BIGGER NAVAL BILL GETS REPUBLICAN AID IN SENATE

WASHINGTON, July 13.—The senate began debate today upon the naval appropriation bill. As it passed the house the bill provides for five battle cruisers and no battleships and contains no provision for a building policy extending into the future. A program of four battleships and four battle cruisers for the coming year and completion of the five-year program of sixteen capital ships two years earlier than intended was decided upon by the senate naval committee after conferences with Secretary Daniels, who voiced the president's desire that construction be speeded as much as possible.

Senator Swanson of Virginia, a democratic member of the naval committee, opened the general debate, declaring that to be safe the United States "must become and remain without question the world's second naval power."

Republican support for the bill was expressed by Senator Lodge. "If the essential features of this bill are carried out," he said, "it will do more for our peace than all the diplomatic notes ever written. We cannot rely upon the Panama canal to transfer the navy from one coast to the other. The canal, in the very nature of things, is vulnerable. We must make up our minds now to build a fleet for the Pacific as well as the Atlantic."

RUSSIAN RIVER RESORT THREATENED BY FOREST FIRE

RIO NEIDO, Cal., July 13.—Two hundred men and boys, recruited from Guerneville and other points near here, are fighting a losing battle today against a forest fire, which is sweeping through the redwoods and brush towards Rio Neido and Guerneville, threatening to wipe both towns out.

"Unless we get help by noon," Postmaster J. F. Johnson, of Rio Neido, telegraphed San Francisco today, "we can kiss ourselves good bye."

Postmaster Johnson said the 200 men fighting the fire were insufficient and that calls he had sent out for help met with no further response. Some of the summer campers are leaving Rio Neido in fear of the flames. The first started last Saturday, but was thought extinguished late Sunday. A fresh wind sprang up late yesterday, however, and embers rekindled the flames. The fire already has devastated some 20 acres.

Rio Neido, a summer resort of cottages and small houses and a present population of about 2500, lies beside the Russian river, about two and a half miles over the brow of a forest-clad hill from Guerneville. The fire is devastating the timber on this hill, creeping towards both towns.

Both were placed under arrest by Warden Mansfield, who caught them in the act and confiscated four salmon caught, but they resisted arrest, drawing knives upon the warden and made their escape. One of them took to the hills and the other is reported to have gone to Klamath Falls. The wardens report that a good run of salmon is coming up the river.

OBJECT TO RATIFICATION OF HUGHES' CANDIDACY

NEW YORK, July 13.—A conference of representative progressives from all of the country will be held in Chicago it was announced here today by Bainbridge Colby, to consider "the widespread and bitter revolt within the party" against the action of the national committee in endorsing Charles E. Hughes, the republican nominee for the presidency. The date will be decided upon in a few days. Mr. Colby emphasizes that the conference will be national in scope, although all states might not be represented.

Mr. Colby who nominated Theodore Roosevelt for the presidency before the national progressive convention at Chicago, said that he is in receipt of letters from every quarter of the country protesting against what he characterized as "the Perkins-Flynn program. This program, he added, "does not represent the thought or feeling of the rank and file of the party."

Mr. Colby made public a letter he had received from John M. Parker of Louisiana, the progressive nominee for vice-president, in which Mr. Parker referred to "the star chamber" proceedings of the national committee.
