HENRY MILLER, CATTLE KING, SERIOUSLY ILL

SAN FRANCISCO, July 19.—Henry Miller, 59 years old, land baron and cattle king and a member of the firm of Miller and Lux was reported seriously ill tonight at his home here. Members of the family said his condition was not critical although his daughter, Mrs. Leona Nichol had been summoned from Del Monte, Cal., to her father's sick bed. Miller at one time was said to control 14,520,000 acres of land in California, Nevada and Oregon. He came to California with the pioneers of 1849 and a few years later went into partnership with Charles Lux. Lux died in 1887 and the business of the firm was incorporated. Miller retired from active business several years ago but retained a large interest in the concerns.

ACTIVE CAMPAIGN FOR RENEWAL OF SUBMARINE WAR

BERLIN, July 19.—The active campaign for resumption of submarine warfare in its previous form has assumed new importance from an article today by Ruyter Zimmermann, general director of the Lokol Anzeiger, whose views, as past events have shown, usually reflect the opinions held in governmental circles. Referring to the reasons which Great Britain gave for abandoning the declaration of London, Herr Zimmermann contemplates the possibility that Great Britain will compel smaller neutral states to adopt an unfriendly, perhaps a hostile, attitude toward the central powers, or even to close their frontiers completely against them.

He then cites in heavy type his own comment on Germany's acceptance of the American demands in regard to submarine warfare, indicating that circumstances might arise later which would make it impossible to adhere to the restrictions on the activity of these craft.

Herr Zimmermann goes on to say that the political reasons which shaped Germany's policy at the time included the wish to preserve the good will of neutrals, and adds: "But if Great Britain succeeds in making neutrals passively or actively hostile to us, our important reason for Germany's decision of that time would cease to exist. It makes no difference whether neutrals yield to British threats through sympathy or through fear."

Herr Zimmermann intimates in a veiled manner, being unable to discuss this phase more freely, that the submarine power of Germany underlines a favorable change in spring, evidently meaning that either their numbers or their efficiency has been increased considerably.

BELGIANS DEFEAT GERMAN FORCES CENTRAL AFRICA

HAVER, France, July 19.—Belgian troops operating in German East Africa have reached the shore of Lake Victoria and in a spectacular campaign fought on July 7 they dispersed the Germans opposing their advance, taking the German commandant prisoner and inflicting a number of losses on the Germans, according to an official statement issued by the Belgian War office today.

The review covers the operations of General Tombeur's army during a period beginning June 25. Briefly, the statement says, these operations were as follows: "After defeating the enemy on June 25 one day's march east of Biarambo, Colonel Mollitor's brigade continued to advance eastward with the object of occupying the southwestern shore of Lake Victoria, and getting the retreat southwestward of the best of the enemy's forces still holding out in the region between the upper Kagera and Lake Victoria.

"The Belgian troops on June 27 reached the shore of Lake Victoria at two ponds, Nalirububi and Babisu Yagobi. They made a number of prisoners. In a sharp engagement lasting several hours, fought on July 7, the enemy was dispersed. The commandant of the German column was taken prisoner and the enemy lost a number of killed. "The Belgian troops bore themselves admirably. Major Posting

YOU might love a girl without worrying whether she's a blonde or a brunette, but you'll never take on a new cigar unless you're sure it's the kind that "suits." Well, have you any doubts about the OWL Cigar? If so, speak up! The Million Dollar Cigar. M. J. JUNGST & CO. INCORPORATED.
