Mr. and Mrs. Fred Hopkins of Central Point are spending the day in Medford.

Mrs. W. T. Grieve of Jacksonville is in Medford shopping today.

NORMAL SERVICE RESUMED UPON GOTHAM TROLLEYS

NEW YORK, Aug. 8.—Normal service of the most important surface street car lines in Manhattan and the Bronx was resumed today after having been partially interrupted by strikes of motormen and conductors beginning about two weeks ago and subsiding Friday night last week in a walk out of the men employed by the New York railroads company.

About 7,000 employees of this company and of the Third avenue railway system are affected by the settlement agreed upon yesterday by the directors and officials and the men after conference with Mayor Mitchell.

By the terms of the agreement the right of employees to organize is conceded and the two companies promise to treat with committees of their employees in considering grievances.

A demand for increased wages was to be discussed by committees not later than August 30 and if they fail of agreement the controversy will be submitted for arbitration.

The strikes of the employees of the Second avenue, Queens and Staten Island railway systems have not yet been adjusted, but the men believed they would be granted concessions similar to those given the other lines.

STRICKEN ON STREET DIES IN HOSPITAL

George F. Shew, who was stricken with apoplexy on North Front street last Saturday morning, died at the Sacred Heart Hospital Saturday night.

Shew was a widower and as far as is known, is survived only by a daughter, Mrs. H. B. Shope of Seio, Ore., who arranged for the shipment of the body to Dallas, Ore., Sunday.

He was 62 years of age, a brick-maker by trade and a native of Iowa.

HANLY ACCEPTS NOMINATION (Continued from page one)

and redress the wrongs as best I could and pleaded for action.

"Finally it honored with positions of council and trust in state and national conventions, the active, direct representatives of the liquor traffic and by its silence in its conventions both state and national, acquiesced in the traffic's wrongs and burdens, and robbed my heart of hope. Then I left it, and came to you, knowing that your councils as to this great issue, would neither be corrupt nor divided, your purpose turned aside, nor your action delayed, should you be given power.

To End Evil Traffic. "Upon this great issue, your minds and mine are one. We share a common faith and hold a common purpose.

"If power is given us, we will end this traffic—and it though it require the exercise of every atom of power vested in the government, or inherent in the people. Legislative enactment, administrative action, judicial decision and constitutional amendment—all shall be used for its destruction.

"To the support of this high empire, we challenge the intellect, the heart and the conscience of the nation. If those who admit the righteousness of the thing we mean to do, and who desire the consummation of the end we seek, will enlist and vote and stand with us, we will elect a ticket you have named and before the end of our first administration, tender a service unmatchable since the days of Abraham Lincoln and the abolition of human slavery."

Tom Farlow of Lake Creek is spending the day in Medford.

MATHER IDEAL HEAD FOR PARKS SAYS DR. COE

Dr. Henry Waldo Coe of Portland erstwhile Bull Moose leader of Oregon, who, as editor of the Medical Sentinel attended the State Editorial Convention, returned from Crater Lake Monday evening enthusiastic over the lake and over the hospitality shown by Medford.

"I think Crater Lake one of the world's wonder spots," said Dr. Coe "and I believe it has great possibilities. I have discussed the subject with Stephen T. Mather assistant to the Secretary of the Interior Lane, who has supervision of national parks and I know that he has great plans for the park's development.

"By the way, it would be impossible to find anywhere the equal of Mr. Mather as the head of the national parks. He is ideally qualified, and takes a deep personal interest in the subject. His interest is such that in one case he dug down in his own pockets for \$25,000 to complete a park improvement, that the delay of government red tape would have postponed until the cost doubled. In one year he gave \$65,000 to the parks.

"Mr. Mather is a most liberal big hearted man. I have been associated with him in philanthropic enterprises and I know that he made a home for tuberculosis children possible in Illinois by a donation of \$10,000. He organized the Illinois mental hygiene society and gives \$2,000 a year for its maintenance. Any subject that he is interested in has ready access to his pocket book."

Dr. Coe recently returned from the east and reports conditions there most prosperous. He said:

"They are making so much money in the day time that they can't count it at night. The east is a vast hive of industry. And this prosperity makes it hard work for the republicans, who have an uphill campaign, as they have always made the people believe that the party in power was responsible for prosperity."

SUGAR FACTORY AWAITS EXTENSION WATER SYSTEM

The committee of commercial club members was informed this morning by officials of the Utah-Idaho Sugar Co., who have been investigating sugar beet prospects throughout the valley for the past week that the company will take no action toward building a sugar factory in Medford until more of the valley is placed under irrigation. If the proposed high line ditch is put through under the district plan about October 1st, next, and an acreage of good proportions is placed under water from the ditch they will put a proposition for the erection of a factory before the people of Medford.

The Rogue river valley, said T. R. Cutler, vice president and general manager of the company, is well suited as to soil and climate for the growing of beets. However, he explained, he and his associates had found after carefully examining all the best acreage in the valley that non-irrigated beets are already shrinking and the tops beginning to wilt whereas the irrigated beets are showing up splendidly and through this sunny weather are showing increased gains.

A sugar factory cannot continue to operate, he continued, unless the beets can be grown profitably by the farmer. Investigation convinced him that they cannot be grown in sufficient tonnage and high enough sugar content without irrigation, to be profitable to the farmer.

After the meeting this morning the sugar men left for Portland and Salt Lake and would promise no further assurance or information concerning the factory question until the irrigation question is decided, or about October 1.

Owen Dunlap of Phoenix is in town this afternoon on business.

DENONCING MEDICINES. Wholesale denunciation of proprietary medicines is no more justifiable than wholesale denunciation of the medical profession. It is no more true that there are reputable physicians, who unselfishly devote their lives to an unending struggle with disease than that there are standard remedies, who do as good a work; often where the work of the good physician cannot reach. A good example is Lydia E. Pinkham's Vegetable Compound, which has for 40 years been alleviating the sufferings of women and curing the ills peculiar to their sex.—Adv.

ARE YOU GOING TO LET PREJUDICE STAND IN THE LIGHT OF YOUR CHILD'S SUCCESS?

In the days when children's glasses were makeshifts, you might well have hesitated about glasses for them.

Today, when our glasses, made especially for and fitted to your children, mean better school work, happy, healthier and better behaved youngsters, you cannot afford to hesitate.

Eye strains, "cross eyes" and other ocular defects which our glasses will relieve, handicap children so afflicted.
