ALL GERMANY ON SHORT MEAT DIET

BERLIN, June 30.—It is announced semi-officially that a general meat card for the entire empire was adopted September 1. The cards already have been introduced in the south German states and the larger cities of Prussia, but great irregularity as to the amount of meat allotted to the different parts of the country prevails and the object of the national card is to secure uniformity in consumption.

GUARD AGAINST WRECKS TROOP TRAINS TO LINE

SAN ANTONIO, Tex., June 30.—While thousands of national guardsmen today toward border stations, extraordinary precautions were being taken to prevent the exact routings and schedules of the numerous special trains from becoming widely known. General Finston was instructed by the secretary of war to exercise the utmost precaution in concealing details of the mobilization. General managers of all railroads carrying troops have been requested not to make public the movements of trains.

It was explained at headquarters that these measures were taken to render more difficult any attempt that might be made to wreck trains. Information obtained by the intelligence officers has indicated that such an attempt might be made. Reports from General Pershing and from officers at border posts contained no indication of hostility by Mexican troops. Reports that a strong Mexican force had interrupted General Pershing's line of communication were denied.

1000 OXEN TO AID ARMENIAN FAMILIES

NEW YORK, June 30.—Distribution of 1000 oxen to 2000 Armenian families in forty-six villages of the Russian Caucasus was reported today by the American committee for Armenian and Syrian relief. These families were refugees who are returning to their homes following the advance of the Russian armies into Turkey. The consul added that there was still need for expenditure on a large scale. The committee estimates there are about 225,000 refugees in the Caucasus and in Persia.

"The treaty, which is for twenty-five years," says the correspondent "provides for the unification of direction of military and foreign affairs, while regarding economic questions it provides for concerted action in dealing with foreign countries, interstate relations being left outside its scope."

WASHINGTON, June 30.—Extra pay for foreign service will be allowed the American troops serving across the Mexican border, under a decision today by Comptroller Warwick of the treasury. Enlisted men will receive 20 per cent additional and officers 10 per cent. The comptroller also gave the opinion that government employees who enlist in the national guard are entitled to full pay from their civil position for the first thirty days of their service, except that the combined salaries of officers will be subject to the \$2000 limitation provided by law.

Exodus From Tehuantepec GALVESTON, Tex., June 30.—Carranza authorities are responsible for the exodus of Americans from the Isthmus of Tehuantepec, having ordered all Americans to leave the country, according to the refugees from Mexico. The action was begun in Davenport by three saloonkeepers to test the new law.

YANKEE FLYER DIES BATTLING ENTENTE'S FOE

WASHINGTON, June 30.—While on an errand of mercy for a wounded comrade that Victor Chapman of New York, a member of the American aviation corps met his death last week. Captain Boelke, the most famous of all German aviators, who up to that time had accounted for eighteen aeroplanes sent Chapman to his death. But before he fell the American brought down two German machines.

These details are disclosed in a semi-official statement given out today, which also announced rewards and promotions for other American aviators. All the members of the American squadron have been decorated and promoted.

Sergeant Balsley, of San Antonio, Texas, wounded in a fight near Verdun, and probably crippled for life, is in a hospital a few miles from the aviation camp to which Corporal Chapman was attached. The sergeant asked for an orange but there was none to be had at the hospital. Corporal Chapman heard of the incident, obtained a basket of oranges and set forth in his aeroplane for the hospital. While on his way he came upon three French aeroplanes engaged with four German machines and dashed into the fight. Swooping down on the Germans he put his machine into action. Two German machines fell to earth. Chapman sent them down almost as soon as he entered the combat. Then Captain Boelke turned on the American and caught him at such an angle that he was able to rake the aeroplane with machine gun fire. One bullet struck a vital spot and Chapman plunged lifeless to the ground within the German lines.

The semi-official statement says that a religious service will be held in memory of this citizen of the United States, who inspired by sentiments of lofty idealism gave his life for the cause of the allies.

For their recent accomplishments rewards and promotions have been given to American aviators as follows:

Lieutenant William K. Thaw of Pittsburg, the cross of the Legion of Honor.

Sergeant Kiffen Rockwell of Atlanta, the military medal.

Sergeant Bert Hall of Bowling Green, Ky., the military medal.

All the other members of the squadron save two are made sergeants.

Probe Favoritism Charge WASHINGTON, June 30.—The interstate commerce commission today ordered an investigation into the Alaskan railroad and steamship situation as a result of charges that the American Smelting and Refining company and the Kennecott Copper company have been able to monopolize and control the copper industry in the territory through railroad and steamship favoritism.

ENGLISH TOILERS ASK REGULATION OF FOOD COSTS

LONDON, June 30.—A special trades union congress of 600 delegates, representing 3,000,000 organized workers, met in London today and adopted a resolution asking the government to take steps to regulate the prices of food and fuel. The resolution expresses the view that price regulation could be enforced only by a department of the government with power to commandeer and distribute food and fuel, fix freight rates, requisition home-grown crops and establish standard prices for fuel.

The congress also adopted an alternative resolution in favor of government ownership of all merchant shipping. Still another resolution declared that if the government offers objection to the proposals of the congress immediate steps will be taken to press for such advances in wages as are necessary to maintain a proper standard of living.

The congress also adopted a resolution asking for an increase of 50 per cent in old age pensions during the period of high prices.

WHY DINING CAR CHEFS PREFER K.C. BAKING POWDER

Those who have had cakes ruined by jarring the stove, slamming the oven door or a heavy footstep, may have wondered how the dining car chef can turn out such marvelous biscuits, hot breads and pastry when his oven is being incessantly jarred and jolted and shaken by the motion of the train.

To get pastry to raise and stay raised under these conditions, a baking powder must be used that continues to give off its leavening gas—that sustains the raise—until the dough is baked through.

Dining Car Chefs have found a baking powder exactly suited to their needs in K.C. and you will find it just as well suited to your requirements. K.C. is really a blend of two baking powders, one active as soon as moistened, the other requiring both moisture and heat to start the generation of leavening gas. No matter how moist and rich you make your cake, K.C. Baking Powder will sustain the raise until a crust is formed and all danger of falling is past.

K.C. Baking Powder is pure and healthful. It is guaranteed under all pure food laws, and is guaranteed to please you. And it is sold at a reasonable price—no baking powder should sell for more.
