

WATER OFFERED BY DISTRICT PLAN AT \$40 AN ACRE

The organization of an irrigation district to comprise 25,000 acres of land under the high line ditch was proposed at a meeting of land owners held Saturday afternoon at the Medford library.

Leonard Carpenter acted as chairman of the meeting and the proposition was discussed by P. Welch, president of the canal company and others present.

Committees were appointed to canvass the district and ascertain the sentiment of the land owners. The following is the Canal company's proposal:

To the land owners below the proposed high line canal and above the constructed low line canal of the Rogue River Valley Canal Company: Gentlemen:

We are advised that there are approximately twenty-eight thousand acres between the two canals of the company. If you see fit to organize an irrigation district comprising 25,000 or more acres, the Rogue River Valley Canal Company will, at a price of \$40 per acre, construct the proposed high line canal to cover this acreage, such construction to be of the same type and characterized as the low line canal and Phoenix ditch already constructed.

There is more Cataract in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Cataract to be a constitutional disease, and therefore requires constitutional treatment. Hall's Cataract Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure for this disease. It acts directly on the blood and mucous surfaces of the system. They cost one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

PIMPLES AND SKIN ERUPTIONS DANGER SIGNS OF BAD BLOOD

First Sign of Blood Disease.

Pimples, scaly itching skin, rashes, burning sensations and Scrofula denote with unfailing certainty a debilitated, weakened and impure state of the blood. The trouble may have been in your blood from birth, but no matter how long you have been infected, you must treat it through the blood. It is a blood disease. You must use S. S. S., the standard blood tonic for 60 years. If you expect relief, for purifying the system, nothing is equal to it. The action of S. S. S. is to cleanse the blood. It soaks through the system direct to the seat of the trouble—acting as an antidote to neutralize the blood poisons. It revitalizes the red blood corpuscles, increases the flow so that the blood can properly perform its physical work. The dull, sluggish feeling leaves you—the complexion clears up. Even long-standing cases respond promptly. But you must take S. S. S. Drugs and substitutes won't do. Get S. S. S. from your druggist. If you need expert advice write to Swift Specific Co., Atlanta, Ga.
