

GARY TALKS FOR PREPAREDNESS AT STEEL INSTITUTE

NEW YORK, May 26.—Declaring that the United States was rapidly becoming the leader among the nations of the world and that it was "high time for every one to understand that a large majority of the people of the United States will insist upon the utilization of every facility to protect and to honorably further the interests of their own country," Judge Elbert H. Gary spoke here today at the annual meeting of the American Iron and Steel Institute on what he considered "momentous questions," involving life, liberty and happiness.

"It is likely opportunity will be given to the voters to give expression to their views in the near future relating to some of these questions," he said.

"The large majority have a friendly feeling toward business success, large or small, so long as it is decently and fairly conducted.

"We believe thoroughly in the organization and restraint of business, but in such a way as to prevent harm and injury to the public interest. The government and the business men should work in harmony.

"The markets of the world are multiplying in number and increasing in importance. We are hoping for open ports in every country. We have not heretofore had our proportionate share of this trade. One reason for the limited amount of our export business in the past is found in the lack of ships operated by Americans. We are more or less subjected to domination of foreigners having the ownership or control of ships and who are interested directly or indirectly in business competing with us."

STEAMER WISELY AFIRE BEACHED IN COCHIN CHINA

HONG KONG, May 26.—The British steamer Wisley, from New York, February 29, via Port Natal, April 15, for Vladivostok, is reported on fire and beached off Cape Varella, Cochin China. Assistance has been sent to her.

HOUSTON A SPEAKER BEFORE WOMEN'S CLUBS

NEW YORK, May 26.—David B. Houston, secretary of agriculture, was among the speakers on today's program of the biennial convention of the General Federation of Women's Clubs. This afternoon there will be a discussion of clothes.

The W. C. T. U. held their regular business meeting at the Public Library Thursday afternoon.

GARDEN VEIL LATEST OF FASHION WRINKLES

Your first guess may be that this is a new mask. We will save you a second guess by telling you it is the new garden veil, which is a part of the present thing to garden outfits. There's a Swiss woman and a "Scottish" fall of tools. All fashion-wise gardeners will be wearing these new veils before the summer is over, it is said.

CHINA GIVES US FASHIONS

Prepare for a Chinese invasion. The advance guard has arrived already.

Though the coat is something of a mandarin, the skirt and blouse are cut on good American lines, and the costume as a whole, picturesque as

it is, is conservative enough to be worn on semi-formal occasions. A luxuriously patterned in old blue silk embroidered in lighter blue and in dull gold is used; the ash is dark blue fringed in blue of lighter color.

The simple blouse is flesh color Georgette crepe and the same material is inserted at either side of the skirt. The sailor hat of distinctly American contour is in Chinese blue Georgette crepe headed with old gold ribbon.

CONFIRMATION OF BRANDEIS ASSURED

WASHINGTON, May 26.—An agreement was reached among senators today under which the nomination of Louis D. Brandeis to the supreme court will be disposed of next week, probably without discussion in the senate. The specific date will be fixed later. The agreement was reached by republican members of the judiciary committee who oppose confirmation and their democratic colleagues who carried through the favorable report for confirmation. Republican senators who have opposed Mr. Brandeis admitted that his confirmation was assured.

MORGAN ENTERS A SPIKE

(Continued from page one.)

are after the souls of the \$300,000,000 American International corporation.

But behind Gaspar, Williams, and Wiggin are all the millions of the Morgan crowd, recruited by the Guaranty Trust company, 19-21 as the Rockefeller million from the International corporation through the National City bank.

Charles H. Sahlin, president of the Guaranty Trust, has resigned from the board of directors of the International.

With Sahlin, it is reported, John D. Ryan and Albert H. Wiggin, directors of the Guaranty, will resign. Sahlin is chairman of the board of Gaspar, Williams & Wiggin, the trading firm, subsidiary to the Guaranty Trust company, whose phenomenal break into the shipping business and the Oriental and Persian fields of commercial exploitation has suddenly made it the dominating rival of the American International corporation.

Thus there is again a definite Morgan-Rockefeller breach in Wall street, which has been for years a sort of armed camp with the Roths, field works and communicating trenches of these huge rival powers almost interlocking.

When the American International corporation, with Frank Vanderlip and Rockefeller's National City bank behind it, went into the open market recently and bought the latest single building of stock in the International Mercantile Marine, the first skirmish of the present war for world trade supremacy had been fought.

Now the Rockefeller interests, with their holdings in this, their recently acquired ownership of the Pacific Mail line and their vast general net to some 75,000 shares of the United Fruit company, are said to

extend an influence over more shipping than any single concern in the world.

The Morgan interests woke up and it became evident that International Mercantile Marine is not to pass unopposed into the hands of the Rockefeller.

Meanwhile there has been a rush of trading in the stock of the Atlantic, Gulf and West Indies steamship lines.

