

## MINISTER S ASK PUBLIC TO VIEW "DAMAGED GOODS"

To the Public:

Of all the pictures portraying the fearful ravages of venereal diseases, "Damaged Goods," on exhibition at the Page theater today and tomorrow, is the greatest ever thrown upon canvas. Its lessons are consistently and scientifically taught as no book nor speaker can depict them. It deals with a disease which affects a much larger percentage of the human race than medical and professional men are willing to admit.

It proves the truth of the Bible—"That as a man soweth that shall he reap," and the still greater and more painful truth, "That the sins of the parents are visited upon their children unto the third and fourth generations."

The picture is a valuable adjunct to the effort now being put forth all over the world to eradicate this evil, and to give the world a race of men and women of whom it shall be justly proud.

Many times it is a sin of ignorance, hence the need of parents and teachers and ministers to deal with it in unmeasured terms, as many times to be forewarned is to be forearmed.

Parents would do well to take their boys and girls to see it, as it may serve as a preventative measure. It is truthful and clean from beginning to end.

We most heartily recommend it to all who love the truth and who are seeking the physical, moral, intellectual and spiritual well-being of the boys and girls today and the generations yet to be.

REV. J. C. ROLLINS, pastor First M. E. church.

REV. F. W. CARSTENS, First Baptist church.

J. LAWRENCE HILL, M. D. Medford, August 23.

To the Members of the First Baptist Church and the Public Generally:

I have never heretofore suggested to any one that they attend any motion picture show. I depart from that attitude today and earnestly suggest that every mother, accompanied by her daughter, and every father, accompanied by his son, provided the children are 15 years of age, see the photoplay entitled "Damaged Goods" at the Page theater.

It is the greatest thing I have ever seen and cannot fail to do great good. See this exhibition today or tomorrow and then come to the Baptist church Sunday night and hear the sermon which I am to preach on the title of the play, viz., "Damaged Goods."

Dr. J. Lawrence Hill will assist in the service and speak upon the same subject, but from the physician's viewpoint.

This statement and announcement is made wholly without the solicitation or knowledge of the management of the Page theater.

FREDERICK W. CARSTENS, Pastor First Baptist church.

## JAP CHAMPION USES PULLED DRIVE

NEW YORK, Aug. 23.—Tennis experts who have been studying the style of Ichiya Kumagae since the recent victories of the Japanese champion showed him to be a formidable contender for the national title here next week, say that Kumagae's success is due to his use of the "pulled drive" one of the rarest of strokes in the game.

This stroke, they say, corresponds to the pull in golf, its effect is to make the ball spin upon an axis tilted away from the player at an angle of about 35 degrees. The ball is heavily cut sideways, upward and outward and the effect is a wide curve in flight and a very puzzling bound or break after it strikes the ground.

It is said that this stroke was successfully used by the late Anthony F. Wilding, the British and Australian champion, but it is virtually unknown in the United States.

## SENATE CONTINUES REVENUE DEBATE

WASHINGTON, Aug. 23.—Debates on the emergency revenue bill designed to raise \$205,000,000 were continued in the senate today. A resolution by Senator Penrose to send the bill back to the finance committee for amendment to raise an equitable portion of required revenue from a protective tariff, still was pending.

## BALKAN DRIVE TO ISOLATE GERMANY FROM FAR EAST

LONDON, Aug. 23.—Developments in the Balkans take first place in both news and editorial columns of the newspapers this morning. The papers display keen interest not only in the landing of the Italian and Russian troops at Saloniki, but also in possible actions by the Greek and Rumanian governments and in the new Russian offensive, which is developing in Bukovina.

According to unofficial dispatches, the Russians are pushing ahead with the greatest energy close to the Rumanian frontier and already have gained a "very brilliant success."

The Daily News in an editorial, sums up the Balkan situation as follows:

"The imminent general offensive against Bulgaria is of great importance. One of the first results of a successful offensive by General Sarrail would be a complete rupture of Germany's communications with the east and the isolation and capitulation of Turkey. This is a plain geographical fact."

"There are also other issues upon which it is wiser to reflect than to enlarge. These effect the fortunes of the two neutrals, Greece and Rumania, as well as the dozen belligerents."

"The situation in Greece, where Greek troops already actually are engaged in hard fighting with the Bulgars, is rich in possibilities. As to the intentions of Rumania, we may be content to draw upon the German press, which is authority for the statement that Rumania definitely has joined hands with the entente and is preparing to give Russian troops passage through her territory. It is difficult to conceive what motive the Germans could have for circulating such a statement other than the belief that it is true."

