DETROIT—Detroit is a peace (Ford model) full city, entirely surrounded by automobile factories. You can get an automobile in Detroit quicker than anywhere else on earth.

When an auto salesman, anywhere tells you he is going home he means he's going to Detroit.

Besides automobiles Detroit sends out more advertising matter than any other city on earth and most of it is paid for by Henry Ford, who thinks that this is the best way to prove to the world that it is all right to manufacture automobiles but very wicked to make guns and battleships.

Maybe Henry is right. We don't know, because we never made any guns or battleships.

Very Formal.

COMMUNICATION.

To the Editor:

In a recent issue of the Mail Tribune it was stated that China and Hungarian pheasants and Bob White quails were being shot in Sams Valley. We beg to differ with your informant on this subject and wish to state that this has been misinformed. We do not believe that the game laws are being violated at all in this section at present. Some time ago pheasants and quail were hunted and shot promiscuously in this valley. Such has not been the case since, Lane Applegate has been acting as game warden. Mr. Applegate has done much toward enforcing the game laws and we know him to be a capable and efficient official.

MEDFORD TO PLAY BALL AT WEED IN JULY

Plans were completed Monday afternoon whereby Medford and Weed will play at Ashland during the Fourth of July celebration for the championship of southern Oregon and northern California. The Medford team will begin practicing at once for the three games. Sunday at Grants Pass Medford defeated Grants Pass 15 to 5 by better all around work on the bases, in the field, and with the stick. McIntyre pitched a good game. Bill Caster having gone to Gold Hill for the season. Rudy Scholtz played short. The infield is the best in the history of the city.

With Medford trade is Medford made.

THE CALL OF THE RECALL

THE mystery of the sponsors of the clandestine effort to recall the county court seems in a fair way of solution. At least some of the colored gentlemen in the recall woodpile are showing their heads.

The steering committee of the recall effort is announced as being composed of the following progressive and enterprising citizens: Jesse Houck, W. W. Gregory, Benton Bowers, T. G. Burrows, George Hilton, J. W. Matney, F. V. Medynski.

The list is a noble one and worthy of the holy cause in which it is enlisted. Some of these gentlemen are office-seekers, rejected by the people, but still anxious to serve the public. Some are disappointed applicants for the jobs of road supervisor or fruit inspector, and still willing to draw a per diem. All are famed as community builders.

Jackson county and Medford in particular are deeply indebted to the type of citizenry they represent. Have they not filled the air with the music of their anvil chorus for these many years? Do not their monuments, well-worn holes in the concrete walks, adorn our every street corner, where the faithful daily hold forth? Have they not worn out the chairs they ornament in the Nash hotel as they ply their trade as village gossips?

Has not every project ever launched for public welfare or community upbuilding been consistently and persistently opposed by the element for which this committee are spokesmen? The only event never protested, and that seems to meet approval, is a funeral.

Does anyone suppose that any county court could meet the approval for any length of time of the members of this committee? Not unless they themselves were members of the court—and then those left out would start a recall. Anyone foolish enough to accept office from them would hold it only until the six months' time limit required for another recall was up.

Despite the prostitution of the spirit of the law that was designed to stop malfeasance in office, the call of the recall is not without its virtue. It has stimulated a little energy in the breasts of a coterie of loafers whose time has been so largely given over to whittling, slander and whining pessimism.

SUFFRAGE ONLY FIGHT FOR DEMOCRATS

ST. LOUIS, June 6.—A smart fight—the only one visible on the sky-line of the coming democratic national convention—is anticipated by national committees over an effort that is to be made to write into the party's platform an equal suffrage plank. National Chairman McCombs said he had been advised that the same suffrage plank that is to wage a fight for the suffrage plank at the republican convention will appear in force at the St. Louis convention.

YUAN SHI KAI DEAD

A New President

Lai Yuen-hung, who becomes president of China, in the regular course of events would remain in office until October of next year, when the term of five years for which Yuan Shi Kai was elected will expire. Owing to disturbed political conditions, however, his tenure of office is uncertain.

