

DEADLINE TO BE ESTABLISHED MOUTH OF ROGUE RIVER

(Marshfield Record.)

There is to be a dead line on the lower Rogue river below which there will be no fishing allowed. The state will see that it is a real dead line and officials assure that the law in this respect will be maintained at any cost and with all the power that is behind the state. This is the result of investigations made by the officials.

In order that the run of salmon and steelheads up to the heatwaters of the Rogue may not be interfered with and to put a stop to the fisherman's war at the mouth of the river, the fish and game commission yesterday determined to establish a dead line near the mouth of the river below which all kinds of fishing will be prohibited.

The commission did not determine the exact location of the line, but has directed that State Game Warden Carl D. Shoemaker proceed to Gold Beach next week and conduct a hearing and then locate the dead line at such a place as will bring about the results desired.

Must Let Fish In.

The commission is anxious that the steelheads and salmon have an unrestricted flow up stream to their natural spawning grounds. Contentions from sportsmen in Josephine and Jackson counties have been heard for some time and the commission wants the Rogue river sportsmen to be satisfied that there is sufficient room at the mouth of the river for the fish to get by the maze of nets and seines which have always been there at the time the run of fish is on. This can be accomplished by the establishment of the dead line.

Mr. Shoemaker will arrive at Gold Beach next Thursday and on Friday will conduct the hearing. Spokesmen representing various factions will be heard and then the fish and game warden will personally visit the proposed locations and satisfy himself regarding the most favorable one.

R. L. Macleay of the Wedderburn Trading company appeared before the commission and after some discussion concurred in the action of the commission.

That the dead line will be one which must be observed is assured by the state officials. Violations of the rule will not be tolerated.

R. L. Macleay Comes.

R. L. Macleay came from Wedderburn to confer with the commission. In speaking of the conditions on the Rogue river Mr. Macleay said that they were no different from the Columbia river or Coquille river, excepting that there are parties who break the law. The laws are all right, Mr. Macleay says, but they are violated and the violations, he says, are continued.

Mr. Macleay says that he desires that the dead line be fixed. He realized that the fishing in the mouth of the river keeps out the salmon. He says also that the establishment of a dead line, if anything, will be an aid to those interested in the game fish on the upper river, as there will be no possibility of the steelheads being kept out. Mr. Macleay says:

"The dead line will cause me to lose one of my seining grounds, but there is plenty of river, and I want to see the deadline established. The salmon must come in the river if we are to get them to pack, and I want to see every possible advantage given for the steelheads so that the sportsmen of the upper river will not be interfered with. While I do not think the steelheads have been bothered any, the deadline will remove any possibility of the sport of the upper river being curtailed. Our company is simply trying to operate within our rights. We transact our business along legitimate lines, we are paying a big price for fish, and are packing all the salmon we can buy from the fishermen who are having a prosperous year. The law violations and troubles are annoying and have given us a good deal of publicity which may have put us in the wrong light with some people. We are operating our property in a legal way; we are established with a large property which enables us to pay out large sums in the community and all that we ask is that to which we are legally entitled."

Trouble With Barton.

The only actual trouble that has occurred lately was when a fisherman recently assaulted R. L. Macleay. Mr. Macleay was with his seine boat and says that Claude Barton, a fisherman with his net, was obstructing the river so the seine boat could not pass. Mr. Macleay says that he attempted to secure a passage for his boat and Mr. Barton assaulted him. Mr. Macleay applied for warrant the next day, but the justice of the peace stated that the other man had come to him early in the day and pleaded guilty and paid him a fine of \$5. The attorney for Mr. Macleay wanted a

FAKE DUCHESS IMPRISONED ON CHARGE OF ARSON

OAKLAND, Cal., Aug. 15.—Mrs. Valerie Higgins, cal., was arraigned today on a charge of arson growing out of a fire started against the door of her apartment here recently, is believed by the police to be the same woman who was unmasked in San Francisco four years ago while posing as the fourth daughter of Emperor Franz Joseph of Austria.

The "Archduchess Marie Valerie" was alleged in 1912 to have obtained \$2000 from Mrs. Barbara Bury, a San Francisco woman, on the promise of a share in a \$24,000,000 estate to be distributed as soon as the "archduchess" returned to Vienna.

Mrs. Bury refused to prosecute and visited Mrs. Higgins yesterday in the local jail. In support of her title, Mrs. Higgins, when she first appeared on the Pacific coast in 1908, exhibited a large number of letters allegedly from the Austrian emperor, declared forgeries by the Austrian consul in San Francisco. She declared that royal intrigues had forced her to leave Vienna. She first appeared at Vancouver, B. C., and after living a few months here went on to Los Angeles, where she married John T. Higgins. The latter disappeared several weeks ago. They have a baby son.

Mrs. Higgins is said to have been head designer for a famous Parisian modiste at one time.

