

MEMORIAL DAY PARADE PLANNED FOR NEXT TUESDAY

Invitation is extended by the G. A. R. and Woman's Relief corps to all lodges, fraternal orders, schools and clubs to take part in the Memorial day parade and exercises on next Tuesday morning, May 30. The parade will form at the city park at 9:15 a. m. and march to the Page theater, where the Memorial day exercises will be held. All school children in the parade will be furnished with flags at the park by the committee in charge.

The parade will be headed by the Medford band, and in the line of march will be the G. A. R., Woman's Relief corps, Seventh company Coast Artillery corps, city fire department, fraternal orders, school children and citizens.

The exercises at the Page theater will be in charge of the G. A. R. and Woman's Relief corps. The complete program is as follows:

Music, selected — Medford band
Instrumental music —
Miss Sadie Whitman
Invocation — Rev. Harry Tucker
Commander's order to adjutant.
Commander's welcome.
Reading record of G. A. R. dead since last Memorial day.
Reading record of deceased soldiers, not G. A. R., by Woman's Relief corps.
Song, selected — Forrest Edmonds
Reading — Mrs. Geo. T. Wilson
Recitation, "The Flag"
Elizabeth Welch, Vivian Miller and Rene Parker.
Reading — Mrs. Webster
"March Militaire"
Twenty young ladies under direction of Mrs. Lynette Hovious.
Address — Rev. Wm. B. Hamilton
Song, "Star-Spangled Banner"
Audience.
Benediction.

MEDFORD VOTE FOR HUGHES BY SMALL PLURALITY

The vote of Medford, as officially compiled, gives Hughes 416, Cummins 375, Burton 84. For secretary of state, Moore received 429, against Olcott's 710. Baehnel for railroad commissioner received 576 votes to Campbell's 413.

Benton Flowers for the legislature only secured 365 votes out of Medford, as against 686 for Sheldon and 862 for Thomas. Cars for joint representative got 213 votes and Gore 899 in the latter's behalf.

Carkin carried Medford as well as Ashland for district attorney over Roberts. The Medford vote stood, Carkin 529, Roberts 522, Watson 116. The Ashland vote stood, Carkin 243, Roberts 206, Watson 210. It was Talent, with its 53 plurality for Roberts, that gave him the nomination.

Hildebrand gave Gardner a close race in Medford with 462 votes against Gardner's 498 and Wilson's 277.

Cordley Wilson for sheriff received 548 votes, Grieco 344, Leiland 101 and Walker 262 in the city.

Mauls ran well in his home city for treasurer, receiving 118 votes in Medford. Mrs. Blakeley received 174 and Crommiller 232.

E. M. Wilson was the favorite Medford candidate for assessor, receiving 502 votes in the city. Coleman received 231, Herring 174, Lammings 122 and Truax 135 in Medford.

Hanley got the Medford plurality for superintendent of schools, receiving 525 votes against 227 for Ager, 219 for Smith, 229 for Wells.

Talent plumped for its favorite son, the solid Talent vote denying the assessorship and superintendent races for the Talent candidates, Coleman and Ager. Other Talent candidates receiving the Talent vote were Thomas for the legislature and Gardner for clerk — so that Talent is well to the fore in the temblor buck.

YREKA CONGRATULATES MEDFORD ON ELECTION

The following telegram of congratulation is a sample of those being received by the Commercial club on the result of Tuesday's bond election:

Yreka, Cal., May 25.
Medford Commercial club. Heartiest congratulations on success of bond election. Success has money available to do her share of promotion work, and is willing to aid any means that promises to secure rail transportation that will develop the Klamath river basin.
YREKA CHAMBER COMMERCE.

DRILLING WELLS TO SECURE WATER FOR IRRIGATION

A. R. Eayart, who is under contract to drill for artesian water on Frank G. Owens' residence property in this city, has so far had excellent success in his enterprises. The first irrigation well he put down was in the Guthrie orchard, near Jacksonville. At a depth of 117 feet he struck a strong flow of water, but it was not artesian. It came to a point within six feet of the top and from tests made it is believed to possess an excellent flow for pumping purposes.

He began to drill the second one on the same place a little over two weeks ago and got an artesian flow of 50,000 gallons a day, while the first one, it is estimated, will supply 30,000 gallons a day. The water flows over the top of the second one at the rate of 1400 gallons a day.

For Irrigation Purposes.

These wells are for irrigation purposes only. Mr. Eayart struck strong indications of oil in the second well; but, he says, "I am here to guarantee water for irrigation and am not interested in oil. Others may attend to the oil features of the prospects. My guarantee brings water. Then I'm ready for the next job."

Mr. Eayart drilled a well on the Humer property in Jacksonville for a mining investigation enterprise. He got water, instead, and plenty of it, the flow being over 100,000 gallons a day.

