### BAND TO REST AFTER STRENUOUS WEEK OF WORK

After a strenuous week's playing the members of the Medford band will rest for a week. The fourteenth concert of the 1916 season, held by the band at the city park on Friday evening was a success. It was, at first, thought the division of the crowd for the Railway meeting at the Natatorium and the park concert would be anything but successful, but the large attendance at both entertainments, was evidently the result of the preceding spectacular street parade. The program given by the band on Friday evening was the most varied and best rendered of the season, four of the selections played would be given space in any band's program. Rossini's overture to "Tancred," and the arrangement of "operas" were excellently rendered, and the soldier's song "Till the Boys Come Home," brought a pleasant surprise when the musicians discarded instruments and gave the chorus vocally. "Loves Old Sweet Song" as a concert solo by the bandmaster was probably one of the most appreciated numbers of the concert. The last march, one of Mr. Rowland's own compositions, was given great attention and the outburst of applause at the conclusion was a plain demand by the audience for a repetition. The march will compare favorably with the average. There are several intricate passages for the bass selection. The theme is especially pretty at the last where the reeds and counter instruments have a variation. Next week's concert will be given on Friday evening at the park.

According to a report of the market master, over a ton of cherries are sold at the public market each day. J. O. Hamersley will leave tonight for Klamath Falls, after spending a few days in Medford and Ashland. Earl Reynolds took a load of supplies to campers at Elk Creek this afternoon. W. J. Moore of Ashland is in town on legal business today. D. C. Lewis of Big Sticky is in town today. Wellborn Beeson of Talent is in town on business. J. C. Earl Price returned this morning from Elk Creek where he has been working at the Rogue Elk Resort.

### PERSHING LOSES LAST AEROPLANE

COLUMBUS, N. M., July 8.—In response to a request by General Pershing for another biplane to replace the punitive expedition's only available machine, which was put out of action yesterday, Lieutenant Ira Rader piloted another from Columbus this morning to the base camp, making the trip in two hours, according to a radio message received here by the military authorities. The main trouble with aeroplanes in this high region is the warping of the propellers and wooden frame by sun and dry air. The new corps here, however, is experimenting with a newly designed propeller which the inventor claims will withstand the climate. The accident yesterday was caused by the splintering of the propeller.

### CARRANZA'S REPLY REACHES WILSON

WASHINGTON, July 8.—Word of General Carranza's decision as to the form of diplomatic negotiations for the settlement of border difficulties should take, was received today at the state department. It is thought probable that the de facto government will authorize Eliseo Arredondo, ambassador-designate here, to talk matters over informally with Acting Secretary Polk. Officials expect that the Carranza government will again offer the border.

der cantonment plan which first was presented at the El Paso conference between Major General Scott and the Mexican war minister, General Obregon. It was rejected at that time because immediate withdrawal of General Pershing's men from Mexico was stipulated by General Obregon as a condition.

### Three Million Auto Tires made—by GOODRICH, in year 1915

STUDY the Price-List publicly printed below. Compare with the List-Prices of other Tires made in LESSER Volume. Observe that competing Prices are higher in almost the exact proportion that VOLUME of production is smaller. This, when Quality approaches the Goodrich Standard. Cut our 1915 Tire Output (of 3,000,000 Auto and Truck Tires) to One-third, and it would still far exceed the Average of all Competing Makes or Brands. But, that huge reduction in Volume MIGHT result in every Tire we made costing you One-third MORE than present prices. They would not,—and could not,—be BETTER Tires, at this necessarily higher-cost to us, and higher-price to you. Because,—Goodrich Tires are not made "up to a price,"—nor "down to a price."

WE, first of all, make the BEST Fabric Tires that our 47-year Experience in Rubber-Working,—our huge Purchasing-Power, and the most Advanced Equipment, renders possible. Then we let Cost fall where it will. To that Cost we add a moderate, and fair, Profit for Ourselves and for our Dealers. Then we let VOLUME rise,—as it will. The more Tires we Make, the LESS each Tire COSTS us to produce,—and the less it costs YOU to buy them. The more Tires we Sell, the less profit, per Tire, WE NEED, for dividends. The more Tires we make, the better we KNOW HOW to make them,—the more we have at Stake on Quality,—and Satisfaction to Consumers. And,—because of all this,—The BEST Fabric Tires that Skill,—Experience,—Good-Faith, and Maximum Volume, can build,—are now available to YOU at the VERY MODERATE Fair-List Prices here quoted. Why pay more for ANY Fabric Tire? THE B. F. GOODRICH CO., Akron, O.

Table with columns for tire sizes (30x3, 30x3 1/2, 32x3 1/2, 33x4) and prices for Ford Sizes and Safety Treads.

### GOODRICH Black "Barefoot" TIRES

"TEXTAN"—Does for your SHOE Soles what black "Bare-foot-Rubber" does for Goodrich Tire Soles. —Wears longer than Leather! —Is Non-slippery! —Is more Flexible than Leather! —Is Waterproof! —Is Lighter than Leather! —Is EASIER on your Feet!

### Goodrich Tires Sold Exclusively by C. E. GATES BEST IN THE LONG RUN
