STANDPATTERS TO CONTROL SENATE IF G. O. P. WINNER

By VANCE McCORMICK. NEW YORK, Aug. 25.—Finding it hard to get an issue, Charles E. Hughes attributes to sectionalism in Congress alleged pork-barrel extravagance, thereby unwittingly inviting attention to what the country may expect in the control of congress, if, by some misfortune, the republicans are returned to power in the November elections. It is scarcely probable that Candidate Hughes stopped to consider that a republican victory would result in the elevation of Francis E. Warren of Wyoming to the chairmanship of the appropriations committee of the senate—Warren, the greatest sheepherd since Abraham, according to the late Senator Dooliver of Iowa. Senator Warren is the same man, who in 1912 introduced and passed through the senate bills appropriating more than \$299,000 for three postoffice buildings in Wyoming towns with an aggregate population not exceeding 2000.

TIME TO SPRAY COOLING MOTH SAYS PATHOLOGIST

For some time up to the first of this week there were but few codlin moth eggs being laid and consequently only few worms were hatching. Very seldom did the evening temperature reach 60 degrees and then only for a short time. This sudden warm spell is favorable for a heavy egg deposition which should commence to hatch the first of next week. All those who have not sprayed for the last three weeks should get ready to do so by the first of the week in order to have the fruit covered and protected. It is difficult to say when the maximum brood will occur as it will depend entirely upon the weather. Under favorable conditions it may be in a week to ten days. All varieties of apples and pears which are not to be picked within the next week or so should be sprayed. It is very important that the spraying is thoroughly done. The maximum foliage is now on the trees and covers the fruit so that it is hard to get the spray on it. Further the fruit in general is reasonably clean or free from worms and if it can be kept in this condition it will mean money to the growers. In the past this spray has seldom been applied on pears and some orchardists may hesitate to do so now on account of the cost and lack of time and also may think that it is not necessary. However some of the best orchardists in the valley from the experience last year appreciate its worth and some have already applied it. Granting that the fruit is comparatively free from worms at this time it is poor economy to sacrifice this spray for any reason. Much expense and time has been spent to bring the fruit to its present state and by reason of the good prices received to date it is poor economy to take any chances even though it may seem that there is no danger. Figure it for yourself and see how many fruits it will take from each tree to cover the cost of the application. When picking the pears you can destroy the majority of worms by expressing a little care. Have a receptacle of some kind in the orchard and instruct the pickers to transfer all wormy fruits into it and at the end of each day feed them to the hogs or destroy them. This practice if followed consistently should greatly reduce their nuisance for next year. C. C. CATE, Pathologist. C. A. NOREN, Entomologist.

Chicago Wheat
CHICAGO, Aug. 26.—Yesterday's advance tempted further profit-taking by wheat longs today. Opening prices were 1/2c lower to 3/8c higher, but prices immediately sagged. September, which sold as high as \$1.54 1/2 at the start, dropped to \$1.52 1/2. December, after opening at \$1.55 1/2 to \$1.55, sold down to \$1.54, as compared with yesterday's close at \$1.54 1/2 to \$1.54 3/4. A further bullish flurry was followed by additional selling and prices reached the lowest level of the day. The close was weak, 3/8 to 2c under yesterday.

WHY?

NOW TIME TO TRADE. I have a 160-acre stock ranch; good location; 100 acres in grain, some alfalfa. This place recently sold for \$12,000; no incumbrance. Will trade for good orchard, prefer pears, or would take city property. Would trade even or assume some incumbrance on orchard proposition. J. C. BARNES 102 West Main Street. INTERURBAN AUTOCAR CO. TIME CARD. Leave Medford for Ashland, Talent and Phoenix daily, except Sunday, at 8:00 a. m., 1:00, 2:00, 4:00 and 5:15 p. m. Also on Saturday at 11:15 p. m. Sundays leave at 8:00 and 10:30 a. m. and 1:00, 2:00, 5:30 and 9:30 p. m. Leave Ashland for Medford daily, except Sunday, at 9:00 a. m., 1:00, 2:00, 4:00 and 5:15 p. m. Also on Saturday nights at 6:30 and 8:20. Sundays leave Ashland at 9:00 a. m. and 1:00, 4:30, 6:30 and 10:30 p. m.

