TROOPS CROSS BORDER (Continued from page one.) bandits, who scattered in the brush and escaped. The fight followed the kidnaping by bandits during the afternoon of a Mexican farmer named Lagar. Lagar's nephew, who was with him at the time, escaped and gave the alarm. Raiders Fail to Raid LAREDO, Tex., June 17.—Due probably to the vigilance of Texas rangers and the military patrol, the reported raid of Mexican bandits at Isillas, twenty-five miles northwest of here, early this morning did not materialize, according to reports to General Mann, commanding the border patrol here. A well-informed Mexican arriving here from the interior of Mexico confirms reports that more than 5000 Carranza troops have passed Villalidama, 110 miles south of Laredo, going northward. He said the soldiers were spread out in moderate sized detachments. Traffic across the international bridge between Laredo and Nuevo Laredo has been noticeably diminished. Americans no longer pass the night in Nuevo Laredo and only the more daring pass to that city during the day. U. S. IGNORES TREVINO (Continued from page one.) erable correspondence has been exchanged between the department and the governors and adjutants general of various states relative to the new plans given the guard-men under the Hay-Chamberlain army reorganization bill which becomes effective July 1. These messages are presumed to have caused recurrent reports that the entire force of the national guard was being prepared for active service. Mexican embassy officials said they had not been informed of any message sent by Trevino and that examination of what purported to be the text of the warning was sufficient proof that it either was a badly garbled translation or a fabrication. The destroyer tender Panther, with the first and second destroyer divisions has been ordered from Santo Domingo to Key West, presumably to be held in readiness to proceed to Mexico. The army transport Sumner, laid up at Newport News, Va., was ordered into commission today, but officials said there was no truth in reports that she was about to sail. Several transports are being held in readiness to bring Americans from Mexican ports in case of emergency. BANDIT SEARCH ALONG BORDER TO BE CONTINUED

SAN ANTONIO, Tex., June 17.—General Funston and his staff gave careful attention today to the activities of outlaw bands along the border, but far greater interest was displayed in the attitude being assumed by the troops of the de facto government. General Parker at Brownsville, Tex., made a brief report of the latest manifestation of outlawry, near San Benito, and General Mann reported the continuation of the search for bandits that aided the cavalry camp at San Ignacio, but it was evident at department headquarters that greater significance was attached to the doings of Carranza's troops than to those of the bandit leaders. Warning Ignored. General Riecan's warning that the crossing of the international boundary by any American troops for any cause whatever would be regarded as an overt act and would be the cause for an attack by the de facto government troops, did not disturb General Funston or his staff. The search for bandits will continue and whenever a "hot trail" is found leading into Mexico, the Americans will not hesitate to follow it. The officers in charge of troops on the border have authority to cross the border without waiting for special instructions. General Funston's army of almost 50,000 has been so disposed along the Mexican border that swift punitive action could be taken. General Trevino's threat to attack General Pershing if the American troops move east or west or south was regarded by army officers here as little less than a declaration of hostilities by the Mexicans since it may be necessary at any time for the leader of the big punitive expedition to send small detachments in pursuit of outlaw bands. Ready for Action. Precautions taken by General Bell at El Paso last night in holding all the American troops ready for action were similar to those taken at every border point opposite which there was any considerable number of Carranza troops. General Green at Eagle Pass and General Mann at Laredo also prepared to move quickly in case of any eventualities, but at those points, less activity on the Mexican side of the river was displayed. The garrison at Eagle Pass was strengthened last night by the arrival of the 39th infantry. Three companies of the Coast artillery, now on their way south, will go directly to Laredo. If the request of General Funston for more militia, his request has never been withdrawn, is granted, the state troops will be divided along the border stations.

SYRACUSE WINS VARSITY RACE AT POUGHKEEPSIE

POUGHKEEPSIE, N. Y., June 17.—Syracuse won the two mile varsity four-oared race on the Poughkeepsie course today. One length behind the winner was Cornell. Columbia was third and Pennsylvania fourth. There was a stiff upstream breeze at 4:14 1/2 p. m., when the junior varsity eights got off to a good start in their two mile race, the opening event of the regatta. The water was just beginning to break into white caps as Columbia took the lead in the first spurt from the stake boats. At the half mile mark Syracuse and Cornell were fighting for the lead. Gradually Cornell's oarsmen began to pull away at a 30 stroke with Syracuse a half length in the rear. Columbia was third and Pennsylvania crews were lost over the four course. Passing under the bridge, Syracuse lifted its stroke and began to creep up on Cornell. Syracuse held her spurt and steadily drove her shell ahead until open water showed between the shells at the finish. Columbia was six lengths behind the winner and Pennsylvania last by 20 or more lengths. All the oarsmen finished sitting up. The start of the freshman race was delayed because of rough water. A strong southeast wind kicked up a heavy sea. The freshmen eights, two miles, were to have started at 4:45 and the vania had last out on the outside mile course.

NO LEGAL CHARGE FOR EMPTY CARS

WASHINGTON, June 17.—The principle that railroads may not charge shippers for moving empty cars to points of loading was upheld by a ruling of the interstate commerce commission today in a decision forbidding the Pere Marquette Railroad company to charge \$6 a car for transporting empty refrigerator cars from Toledo, O., to Rose, Center, Mich., for return loading with ice.
