small that the women who suffer from female ailments do not depend upon Lydia E. Pinkham's Vegetable Compound to restore health.—Adv.