RESUME CONSTRUCTION PACIFIC GREAT EASTERN

VANCOUVER, B. C., May 26.—Arrangements having been made by the provincial government for financing the operations, the Pacific Great Eastern railroad plans to at once resume construction on its line north of Clinton, the present rail head, 166 miles from Squamish, the Howe Sound terminal.

The railroad, which was begun three years ago, will run from Vancouver to Fort George and furnish an

MORE LUMBER SHIPS UNDER CONSTRUCTION

PORTLAND, Or., May 26.—Four lumber-carrying vessels to be propelled by motor power will be built at Vancouver, Wash., it was announced here today by the Motor Boat Construction company, which was incorporated at Olympia, Wash., yesterday. The cost of the four vessels will be \$245,000. Construction will begin immediately. Two will be built for an Oregon lumber company and two for an eastern concern. The capacity of the Oregon owned motor-boats will be 1,750,000 feet of lumber each, while the others will be able to carry 1,250,000 feet each.

Important north and south link with the transcontinental system of the Grand Trunk Pacific railroad, opening rich tracts of agricultural, mineral and timber lands. Employment will be given to 1300 men, station men, carpenters, mechanics and track laborers being required.

WAITE ADMITTED PLANS TO KILL WIFE FOR MONEY

(Continued from page one)

alienist a hypothetical question 6000 words in length, summing up the testimony that had tended to indicate the prisoner had inherited or developed insanity and concluding with the inquiry, whether, if the facts were as stated, he would consider Waite insane.

In reply Dr. Karpas said Waite was subject to diseases known to the medical profession as "moral imbecility, moral idioley and moral insanity."

"Does he know whether he is doing wrong in committing a crime?" asked Mr. Deuel.

"No," replied the alienist, who added that during his examination Dr. Waite did not show any signs of feigning or of an attempt to mislead him.

Dr. Arthur Warren Waite calmly recounted on the witness stand last night in an effort to save himself from conviction for the murder of his father-in-law, John E. Peck, by showing that he was of unsound mind, how he attempted to cause the death of Miss Katherine Peck, the wealthy aunt of his wife, and his own benefactor, by feeding her disease germs. He also told of trying to kill his wife's parents, Mr. and Mrs. John E. Peck, in the same way before resorting to poison as a more effective means. He testified, in addition, regarding his relations with Mrs. Margaret Horton, his "studio" companion.

Waite said he put ground glass in a can of marmalade and gave it to Miss Katherine Peck prior to his marriage. He also put disease germs in a can of fish and gave that to her. Afterward he frequently gave her various germs, including typhoid, while he was studying bacteriology.

He tried to produce the germs himself, he said, but his cultures failed, and he purchased them. He was able to buy germs of diphtheria, pneumonia, influenza, spinal meningitis and other diseases.

Waite told of sleeping on the couch on the night before his father-in-law's death so as not to disturb his wife. He got up an hour after returning, he said, and administered chloroform to Mr. Peck.

Telling of his acquaintance with Mrs. Horton, Waite said he heard her sing at a theatre here last fall and went frequently just to hear her. He met her behind the scenes, he said, and saw her every day after that becoming "very fond of her."

Waite then related his efforts to induce Eugene Oliver Kane, the embalmer, to put arsenic in a sample of embalming fluid which was to be sent to the district attorney's office. He gave Kane \$2,000 down, he said, and agreed to give him \$30,000 more later.

"What was your purpose in administering germs to all those people?"

"I wanted them to die."

"Why?"

"I wanted their money."

"When did you first get this idea?"

"About the time I first met Miss Clara Peck."

Early in his examination tonight, Waite admitted that he had degenerate traits since he was a boy.

Cottolene

"The Natural Shortening"

Make your next shortcake this way

Into two cups of sifted pastry flour sift and mix one level teaspoon of salt and four level teaspoons baking powder; chop in two level teaspoons chilled Cottolene, and add one egg. Wet to a stiff dough with about three-fourths cup of milk, or half water and half milk. Toss out on floured board, roll one-half inch thick, cut into rounds, and bake in hot oven.

When baked, pull the biscuits apart and spread with butter. Put mashed and sweetened berries or other fruit between crusts and over the whole.

Cottolene will improve the delicious quality of your shortcake, just as it improves the flavor, appearance and wholesomeness of all other kinds of foods that are shortened or fried in it.

Use Cottolene for all shortening, and for frying doughnuts, croquettes, chicken, fish, etc.

Cottolene is put up in pails of different sizes, to suit your convenience. Its use is simple, and always gratifying. Ask your grocer for a regular supply. Do it today.

A copy of our real cook book, "HOME HELPS," will be mailed to you free, if you will write our General Offices, Chicago.

THE S. S. FAIRBANK COMPANY

"Cottolene makes good cooking better"
