

ASHLAND RECALL ELECTION FAILS TO OUST MR. GREER

ASHLAND, June 27.—At the special recall election yesterday, Bert H. Greer, chairman of the springs water commission, won out by 59 majority, the vote being 598 for to 657 against the measure. For springs commissioner Greer received 637 votes to 594 for M. C. Reed. Votes cast were 1255. Normal voting strength here from 1800 to 2000. Each of the three wards went against the recall movement, and two gave majorities for Greer on the commission, the first ward being a tie. Figures by wards are as follows:

First—For recall, 213; against, 218. Commissioner—Greer, 212; Reed, 212.

Second—For recall, 179; against, 192. Commissioner—Greer, 189; Reed, 174.

Third—For recall, 206; against, 247. Commissioner—Greer, 239; Reed, 208.

As a result of the election the Plaza assumed the scene of an impromptu demonstration equalling a roundup in miniature, Mr. Greer making a speech to a large number of enthusiastic friends.

People in general are glad the recall fracas is over, and in view of the festivities next week desire to mobilize a united energy in that direction.

FRANCIS X. BUSHMAN AT PAGE TODAY ONLY

Francis X. Bushman and Beverly Bayne, recognized as the foremost starring combination in the silent drama, will be seen on the screen today only at the Page Theater in "A Million a Minute," a distinctive Metro "wonderplay" in five parts.

"A Million a Minute" is brimful of interest, and presents a story of intrigue, romance, adventure and mystery, together with a comedy relief, which makes for the most satisfactory entertainment.

In this production Miss Bayne has one of the best parts she has had since she came to motion pictures, about five years ago. She is seen in scenes of big dramatic productions and then there are lighter scenes, where she is given an opportunity to display her versatile charms to the full. Mr. Bushman, too, has a strong role, and is seen to good advantage. He has many thrilling adventures and scenes which call forth the fullest range of his dramatic powers and, as always, he meets the demand upon his art in a manner that pleases.

There are many interesting scenes taken in and around New York, on shipboard and along Broadway, and the cafe life and underworld of Paris are faithfully reproduced. Metro has spared no expense or effort to make "A Million a Minute" one of the big features of the year.

EAGLE POINT EAGLETS

By A. C. Howlett

Roy F. Peterson and R. R. Lowe of Hartford Capenell Horse Nail Co. were doing business in our town the middle of the week and called Sunday for dinner.

There was a party passed through here last Wednesday with an auto truck load on their way for Union creek. One of them was the same man who had a store there last summer, and I understood that he was going out there again to rebuild his store building, as the house he occupied was crushed last winter by the snow.

Green Matthews was in town the first of the week and reported that some one of his neighbors had stolen off of his hay rake seventeen teeth and several of the clamps that hold them in place. He said that the teeth were so marked that they could be identified, as his son, Verne, had heated them and turned the ends of the teeth so that one-half would be turned to the right and the other to the left, and that the next morning he looked around among the hay rakes and found rakes teeth that fitted the description. That one of his neighbors about the same time had several sickle-gearings off his mower and about the same time Frank Abbott had a five-gallon can of coal oil taken from his home, and I am expecting to have to report that some one will be found with a load of shot in his body before long.

candy department of the Medford Grocery Co. was here Thursday.

Dr. W. E. Buchanan of Ashland, but recently of this place, came up the first of the week to do dental work for quite a number of our citizens, remaining all the week. He has his room in the office of Dr. Holt.

B. F. Bigham of Trail was here during the week looking over the situation with an eye to opening up a meat peddling outfit, as Mr. Brown, the man who has been furnishing this section with meat, contemplates going away about the first of July. He goes on account of his wife's health, so she can change climates.

Mr. Stinson and a co-laborer have been out here in the employ of the electric light company and installed an automatic motor to pump water from the grist mill ditch for the benefit of the Brown, Holmes, Holt and Knighton families. It is arranged so that when the water tank gets partly empty of water that the pump will start and when it gets full it will stop—a fine arrangement.