Lai Yuen Hung is reported to have been in sympathy with the rebel movement, although little has been heard of his activities in recent months. The state department at Washington was advised May 17 that he had been elected president of four succeeding provinces in south China.

Want Lai Yuen-Hung

SAN FRANCISCO, June 6.—Lai Yuen-hung, former vice-president of the Chinese republic, will assume the reins of government if the revolutionists have anything to say about it, local Chinese said here today upon hearing of the death of President Yuan Shi Kai. Lai Yuen-hung was the original revolutionist and raised the standard of rebellion in Wu-chang six years ago next October. When Yuan Shi Kai's ambitious swing toward the monarchy the vice-president resigned, but the liberal faction still considers him vice-president.

The procedure, it was stated, is for Lai Yuen-hung to assume governmental authority until such time as he can call a parliament through which to elect a new president.

NOVELTY DANCES AT HOTEL BARNUM GRILL

Tomorrow evening the Hotel Barnum will introduce Mr. and Mrs. J. H. Sutton of San Francisco in the latest dances and Parisian novelty steps. The dinner dance has proven a success and the management has determined to give the patrons a chance to see the new dances.

Mr. and Mrs. Sutton are graduates of the Vernon Castle school and have taught in New York and later came west on a contract to Frisco. They will spend the summer in Medford.

The exhibition will be on from 7 to 8, the patrons will dance from 8 to 9:30 with dancing between the exhibitions.

PABLO LOPEZ, CHIEF OF MASSACRE, SHOT

CHIHUAHUA CITY, Mexico, June 6.—Pablo Lopez, Villa's chief lieutenant in the raid upon Columbus, N. M., today paid the penalty for his crimes, facing a firing squad of constitutional soldiers at Santa Rosa, Chihuahua's place of execution.

Lopez, who at the orders of Villa massacred 18 American mining men at Santa Ysabel, Chihuahua, in January and who is said to have directed the movements of the Mexicans at Columbus, and expressed no regrets.

The big clock in the chertel was booming eleven as he faced the firing squad. The officer in command gave the order to present arms. Lopez raised his head, smiled until his teeth showed, and then looking directly at the soldiers, said:

"In the breast, brothers; in the breast."

All of the shots fired struck in or near the heart of the bandit, killing him instantly. As he leaped forward and fell motionless on his face the customary final two shots of grace were fired. Although there were numbers of soldiers and citizens present there was no disorder. Lopez left orders to his wife and to his father saying that he hoped to meet them in the next life and urging them to believe he was not a traitor to his country.

"Since my country needs my death, I give it willingly," he said.

Brandels Takes Oath of Office

WASHINGTON, June 6.—Louis D. Brandels of Boston today took his seat as an associate justice of the Supreme Court, the sixty-second citizen to rise to that high distinction. The ceremonies lifting the new justice from among the rank of attorneys to a seat on the first court of the nation were precisely those by which his predecessors of the last generation were likewise elevated.

HOT SPRINGS, Ark., June 6.—At least four persons were killed and half a dozen others were injured seriously in a tornado which swept across Garland county late today and through the southwest portion of the city.

The electric light and power plant here was put out of commission and tonight the city was without lights or car service. Many houses were demolished.

ing line. When the war started, she was in the Far East, and was reported to have been worsted in a fight with Germans in the South China sea. She was one of the British squadron which was sent to this country for the Jamestown exposition in 1907.

Secretary of War

Earl Kitchener was appointed secretary of state for war August 8, 1914, a few days after Great Britain's declaration of war on Germany. He was regarded as England's greatest soldier and the decision of the government to entrust him with supreme direction of the war was received with unanimous approval.

As the war progressed and Great Britain's deficiencies in certain directions, particularly in regard to the shortage of artillery ammunition, became apparent Earl Kitchener was subjected to severe criticism, led by Lord Northcliffe. The secretary was charged with responsibility for failure to foresee the extraordinary demand for heavy shells, and as a result the ministry of munitions was formed with David Lloyd George at its head.

Earl Kitchener's responsibilities were further lessened by the appointment of a chief of staff in December last. It was reported at that time that friction had arisen between Earl Kitchener and Field Marshal French then in command of the British forces in France. Shortly after the appointment of General Robertson as chief of staff, Field Marshal French relinquished his command.

