PARIS, Aug. 8.—"The conviction is general at Rome," the Havas correspondent there wires, "that we are at the beginning of a vast offensive, the results of which are certain, although they may be slow."

LONDON, Aug. 8.—The Italian offensive along the Isonzo and on the Carno plateau is being continued and according to a wireless dispatch from Rome, a number of additional positions have been occupied. The Austrians hold little ground on the right bank of the Isonzo.

PRESIDENT URGES ACCEPTANCE OF NAVAL PROGRAM

WASHINGTON, Aug. 8.—President Wilson summoned Senator Swanson and Representative Padgett, representing the senate and house conferees on the naval bill to the white house today to gain information on the result of the conferences and to urge again that the house accept the senate provisions for a larger building program and increase in the personnel of the navy.

The only criticism of the report came from Senator Clapp of Minnesota who protested against elimination of the La Follette amendment increasing the minimum age limit for enlistment from 18 to 21 years without consent of parents or guardian.

The bill provides for organization of a council for national defense to co-ordinate transportation, industrial and agricultural facilities in time of stress, for relief of dependent families of soldiers in service on the Mexican border and appropriate a sum of money for development of aviation in the army.

FIVE CENT LOAF ECONOMIC WASTE

SALT LAKE, Utah, Aug. 8.—A five-cent loaf of bread is an economic waste, in the opinion of C. N. Power of Pueblo, Colo., who today addressed the convention here of the Master Bakers of the United States.

"Efficiency," declared Mr. Power, "determined the baking of 19-cent loaves of bread rather than the 5-cent loaf. He estimated the cost of baking one thousand loaves of bread at 5-cents per loaf is \$3.55 more than the cost of baking the same flour into five hundred 19-cent loaves."

John Philip Sousa by Walt Mason. The March King's stately name is known wherever music holds its own, wherever drums and cymbals throb, and orchestras hold down their job. A Sousa march—just mention that, and mark how people smile thereat; they know what Sousa's music is; it's melody without the fizz; it's full of energy and pep, and makes old graybeards dance a step; they hear the sound of marching men, of chargers trotting down the glen, the shock of battle and the roar, and billows beating on the shore. And Sousa, when he would compose that music which the whole world knows, fills up his pipe with good old "Tux" (name 't'other brands, and he says, "Shucks!"). Tuxedo is the smoke of men who do big things with lyre or pen, who make the old world's wheels go round, whose names will down the ages sound.

JOHN PHILIP SOUSA And His Band, Says "All the vim, energy and enthusiasm we put into the playing of 'The Stars and Stripes Forever' we find in the steady use of Tuxedo."