## HEAT FAILS TO SPREAD EPIDEMIC

NEW YORK, Aug. 23.—New York's record-breaking heat wave has failed to spread the epidemic of infantile paralysis. Only a slight gain was shown today in the number of deaths and new cases reported. During the twenty-four hours period ending at 10 a. m. the plague killed 42 children and 131 were stricken. This compares with 39 deaths and 118 cases during the same period yesterday.

Contrary to the general opinion, Health Commissioner Emmerson said today he had no reason to believe hot weather increases the spread of infantile paralysis. This conclusion, he added, is the result of an exhaustive study of the daily temperature and humidity since the epidemic began and of the number of new cases occurring from day to day. Nevertheless, the commissioner said, the present hot wave would hasten the deaths of young children who are critically ill.

## I. W. W. FORCIBLY DRIVEN FROM EVERETT

EVERETT, Wash., Aug. 23.—Twenty-four alleged leaders of the Industrial Workers of the World, who were arrested last night when the police broke up a street meeting, were escorted from town today and placed upon a steamer bound for Seattle. Twenty men were loaded into garbage wagons and four women were placed in the police patrol at the city hall. Escorted by business men riding in 30 automobiles, the procession moved through streets lined with citizens to the wharf. Four leaders who previously had been sent away, but returned, were held on a charge of disturbing the peace. The police arrested the men and women last night among a crowd of 1,000.

## BRITISH REPULSE HEAVY ASSAULTS

LONDON, Aug. 23.—Two heavy assaults on the positions newly won by the British south of Thiepval, on the Somme front, were made last night by the Germans. They gained a footing in the British trenches, but were driven out again, the war office announced today.

## HUGHES ATTENDS RENO BARBECUE, TALKS POLITICS

RENO, Nev., Aug. 23.—Charles E. Hughes, refreshed by a night's sleep, reached Reno today for a day of parades, barbecues, receptions and speech making. He will leave here at 9 o'clock tonight for Ogden, Utah.

The nominee was met at the station by a brass band and a squad of cowboys and cowgirls, who escorted him to his hotel. After breakfast in the main dining room, Mr. Hughes and his wife went for an automobile ride about the city. At noon, the nominee received a large delegation from the Nevada women's party, after which Mr. Hughes and his wife, headed an automobile parade through the city.

The parade ended at a little park opposite the postoffice where a western barbecue was on the program. Ten beefs had been killed for the candidate's party of about 40, the reception committee and invited guests. All traffic was stopped on Reno's main street during the barbecue and the speech which followed. This was delivered in the open air from a platform on the courthouse steps.

The second speech was to be delivered at 7 o'clock in the theater here. A brief visit by the candidate to the commercial club late today was tentatively on the program.

## DANIELS TO CAMPAIGN FOR PARTY IN MAINE

WASHINGTON, Aug. 23.—Secretary Daniels started for Maine today to participate in the democratic campaign. Mr. Daniels expects to make about sixteen speeches.

## PROSPECT

J. C. Embry, accompanied by Miss Myrtle Dunton, returned from Medford Thursday. Mr. Embry had intended to motor to Crescent City, but gave up the trip owing to the unsettled weather. On Friday he took Miss Danton, Miss Frances Aiken, the Misses Belva and Winnie Walker to Crater lake, returning the same day.

The friends of J. S. Pardee are all sorry to learn that he has had to return to the hospital for a second operation. The first operation was about two years ago and was the result of a bad fall which broke one of his ribs.

Buck Buehler, Pat Walker and Pete Sholl motored up to the ranger station on MEl creek Thursday afternoon. Buck and Pete caught a nice string of fish which Bert Mason cooked in true ranger style, and they were eagerly devoured by the hungry fishermen. In the meantime Pat had wandered off in the woods and got lost, and so lost out on the supper. Fortunately he was found and picked up on the way home. He says he is going to wear a bell from now on.

Messrs. Reames and Evans and families drove from their camp at the power station to Crater lake and back Friday. In our last batch of items we honored Medford with being the home of Mr. Evans. Mr. Evans is prosecuting attorney of Multnomah county. He and Clarence are two "regular fellows," and we have enjoyed their stay with us. They broke camp Saturday and moved over into Klamath county.

Guy Tex and Dave Grim drove into Prospect with a Ford load of venison Saturday afternoon. They returned to their camp Sunday morning.

The crew of road engineers have completed the survey to the park line and are about to break camp at Union creek and return to Trail, where they have a little work yet to do. The boys have proven themselves

a live and energetic bunch and now let us hope that old man Oregon and our Uncle Samuel will follow up the good work with a construction crew.

Henry Trusty of Eagle Point, Mrs. Thompson and daughters, Ruth and Nell, of Derby motored over from the latter place Sunday.

