It was first announced that the garment makers were going to strike and when the assertion was disproved, the lockout followed.

There has been great prosperity during the past few bers. I think he is a nice gentleyears among the garment manufacturers. But they have man, but he is laboring under cerno desire to share any of their prosperity among those whose toil aids in creating it. For six years strikes and ed that Major Whiting, the great enlockouts have been avoided by the "peace protocol" ar- gineer, has been called to Washingthe reception committee told him was ranged by Louis D. Brandeis, which provided arbitration ton, doubtless to take the place of the declaration of norm cancillates selection of a jury would be complete "Tafa is the sixth city." If he had and favored the gradual unionization of the industry, the Col. Goethals on the Panama canal stopped off at Detroit they would elimination of sweatshop conditions and living wages. But have told him the same thing there. their great prosperity has increased the greed of the employers. They have combined to kill the union and restore the oblications that he left behind, the unsanitary sweatshop and its starvation wage.

The industrial relations committee investigated the posed address. tween two men, but to step between matter and in a bulletin written by Dante Barton, vicetwo whole efficies is about as safe as chairman of the committee, says in part:

But the vast bulk of the work is done for the same unaufacturers who own the "show places" in the sweat dops hidden away in back-street lofts and tenements. It is a well-known fact that sweatshops are one of the causes of industrial innest; that they make for human misery, poverty and immorality. In this battle between Gold that Bank to Charles Erigreed and avarice seeking fatter profits at the expense of humanity and labor seeking living wage and improved conditions for humanity, public sympathy is with the garment workers.

### T. R.'S CHANCES FINE

THE uncertainty as to who the republican convention will nominate is an uncertainty only as to which candidate the besses will prefer, for there is no question but that at the outside ten men will pick the standardbearer.

The same forces that controlled the 1912 convention 6 M. Edenan et as to Everwill control the 1916 convention. They will name the candidate they can make the best bargain with. As Roosevelt | ate. This is due we are informed wants the nomination more than anyone else, they can to the health of his wife which his productly make better terms with him than with any of the candidates they stand a chance of electing.

Between Hughes and Roosevelt, it is probable that The Mediord and Mt. Pitt Cigare Roosovelt, a known quantity, would be preferred to Hughes, an unknown quantity. Moreover, nutil the split up that way are bass with their in 1912, Roosevelt always worked in harmony with the within newline which they are any bossies, whereas Hughes never did.

The semi-official report that in case Hughes resigns from the bench President Wilson will appoint in his place Frank P. Walsh, chairman of the federal industrial relations committee, whose typedy for industrial unrest inant and of Mr. and Mrs. W. I. Moore, blindes heavy taxation of inheritances and incomes and the tormerly of this cur, was recently single tax for land monopoly, has thrown such a scare married to a round tob resident in into plutocracy, where the busses represent, that there will be streamous opposition to the loss of Hughes from the bench. With Brandeis and Walsh on the supreme bench, our courts would be modernized and humanized in a manner shocking to unthrough privilege.

So the chances favor T. R. unless the bosses think they am mu kaatooser.