PARENTS' BLOOD PREVENTS PARALYSIS

NEW YORK, Aug. 15.—Family physicians were advised today by Dr. Abraham Zingher of Willard-Parker hospital to try the use of "normal" blood serum obtained from parents as a method of rendering their children immune to infantile paralysis. Many cases of this disease have been treated in Willard-Parker hospital during the present epidemic.

The theory on which Dr. Zingher and his assistants are working is that the blood of the normal adult contains the anti-bodies which neutralize the virus of poliomyelitis, or infantile paralysis. Some physicians believe the presence of these anti-bodies is due to the fact that the parents have had the disease in an unrecognized form. It is stated that if the theory of the anti-bodies is correct the blood serum treatment may prove as effective in preventing infantile paralysis as vaccination is in preventing typhoid.

MEMORIAL PROJECT FOR DR. MURPHY

CHICAGO, Aug. 15.—Two memorial projects for Dr. John Murphy, the noted surgeon, whose funeral took place yesterday, were announced today. One is by a group of five prominent Chicago physicians and the other by the public service committee of the Cook county board.

The physicians plan a joint memorial for "the most famous man of medical research, the \$1,000,000 for its erection to be raised by popular subscription. The plan of the county commissioners is for a laboratory building, to be known as the Murphy memorial laboratory, to be added to the present Cook county hospital group.

trial, but the justice of the peace let it go with the \$5 paid to him by Mr. Barton.

Tuxedo Fans by Walt Mason

Tuxedo fans are always loyal to that one brand, superb and royal. They say, "What is the use of trying the other kinds, and sample buying? We know Tuxedo can't be beaten; it's good as bread, when bread is wheat; it keeps us all in cheerful humor, and makes of each an ardent boomer; it with a blissful peace annoys us; Tuxedo never disappoints us. It is the worker's one consoler, when Business, with its big steam roller, has run him down and left him jaded, with all his dreams and prospects faded. 'Tis then Tuxedo smooths the wrinkles, and to his sad eyes brings the twinkles, and braces him for future battles, down where the loom of commerce rattles." These fans are found in every station, in every trade and occupation; the able jurist and the baker, the boss of many a rolling acre, the butcher, as he sells his rasher, the banker and the haberdasher, the cattleman in far Laredo, all pin their faith to good Tuxedo. *Walt Mason*

WILSON DECIDES AGAINST MAKING SPEAKING TOUR

WASHINGTON, Aug. 15.—After a long conference today between President Wilson and the members of the democratic campaign committee, Vance C. McCormick, chairman of the national committee, announced that the president would not make a speaking tour, but probably would accept invitations to speak at different places.

Mr. McCormick expressed the president's decision by saying Mr. Wilson considered a stumping tour incompatible with the dignity of the office of president.

Last week congressional callers at the white house gained the distinct impression that Mr. Wilson would make a trip to the Pacific coast. So far the president's only speaking engagements are Hodgeville, Ky., September 4, and St. Louis, September 20th.

Roger C. Sullivan, former democratic national committeeman from Illinois, will not take an active part in the management of the western democratic campaign headquarters in Chicago this fall, according to a report in circulation here today. One report is that friends of President Wilson are inclined to blame Sullivan for Raymond Robins' support of Charles E. Hughes.

According to report, the principal assistants to Senator Thomas J. Walsh of Montana in the management of the western democratic campaign headquarters are Senator Owen of Oklahoma and Irving Shuman, Carl Vroman, assistant secretary of agriculture, and Morgan Davies of Illinois.

The democratic senatorial campaign will be conducted from the Chicago headquarters by Senator Saulsbury of Delaware, Senator Walsh of Montana and Senator Stone of Missouri.

MEXICAN OFFICER KILLED BY AMERICANS

SAN ANTONIO, Tex., Aug. 15.—A lieutenant of the Carranza army was shot and killed by an American provost guard at Colonia Dublin three days ago, according to a report to General Funston today by General Pershing. The dispatch mentioned names.

General Pershing said the Mexican officer had fired at a Mexican railroad brakeman. The provost guard ordered the officer to halt and the latter fired at the American. The provost killed the lieutenant; he was exonerated.

DON'T BE CARRIED AWAY BY THE CATALOGUE HABIT

Are you among the thousands of men and women who are carried away by the catalogue habit? Is there anyone in your immediate family circle who is allowing this habit to run away with him? If so, there is work for you to do. This habit started more than forty years ago. It is this same habit that has stunted the growth of thousands of communities. It has built up a few enormously large cities at the expense of your town. Don't allow a habit like this to run away with you. Take the bit in your own teeth. Investigate for yourself. Find out. Talk it over with your home merchant. Get your heads together. That habit is hurting you both. By killing this habit you benefit yourself, your children, your neighbors, your community. Spend your money at home.