George Richardson of Butte Falls, who has been felling trees for one of the large mills near Odessa, Klamath county, had the misfortune to cut his foot so as to be laid up for some time, came in and spent the night with us Wednesday on his way home.

A lady by the name of Glenn and A. Hubbard came out on the P. & E. Thursday and Mr. Hubbard went on up to his ranch beyond Derby, and Mrs. Glenn took the auto stage for Lake Creek. The fish and game car also went up to Butte Falls at the same time with a load of young fish to be used at the Butte Falls hatchery.

W. C. Daley and wife were guests at the Sunnyside Thursday.

Professor Howard Grover of Medford was also at the S. S. for dinner Thursday. He was out in the interest of the Medford Business college.

Elmer Hurd, the Eagle Point electrician, was here Thursday. He was putting in the new electric pump in the Snowy Butte mill.

Miss Edner Whitley of Portland came in Thursday on her way to the Prospect country to visit her parents. While here she was the guest of Mrs. Wm. von der Hellen.

Mr. and Mrs. George von der Hellen, who have been on a visit to Corvallis to attend the commencement exercises of the O. A. C., returned the first of the week via the Columbia river highway, Bend, Fort Klamath, Klamath Falls and Ashland. Mrs. von der Hellen says that they encountered considerable snow and were in a snowstorm for one day, but they had a delightful time.

Since my last report George Brown & Sons have bought and shipped quite a lot of wool of J. W. Thompson of Prospect and Fred Lay of Wellen.

Pete Young and his sister, Miss Clara, were doing business in our town Friday, and their brother, Nick, was here Saturday morning.

Professor C. E. Johnson sent off to the headquarters of the Anti-Saloon league, Portland, his second petition for the adoption of the amendment to the constitution of the state barring the shipping in of intoxicants for beverage purposes and started his third one last night, Friday, and Rev. L. L. Simmons has sent off one, making in all 120 names. In a former letter I stated that there were sixty names on a single petition, but there are but forty.

Saturday I met Mr. Edwardas of Brownsboro, and he was telling me of the wonderful discoveries being made on Lake creek in copper, and later in the day I met Irvin Daley of Lake creek, one of the discoverers of the mine, and he told me that they were in about 100 feet and that the richer the vein becomes, that he can take a piece of the rock as large as a man's fist, pound it up and wash out a half-teaspoonful of copper. Another peculiarity is that he finds solid rock like agates as large as his fist or perhaps larger, and the outside will be perfectly dry, but on breaking them open will find they contain as much as a half-teaspoon full of clear water and having crystallized quartz inside of them. He says that if the lode proves to be as rich as it is reported, that they will not only be able to build the town to build a railroad for them, but will build it themselves. Mr. Daley was down after a load of lumber to build his new house. He bought the lumber last fall, but the roads were so bad that he could not haul it, so stacked it here until dry weather.

He brought down a lot of drift he uses in his mine to our blacksmith to have them sharpened.

A. W. Grocer has been treating himself to a new hay fork (Jackson), truck and carrier to put in his barn.

One of the Gould sisters of Medford came out on the P. & E. Saturday morning and went on up to Dec. Bradshaw's.

Miss Clara Zimmerman, one of the phone girls and postoffice clerks, who has been taking a vacation, visiting relatives near Derby, and one of our regular waitresses, returned to her post Saturday afternoon.

MAY ROBSON AT STAR THEATER TONIGHT

May Robson is the latest to enter the field of motion pictures. She appears in a Vitaphone production—one splendidly suitable for her appealing and graceful art of character por-

trayal. In "A Night Out," she exhibits a girlish freshness that is a graphic lesson to those women who grow old before their time. It's a comedy of refreshing originality.

Deafness Cannot Be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional treatment. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running discharge or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and the tube restored to its normal condition, hearing will be destroyed forever; also cases of otitis are caused by Catarrh, which is nothing but an inflamed condition of the mucous surface. We will give one hundred dollars for any case of deafness, caused by catarrh, that cannot be cured by HALL'S CATARRH CURE. Send for circulars free. F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 25c. Take Hall's Family Pills for constipation.
