## CRISIS ENDS WITH MEXICO

(Continued from page one)

forth exactly the situation with the United States as viewed by the Mexican government."

**Suspicion Removed.** American officials hope the complete absence of any disconcerting language and unwarranted charges of bad faith, such as have characterized the last two Mexican notes, indicates that much of the suspicion as to the purposes of the Washington government has been removed from the first chief's mind.

Copies of the note were sent by Mr. Arredondo to all embassies and legations in Washington, particularly to the Latin-American diplomats have sought previously to arrange for mediation of the dispute.

The declaration of the Carranza government will seek every means to avoid new incidents to aggravate the situation is regarded as a virtual withdrawal of the order to General Trevino to attack General Pershing's men if they moved, east west or south.

**Translation Being Made.** As soon as a translation of the Spanish text could be made it was sent to the white house. Until Secretary Lansing and President Wilson have had an opportunity to confer there will be no formal comment. But some state department officials did not attempt to conceal the fact that they considered the note most satisfactory and likely to remove all danger of war.

Translators were set at work immediately on the Spanish text of the document. It has been unofficially described by persons close to the embassy as conciliatory and designed to pave the way for an amicable adjustment of differences between the two countries. The text of the note as transmitted by Eliseo Arredondo, the Mexican ambassador designate, follows:

**Arredondo's Note.** "Washington, July 4, 1916. "Mr. Secretary:

"I have the honor to transmit in continuation the text of a note I have just received from the Mexican government with instructions to present it to your excellency.

"Mr. Secretary: "Referring to the notes of June 20 and 25 last, I have the honor to say your excellency that the immediate release of the Carranza prisoners was a further proof of the sincerity of the desires of this government to reach a pacific and satisfactory agreement of present difficulties.

"It was also the Mexican government that earnestly suggested a plan for caucementations along the boundary line during the conferences of Ciudad Juarez and El Paso. This government is disposed now, as it has always been, to seek an immediate solution of the two points which constitute the true cause of the conflict between the two countries, to-wit—the American government thinks reasonably that the insecurity of its frontier is a source of difficulty and the Mexican government, on its part, believes that the stay of American troops on Mexican territory, aside

from being a trespass on the sovereignty of Mexico, is the immediate cause of the conflicts. Therefore the withdrawal of American troops on one hand, and the protection of the frontier on the other, are the two essential problems, the solution of which must be the directing order of the efforts of both governments.

"The Mexican government is willing to consider in a quick and practical way and prompted by a spirit of concord, the remedies which should be applied to the present situation.

**Mediation Offered.** "Several Latin-American countries have offered their friendly mediation to the Mexican government, and the latter has accepted it in principle. Therefore the Mexican government only awaits information that the government of the United States would be disposed to accept this mediation for the purpose mentioned above or whether it is still of the belief that the same results may be attained by means of direct negotiations between both governments.

"In the meantime this government proposes to employ all efforts that may be at its disposal to avoid the recurrence of new incidents which may complicate and aggravate the situation. At the same time it hopes that the American government on its part may make use of all efforts to prevent also new acts of its military and civil authorities of the frontier that might cause new complications.

"I avail myself of this opportunity to reiterate to your excellency the assurance of my most distinguished consideration. (Signed.) "C. AGUILAR!"

"Having thus complied with higher instructions of my government, it offers me pleasure to reiterate to your excellency the assurance of my highest consideration. (Signed.) "E. ARREDONDO."

gained has been concentrated it is said artillery preparation for a second big thrust will be made.

The Italians, after regaining territory in the Trentino, are going according to their original plan and are attacking along the lower Isongo, where they have gained lesser successes.

Important news comes from Petrograd. Russian advance guards on General Letchitzky's extreme left are engaged with Austrian rear guards on the spurs of the Carpathians, and unofficial reports even say Cossacks have been raiding Hungary. General Letchitzky's right has opened a passage in the direction of the stretch of railway connecting the rear of the entire Austrian front—Kolomea, Stanislaw, Lemberg, while the occupation of Delatyn, for which the Russians are making, would sever the communications of General Von Bethler's army.

**Balkans Are Busy.** Both Field Marshal Von Hindenburg and Field Marshal Von Mackensen are reported to have arrived at Kovel to direct operations designed to break the Russian advance in Volhynia. The latest official dispatches contain claims by both sides to successes in this region.

Meanwhile the Balkans are attracting more attention than for some time. Military activities are revived and the successes of the entente al-

lies are reported to have caused a renewal of the propaganda of pro-entente politicians in both Greece and Rumania.

PARIS, July 5.—The French have captured a line of German trenches east of Curlis, the war office announced today. They have also captured Sormont farm facing Clerly.

The French resumed the offensive during the night on both sides of the Somme. South of the Somme they made further progress towards the river, particularly at Sormont farm. This position is on the left bank of the river opposite Clerly. All the region between the farm and Hill 63, on the road leading from Flaucourt to the Barleux, is now dominated by the French.

After a heavy bombardment the Germans captured part of the village of Belloy-en-Santerre, but the French quickly expelled them, taking the entire village. The Germans still hold part of the town of Estrees, where severe fighting is still in progress. French positions there were stopped by the French fire.

The number of prisoners taken thus far exceeds 3,000. The number cannon captured has not been ascertained. On the Verdun front heavy fighting is still in progress. West of the Meuse the French repulsed a strong German attack in the region of Avocourt and Hill 204. East of the river there was a violent bombardment of Thiamont redoubt and the Chenois sector.

The advance reported indicates that the French are moving eastward along the north bank of the Somme river in their movement toward Peronne in the combined Anglo-French offensive in Picardy. The most advanced point mentioned is 4 1/2 miles northwest of Peronne.