After drilling the well for Mr. Owen Mr. Eayart will at once begin one for Mr. Niedermeier, also in this city. Both of these wells will be drilled for irrigation water.

"It is my opinion," said Mr. Eayart, "that we will have to go to no great depth in a great many places in this valley for an abundant flow of water for irrigation, though in many places the pump may have to be used."

MAIL PROTEST TO ALLIED POWERS MOST VIGOROUS

WASHINGTON, May 25.—Vigorous language almost equalling that employed in the last communication to Germany on the submarine issue, is understood to characterize the notes delivered to the British and French embassies here yesterday protesting against interference with neutral mails.

It is understood there is no substantial difference as to principle between the state department and the London and Paris chancellors regarding the broad question of inviolability of first-class mails on the high seas. The American objection is based rather on the methods employed by the allied governments in handling these mails.

The United States does not concede the right even to inspect first-class mails in transit via the high seas, assuming that these do not include anything more than correspondence and are not made the vehicle for supply of contraband to the belligerents. The fact that a neutral vessel carrying mails between neutral countries is compelled to come into a belligerent port to comply with belligerent naval rules, it is held, does not remove the mail matter on board from the privileged character of mail on the high seas.

A resolution authorizing the transportation of mail to and from neutral ports on naval vessels and declaring that any interference with one-mail shall be resented by such ships with all power of the navy and of the ships' was introduced today by Representative Tamm of Massachusetts. It was referred to a committee.

BORDEN'S PLURALITY OVER KELLY IS 45

The official count in the democratic primary will be finished by today evening. It shows that N. W. Borden defeated E. E. Kelly for the nomination as representative at large by 45 votes, the total vote being Kelly 401, Borden 446. Also the 3rd

LARGER ACREAGE OF FRUIT ASSURES GOOD CROP YIELD

"The increase of the acreage of fruits that will come into bearing this year will more than double the yield in this valley this season," said W. N. Campbell yesterday. "Even though the damage to fruit by the recent frosts may be as high as 25 per cent, I believe that the yield, with that percentage deducted, will still be greater than any former fruit harvest ever realized in Jackson county. In this estimate I refer particularly to apples and peaches."

Mr. Campbell says that the grain, especially that sown in the fall, looks fine and strong. The early fall wheat, he says, is very weedy, but the barley is clean and good. Some of the grain is heading out in very promising condition. Farmers are at a loss for explanation of the presence of weeds in greater growth in the wheat fields this year than ever before. Some assume that the seed was in the wheat when sown.

Fireweed More Abundant.

Mr. Campbell has sixty acres in grain and expects a good yield. His alfalfa shows the effect of the cold weather. Its growth has been slow. He believes the low temperatures account for that condition. Fireweed is more abundant than usual in alfalfa fields this year. This, too, is the subject of some interesting speculation.

It should be remembered, however, that fireweed grows abundantly on the waste areas and that the autumn winds carry the seed everywhere throughout the valley and into the foothills. Unirrigated areas where fireweed and other wild vegetable seeds grow vigorously should be burned over as early after the seed mature as possible. Community clubs can do this better in an organized way than otherwise. The farmers will find that this concerted effort to destroy these costly pests will save them much labor in their fields and give them a greater yield of everything planted.

ROSEBURG JUBILANT OVER CITY RAILROAD

C. T. Coster of Roseburg says the people of that city and all of the surrounding country are very jubilant over the fact that they have finally voted bonds in the sum of \$300,000 for the railroad into their timber districts, as it means new business life in Douglas county. The development that will follow, he says, will give the people of that country a half million dollar payroll—all of which they need.

Mr. Coster is in Medford today in connection with the initial business of one of the enterprises that will come with the completion of their railroad. He congratulates Medford people on having made the first step successfully to do a similar thing, although he says he believes the resources that the Blue Eagle road will tap more than quadruple those of the country tributary to their line.

The Boy is Father to the Man

Old sayings like this are fraught with a most important meaning. And what will add the expected father in conceiving her. Her life, her strength, her mental repose and the absence of wrinkles and pains is a subject of vast moment. Among the recognized facts is a splendid remedy known as "Mother's Friend." Applied to the mother it works in daily to make them firm and pliant it thus lifts the strain on the body.

It is the strain on the body in the nervous system, induces calm, restful nights of refreshing sleep and makes the days sunny and happy. Get a bottle of "Mother's Friend" of any druggist and you will then realize why it has been considered due to its name in our best homes through time immemorial. It is a perfectly harmless but so effective that once used it is recommended to all expectant mothers by those who want through the ordeal with comfort ease. By writing to Bradfield's Regulator Co., 412 Lamar Bldg., Atlanta, Ga., you can have a free copy of a wonderful book that includes these things which all expectant mothers ought to read. Write today.