Created Huge Army

Notwithstanding the criticism directed against Earl Kitchener, his great accomplishments during the war are recognized universally. Foremost of his achievements is the creation from England's untrained manhood of a huge army. At the beginning of the war Great Britain had only a few hundred thousand trained men, today more than 5,000,000 men are enrolled for the various branches of the service.

There has been no recent reports of Earl Kitchener's movements. He was last mentioned in the cable dispatches of Friday when he went to Westminster palace to be questioned by members of the house of commons who were not satisfied with the conduct of the war. No intimation was given that he intended to leave England.

ROBERTSON TO SUCCEED K. OF K' AS WAR CHIEF

LONDON, June 6.—When the news of the sinking of the cruiser Hampshire with Earl Kitchener and his staff on board was received in London a meeting of the British war council was immediately called. Sir William Robertson, chief of the imperial staff, who probably will become the head of the war office; Sir Edward Grey, secretary for foreign affairs; Reginald McKenna, chancellor of the exchequer, and David Lloyd George, minister of munitions, were present at the council.

The first question asked when the news of Earl Kitchener's death was announced was, "Who will succeed him?" The answer invariably was, "Robertson, of course."

Sir William Robertson already had taken over the war secretary's duties temporarily when the secretary started on his journey.

The general has the full confidence of the country. While he cannot become secretary of war until he is raised to the peerage, a member of the house of lords might be put at the head of the war office with the understanding that the general, like Earl Kitchener, would have a free rein.

PETROGRAD, via London, June 6, 11:15 p. m.—The Russian press

urges the entente powers to bring pressure to bear on Greece because of the antagonistic attitude of that country. Something of a sensation has been caused by articles, especially those in the Bourse gazette expressing the opinion that the king of Greece "would do well to take a rest of some duration at some place better for his health than Athens."

The other papers denounce the "political felony" of Greece toward the entente. The Novoyevrem declares the measures taken at Saloniki as insufficient and calls upon the entente powers to take necessary steps at Piraeus and Athens.

LEONARD WOOD FAVORITE SON OF T. R. FORCES

CHICAGO, June 6.—Continued conferences held today between the republican and progressive leaders have failed to disclose the much sought common ground upon which they can agree on candidates and issues, and with the assembling of two separate conventions less than twenty-four hours off, the two forces seem to be as far apart as ever.

Justice Hughes remained the leading figure in point of strength when first and second choices were considered and Colonel Roosevelt still was conceded a veto power in the republican convention. Whether he would exercise it against Justice Hughes in advance of the balloting was a question in the minds of the leaders.

George W. Perkins issued a statement denying flatly that Colonel Roosevelt ever had declared his approval of Justice Hughes or any other man.

Progressive leaders admitted that in their harmony conferences with representatives of the regular republican forces they had been at a disadvantage in that they had only one candidate to offer while the republicans advanced the names of all the favorite sons and Justice Hughes as well.

The importance to the progressives of having a list of compromise possibilities to counterbalance the republican list of candidates was recognized even by Roosevelt who at Oyster Bay today added the name of Major General Leonard Wood, giving out a statement that the general would be "acceptable" to him.

RUSSIA BEGINS GIANT OFFENSE; VERDUN QUIET

LONDON, June 6.—The long-expected general offensive of the Russians against the Teutons seemingly has begun. From both Petrograd and Vienna come reports that the Russians are actively engaged over a front from the Pripet river, east of Brest-Litovsk, to the Rumanian frontier—a distance of about 250 miles.

The Russians everywhere are using large numbers of guns and men, and according to Petrograd have achieved successes on many important sectors, taking 13,000 prisoners and a number of guns, and destroying or capturing Teuton positions.

Along the Bessarabian front, in the Dniester region along the lower Strpa, and in Volhynia the Russian attacks have been particularly violent. In the region of Olyka, in the zone of the Volhynia fortress triangle, the Russian guns have shelled a front of more than 15 miles in length held by the Austrian archduke, Joseph Ferdinand.
