BERLIN, Aug. 1.—Turkish officers are now a familiar sight of Lemberg and the vanguard of the Turkish troops being sent to the southeastern battle front has already been determined, according to dispatches from the Galician capital. The Ottoman forces, however, have not yet been thrown into the struggle. The German commanders are hiding their time to launch their counter blow at the Russians, disregarding the indecisive successes which General Brusiloff and his associate army commanders may be able to attain by the tremendous expenditure of forces.

JERSEY CITY BARS MUNITION TRAFFIC

NEW YORK, Aug. 1.—The city commissioners of Jersey City, by a vote of four to one adopted a resolution today calling upon Director of Public Safety Hague to prevent the shipment or storage of high explosives in that city. The commissioners authorized the director to use physical force if necessary in carrying out their mandate, which it was said, was based on the public nuisance ordinance of the city. This means, it was explained, that Jersey City will cease to be the terminus of munitions shipments for the entire government in Europe. The fourth arrest growing out of the separate inquiries under way was made today when E. L. Mackenzie, president of the National Coal and Storage company was taken into custody at his home in Plainfield, N. J., and released on \$5000 bail for examination Friday.

KAISER REFUSES AMERICA'S PLEA TO FEED POLAND

WASHINGTON, Aug. 1.—Germany has informed the United States she has refused "on account of the impracticable conditions imposed by Great Britain upon the shipments of foodstuffs from America into Poland," to enter into further negotiations for co-operation in Poland relief work which are devoid of purpose. Owing to favorable harvest prospects, however, the imperial government says relief apparently will be unnecessary after October 1 next. The German position is stated in a note handed to Mr. Gerard July 29 and made public today at the state department. It apparently is a final rejection of Great Britain's offer made in a recent communication acquiesced in by France to permit the passage of American food supplies into Poland on condition that the occupying Teutonic armies would not seize or remove native products. No mention is made of President Wilson's personal letter to Emperor William similar to those sent to other European rulers, appealing for joint action in arranging to feed the starving Poles. The note is in reply to identical communications sent by the state department to all of the belligerents concerned.

HUGHES FAVORS AMENDMENT FOR WOMAN SUFFRAGE

NEW YORK, Aug. 1.—Charles E. Hughes today declared for an amendment to the federal constitution providing for woman suffrage. Mr. Hughes' views on the subject were made public in a letter he has written to Senator Sutherland of Utah. Mr. Hughes' letter to Senator Geo. Sutherland was in reply to a telegram sent the nominee asking him to define his personal position with regard to the equal suffrage federal amendment. Mr. Hughes replied as follows: "Your telegram has been received. In my answer to the notification I did not refer to the proposed federal amendment relating to woman suffrage as this was not mentioned in the platform. I have no objection, however, to stating my personal views. As I said in my speech, I think it to be most desirable that the question of woman suffrage should be settled promptly. The question is of such nature that it should be settled for the entire country. My view is that the proposed amendment should be submitted and ratified and the subject removed from political discussion."

COOL WINDS BREAK EASTERN HEAT WAVE

WASHINGTON, Aug. 1.—Cool winds from the Great Lakes today had dissipated almost completely the wave of heat under which most of the country had sweeter for a week. Lower temperatures were reported from nearly all sections, particularly in the Ohio valley and lower lake region. Generally fair and cooler weather is forecast for New England and the middle Atlantic states during the next few days.