Uniformity

Unvarying excellence and supreme, maintained Turkish Quality assure La Marquise permanent preference among the critical smokers of the west.

LA MARQUISE

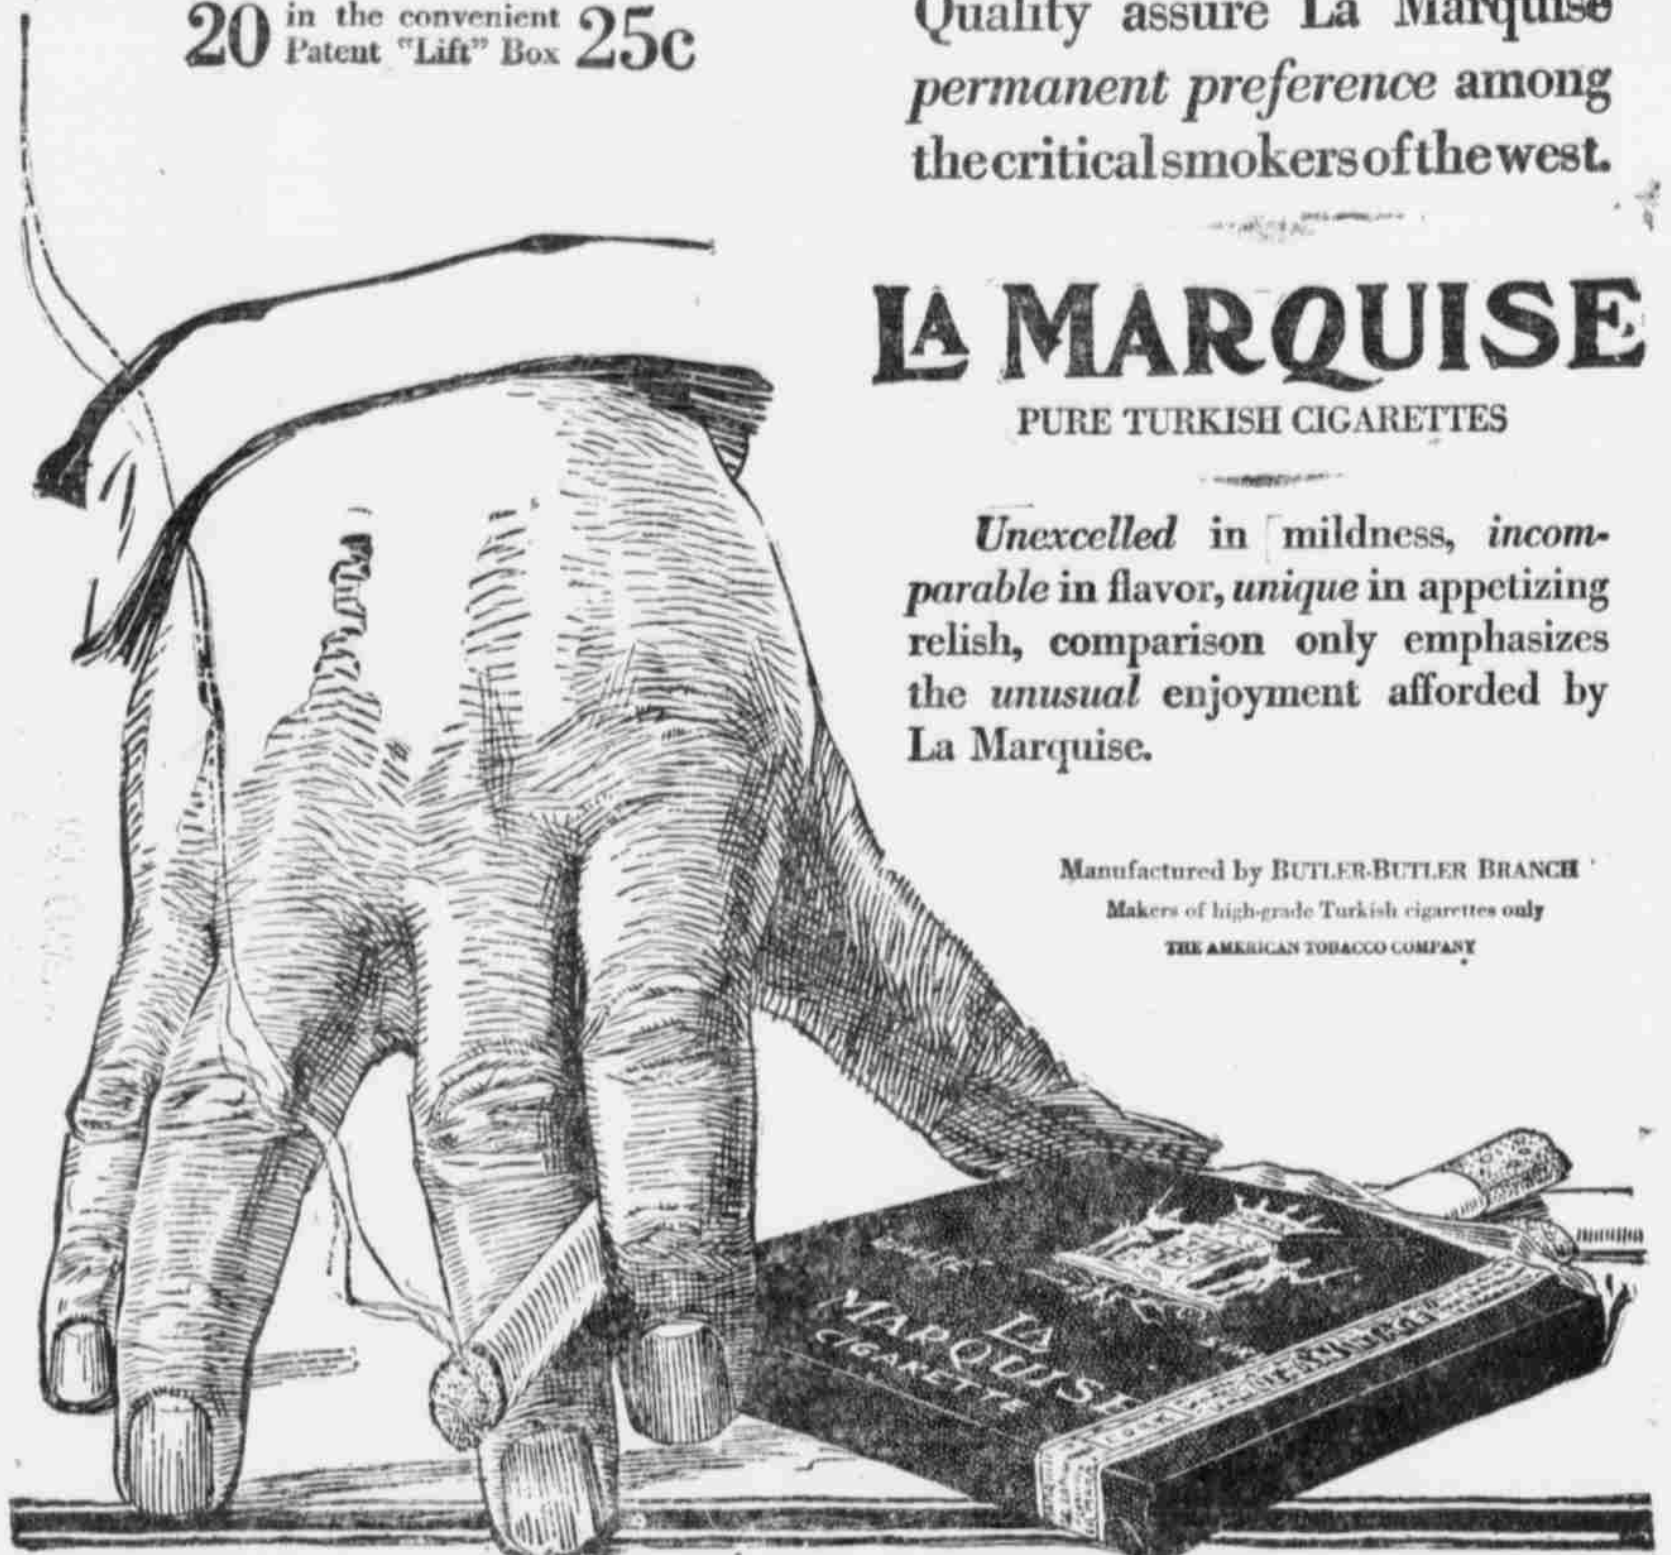

PURE TURKISH CIGARETTES

Unexcelled in mildness, incomparable in flavor, unique in appetizing relish, comparison only emphasizes the unusual enjoyment afforded by La Marquise.

Manufactured by BUTLER-BUTLER BRANCH

Makers of high-grade Turkish cigarettes only

THE AMERICAN TOBACCO COMPANY

When you buy a Studebaker,
you SAVE from \$250 to \$400

This \$250 to \$400 represents the difference between the price of a Studebaker and the price of any other car that equals it in value.

The reasons for this difference are immaterial to you as a buyer. What you WANT is the car that gives the most for its price. And when you find, as you will, that cars with the same power, size and quality that the SERIES 17 Studebakers offer, cost hundreds of dollars more, make the salesman tell you WHY.

If a car gives no more, there's no reason at all for paying a higher price, is there? Just see these SERIES 17 Studebakers. Make your own comparisons with other cars—then ask the other salesman why THEY want from \$250 to \$400 more than the Studebaker prices! Thirty minutes spent in making such comparisons will save you several hundreds of dollars.
