EAGLE POINT EAGLETS

By A. C. Howlett

Since my last report on the wool question Henry Trann of Lake creek has brought in a small lot of wool for Geo. Brown & Sons, and William and John Grissam have brought in three loads of wool. They had it engaged to Roy Ashpole, who was buying for a Willamette firm, but when they arrived with the wool Monday Mr. Ashpole was up a stump what to do about it. The demand now is for the long coarse wool and this lot of about 6000 pounds is of the Merino variety, short and fine. Since I commenced to write this, Wednesday afternoon, I had a talk with Mr. Ashpole and he said that the head of the firm that he is buying for expected to be here tonight, but that Messrs. Grissam had had another offer for the wool and he advised them to take it and let it go as the price was on the decline. If they let it go at the price now offered they will lose several hundred dollars and may terminate in a lawsuit for the company Mr. A. represents is supposed to be solvent. I learned that Mr. Ashpole has just received a small lot of wool. As is often the case about the time the sheep men begin to bring in their wool the buyers begin to lower the price, but if they would do as the sheep men in the Umpqua valley did, pool their wool and wait for a buyer to come and hunt it up, then the seller could set the price instead of having the buyer set the price and force the unorganized sellers to take their price.

Yes, but how? A natural question. The answer is that you must cleanse your blood by stimulating it to healthy, vigorous action, so that it will throw off the germs and impurities that cause rheumatism. The action of the wonderful blood purifier, S. S. S., is to practically renew the life blood, giving it vigor, stimulate the flow, making it throw out the germs and the poison impurities. The excruciating pains of rheumatism, whether it is the shooting, stabbing, aching, the gripping agony or muscular rheumatism, or aching arms and legs that break up sleep, will be entirely relieved by S. S. S. Don't use nostrums and drugs. Take the blood bath—Nature's blood tonic, S. S. S. Get it at any drugstore, but insist upon S. S. S. Let us tell you about blood diseases. Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constituting the system. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; when cases get so far advanced that deafness is the result, it is entirely cured by Catarrh, which is nothing but an inflamed condition of the mucous lining of the Eustachian Tube. This tube is inflamed by any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.