Piece of Pork for Sundance.

Senator Warren succeeded in having passed in the senate S. H. 317, appropriating \$75,000 for a postoffice building at Sundance, Wyo., with a population of 291. Federal census report: Sundance is 50 miles from a railroad and its postal receipts are \$2,400 per year, gross. Senator Warren pushed through the senate S. H. 318, appropriating \$67,000 for a postoffice building at Newcastle, Wyo. The population of Newcastle, federal census, is 975. Its postal receipts are negligible. The same senator had passed the senate S. H. 493 providing \$65,000 for a postoffice at Thermopolis, Wyo. Thermopolis has a population of 1524.

Senator Lake Lea Democrat of Tennessee, invited attention to the pork-barrel outrage and forced the recall of the bills from the house.

When picking the pears you can destroy the majority of worms by expressing a little care. Have a receptacle of some kind in the orchard and instruct the pickers to transfer all wormy fruits into it and at the end of each day feed them to the hogs or destroy them. This practice if followed consistently should greatly reduce their nuisance for next year. C. C. CATE, Pathologist. C. A. NOREN, Entomologist.

And There Is Penrose.

Penrose of Pennsylvania—Bois Penrose—would become chairman of the finance committee of the senate in the event of a republican victory. Penrose and Joseph Fordney, Michigan high priest of protection, would write the next tariff bill. Penrose and Fordney, whose records and reputations have been exonerated by Theodore Roosevelt and other progressives, would become the leaders of the two houses of congress.

Great for Standpatters.

Henry Cabot Lodge would be the ranking member of the finance committee. Porter J. McCumber of North Dakota, whose consistency as a standpatter is undoubted, would be the third man on the committee. An assistant "watchdog" of the treasury, Senator Warren of Sundance-Newcastle-Thermopolis fame would have such economical republican standpatters as Jacob H. Galliver of New Hampshire, Reed Smoot of Utah, William P. Dillingham of Vermont, Wesley L. Jones of Washington, Charles E. Townsend of Michigan and Charles Curtis of Kansas, among the holdovers. Surely the treasury would be safe against raids by "pork barrelers," would it not? Foreign Relations Committee. Senator Lodge of Massachusetts,

whose neutrality probably would appeal to the German-Americans, possibly would elect to head the foreign relations committee, having as associates, William Alden Smith of Michigan, Porter J. McCumber of North Dakota, George Sutherland of Utah, William E. Borah of Idaho and Frank E. Brandegee of Connecticut.

Senator Dillingham of Vermont would fall heir to the immigration committee and Senator Cummins of Iowa would be chairman of the interstate commerce commission and La Follette of the census committee.

A group of not more than six senators, all standpatters, will hold the chairmanships and virtually the majority of places on practically every important committee—finance, appropriations, banking and currency, military affairs, naval affairs, foreign relations, judiciary. They are: Penrose, Lodge, Gallinger, Smoot, Warren, Clark of Wyoming and Dillingham.

REDWOOD CITY, Cal., Aug. 26.—Determined to prevent a repetition of the death ten days ago of a youth by a speeding auto, which did not stop to give aid, fifty residents of San Mateo county including some of the wealthiest citizens of the San Francisco peninsula colony have joined a volunteer "speed patrol."

SAY VALENTINER SUNK LUSITANIA

LONDON, Aug. 26.—The Scitiss-Tilende of Ribe, Denmark, is quoted in a Reuters dispatch from Copenhagen as saying the commander of the submarine which sank the Lusitania was Captain Max Valentiner, son of the dean of Sondersburg cathedral. Captain Valentiner, this newspaper says, has been decorated with a number of orders since the sinking of the liner, including the iron cross of the first class and the Hohenzollern house order with swords, a special distinction which is the personal gift of the German emperor.
