Two heavy showers of last night and the almost constant drizzle of today have added considerable moisture much-needed in parts of the valley at this time. The top foot of soft moisture was measured rapidly during the past week of warm weather. There is little moisture in the ground left to draw from, and probably none that the third foot will yield. Those who have no means of irrigating their orchards and farms are watching the situation with much interest. So far, the season has been agriculturally favorable.

J. O. Gerking, the best all-around photographer in southern Oregon, always reliable. Negatives made anywhere, 10¢ or more. Address 223 Main St. Phone 3260.
