EPISTLES REVEAL HOW MORRISON MONEY FLOWED

CHICAGO, Aug. 26.—Sixty letters found in the receiver's search of the old Morrison home will be introduced in the bankruptcy proceedings against Edward W. Morrison, the eccentric and aged millionaire whose case is being heard before Judge K. M. Landis in the federal court. According to officers about the federal building today, the letters will show how detectives have preyed on the old man's credulity and through the aid of crooks and characters of the underworld, have milked him of his money. During the hearing in court, James R. Ward, until recently Morrison's attorney, drew the anger of the court when he intimated that he might fight to retain the \$2,000,000 worth of real estate given him by the eccentric millionaire last April. When the two Burnsteln girls, adopted recently by Morrison, refused to accept service of subpoenas, Judge Landis ordered his deputies to break down the doors of the Morrison home and bring them into court. Dr. C. Frederick Burke and a party of friends motored yesterday to Mule Creek, where the doctor is interested in a mine.

CIVIL EMPLOYMENT OFFERED SOLDIERS

WASHINGTON, Aug. 26.—A policy of caring for federal soldiers upon retirement to civil life, patterned after that of the British government, which secures employment for enlisted men retiring from the army, has just been inaugurated by the United States. It is announced in a pamphlet issued today by Adjutant General McCain, explaining how the soldier may take advantage of lucrative offers, provided he has demonstrated his ability for civil employment during enlistment. Recruiting officers are named in 23 states through which applications may be made for state or municipal employment. The pamphlet emphasizes the fact that the army offers exceptional advantages to those who desire to fit themselves for almost any line of vocational work. It also contains a long list of occupations scattered through the United States where soldiers will be given preference.
