#### AMERICAN INDIAN DAY

needs of the fixe Planguist court. ring radices new redding to run

Absolutely Removes Indigestion, One package proves it. 25cat all druggists. THE GERMAN REPLY

THE reply of the German government to the American elematum upon submarine warfare is argumenta-190 25 15-28 five, evasive and defiant, and seemingly designed to invalve the United States in further diplomatic discussion. yew rules of submarine warfare have been established, but It is not known definitely what they are. Upon the future course of Germany, the course of the United States will probably depend. So far as words go, the American contention has been apparently granted.

President Wilson has patriotically struggled to remain neutral and to uphold the honor of the nation. His effort has been to preserve the rules of warfare recognized by international law before the conflict began. Both the allies and Germany have overridden these rules, and he has protested each violation.

The violations of the entente allies have been against property. Some have been settled and all will be. The German violations, however, have been against human life. These cannot be settled. The utmost that can be done is to stop such acts. The hope that this would be done, as German promises indicated, has prevented a breach until now. If the president erred, it was on the side

The submarine as used in this war is an illegal and inhuman weapon, fit only for the early ages of the world, when it was considered part of warfare to slay the women and children and noncombatants. Such warfare might be still expected from the savage tribes of Africa, but such destruction as it accomplishes is in violation of the laws of civilization, Christianity and humanity. It is a complete relapse into barbarism. To recognize such warfare as NORWEGIAN SCHOONER legal is to give up all that eivilization has won and place the world again at the mercy of the primeval, conscienceless brute, intent only upon destruction of his fellow man,

The Indians and other tribes were hated and despised for their inhuman practices. The same detestation and LONDON, May 5 .- The Norwegian lowing the breaking of the Missishatred will follow those modern nations whose inhuman schooner Mars, while bound for Earl stopi leves below Muscatine yesterstrong because the blonde stenogras practices outclass the Indian because of their prostitution and with pit props, was stopped and day additional breaks occurred topler insists upon whistling "China of science and knowledge and power to wallow in senseless murder. It was not as bad for the Indian to massaere the women and children, torture the aged and burn their vietims alive as it is for civilized nations to blow them up with dynamite or sink them by torpedoing them when traveling on passenger ships of neutral nations, for Christianized people know better-and the savage did not,

Nor can German submarines be classed with the block- the great rise in the price of steam ade, as inhuman warfare, as Germany contends. The pay you \$50 a week when you are blockade is a recognized weapon of war, sanctioned by inworth only \$15, you are a BORN ternational law, resorted to repeatedly during recent confliets. The United States used it against the south just as Envisor people say you are a CON effectively as Great Britain is using it against the central

Whatever the president's determination, the people of the United States will stand behind him, knowing that he is actuated by the highest motives for the preservation of appearance of a fully sufformed or civilization and the future welfare of humanity. He could sentation. The bands are sew that not have done more, without netually going to war, and as a awkward position at an ununterrace nation we do not want war except as a last resort.