Bill Grieve passed through here with a nice pair of horns and some meat which he claimed was venison. Jim Grieve says somebody gave him the horns and the meat was the carcass of one of Bill Lewis' sheep.

One of our prominent citizens is getting the merry ha-ha over a deal involving a dog, a pig and six large round dollars. The aforesaid prominent citizen handed over the six iron men at the demand of an irate rancher, who declared that the prominent citizen's dog had killed one of a wandering band of shotes belonging to the rancher. Later developments, according to the prominent citizen, showed that the pig in the case was really his own property, and that its death resulted from being run over by a passing automobile. Meanwhile the six dollars has passed to a third party, whose garden was ruined by the vagrant porkers. "Anyway," says the prominent citizen, philosophically, "I would rather be the goat than the pig in the case."

Mr. and Mrs. Buehler took dinner with Mr. and Mrs. Sholl at the power station Monday.

Forest Ranger Ray Davis was down from his station at Woodworth Meadows Monday. He reports campers numerous, but not many deer being killed.

John Walker and wife stopped at Pat Walker's over night Saturday. Mrs. Pat Walker and daughter, Ora, accompanied them to their ranch near Trail Sunday. They will return when Mr. Walker makes a trip to his cattle camp the latter part of the week.

Frank Ditsworth took a load of spuds to Fort Klamath Monday. He has sold most of his crop over there this year.

Huckleberries are late this year. According to Forest Ranger Bert Mason, they will be ripe about September 1.

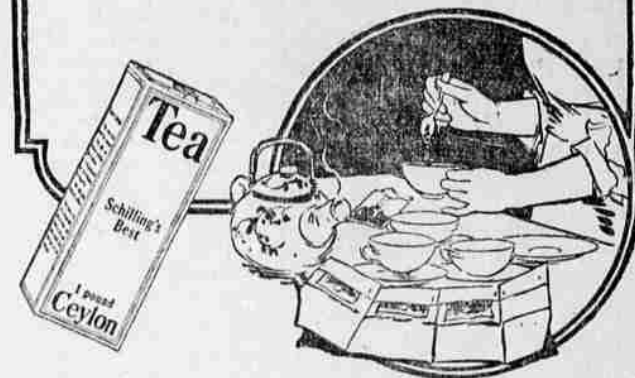

Mrs. Brown tells her grocer:  
"Please send me some tea—black tea."  
And he does!

But Mrs. Brown, perhaps, doesn't realize that there are two distinct types of black tea: English Breakfast and Ceylon. And that she might like one better than the other. The way to choose tea is by taste. If you will send ten cents, we'll mail you the Taste Packet—the simplest, surest way to know good tea.

The Taste Packet contains four parchment envelopes of Schilling's Tea—Japan, English Breakfast, Ceylon and Oolong—enough to make five or six cups of each taste. Address: A Schilling Tea Company, 333 Second Street, San Francisco

## Schilling's Tea

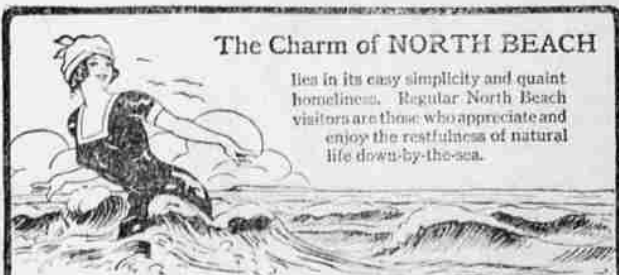

Sold through grocers only. Standard packages, 8-oz. and 1-lb.

## In the Country God Made and Man Forgot

There will be Horse Races. You follow with the speedy nag—GET BUSY. Ball Games, Dancing and other SPORTS, BAND MUSIC—EVERY DAY—HEAR THAT? Bring your TENT and BED and utilize the FREE CAMPING GROUNDS.

The Date.....SEPTEMBER 2, 3, 4

TIME is money, an' the two years invested in maturin' VELVET makes VELVET rich.

Velvet Joe

VELVET is rich and not with a richness acquired by artificial means. The method used to bring out VELVET'S Nature-given mildness, aroma and "body" is the ageing method (all rights reserved by Mother Nature herself).

Every ounce of VELVET is given not less than two years proper ageing in great hog-heads. It takes longer, of course, than any hurry-up method, but it's the way to take out any "bite" without injuring the rich smoking qualities of Kentucky's choicest Burley tobacco.

You'll discover pipe satisfaction in VELVET that you'll not find in any other smoking tobacco.

Apply the pipe test to VELVET—the test that has already made hundreds of thousands of regular VELVET smokers.
