Medford baseball fans read with disgust Tuesday of the Klamath Falls charge that Pitcher Lyle Bigbee "threw" the game Sunday with Wood for a money consideration. The local fans considered that Klamath Falls showed a "yellow streak" and that their pettiness will probably kill baseball in that city. Bigbee lost two games this season out of 15, a better record than any bush league twirler in the state can show, yet at the second defeat, a howl goes up that he is crooked. Local fans who saw the game, say that Bigbee was not himself, but pitched a good game, and that errors behind him caused as much damage as his erratic heaving. The sad part of the charge is the effect it will have on Bigbee, as the report has already traveled over the state, and will give him a black eye. Local fans attribute the report to the jealousy of Catcher Jimmy Clarke of Klamath Falls, who was much concerned before the game lest Sam Jolly of Dunsmuir, Cal., would do the catching.

Automobilists of the city and valley are preparing for the railroad strike if it comes by laying in a supply of gasoline. There is enough gasoline on hand to last about two weeks under normal conditions, if none comes in. The effect of the strike is already evident, and Wednesday there was a dropping off from the usual mid week crop of tourists.

Inasmuch as there is some question about the opening of the public schools of the city, it has been requested that the announcement be again made that they will not open until September 18, instead of September 4. The school board at a meeting Tuesday night took this action. The action was necessary owing to the delay in completing the improvements to the Washington school.

He rushed to the door in time to see the gunmen make their getaway. Afterwards he identified Sullivan as the man who bought the drink, and aided in clearing him of the police charge that he gave the signal for the shooting to commence.

MASS MEETING FOR TONIGHT AT LIBRARY

The Commercial Club, Business Men's Association and the Greater Medford Club will hold a joint meeting Thursday, August 31, at 8 o'clock at the public library to consider plans for perfecting the deal for a saw mill for this city.

Of the sum of \$25,000 S. S. Bullis has subscribed \$10,000. Fifteen thousand dollars remains to be raised minus subscriptions taken during the past two or three days, which amount to several hundred dollars.

The immediate cause for hurry in this matter is the urgency on the part of the Ewauna Box Factory company to know at the earliest possible moment whether or not Medford will be able to guarantee it the required millions of feet of box lumber per month for a period of years to justify it in installing a large box factory in this city.

These industrial enterprises will mean the payroll so keenly needed in this community. They will supply the nucleus around which others will rapidly cluster, until the dinner pail brigade will be Medford's proudest and most encouraging organization.

Business men of this city have pursued this matter with manifest fortitude. They have never lagged in their determination to start something worth while. Enterprising women of the Greater Medford Club have watched developments with earnest solicitude, realizing that Medford shall never be a greater Medford until we shall have obtained industrial institutions to manufacture our great abundance of raw materials into commercial commodities.

It is the producer that gives real life to any community. The consumer we always have with us. The purpose of this meeting is to provide substantial means of production.
