There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure, and for six weeks and testimonials.

Cheapness in electrical work seldom means satisfaction

There are so many ways electrical work may be "skipped" by unreliable workmen that not only your satisfaction, but your pocketbook demands that your wiring be done by a thoroughly reliable firm.

While the insurance inspection protects you as much as possible, don't forget that a lot of wiring—under floors and inside of walls—may never be seen by the inspector. Then, too, there is no inspection in the country.

And perhaps it has not occurred to you that the standard set by the underwriters for electrical work is the lowest grade which they will pass.

Our policy has not been to see how close we can come to this minimum standard and "get by." We aim rather to give you better work than is absolutely required. That's why we have become established, reliable and successful electric contractors.
