## Attention Automobile Owners

We have installed the latest in Gasoline equipment (The Wayne Monarch Five Gallon Stroke Pump). We have one of the most convenient locations in Medford, handle one kind of gasoline exclusively (Union Gas for Speed and Power) which assures you that you are getting the best and not a mixture, thereby eliminating carburetor and motor trouble due to different grades of gasoline.

Also Zeroline, Austo, Motorage and other grades of oils.

Give us a trial—Service Our Motto.

## The Willys-Knight Motor

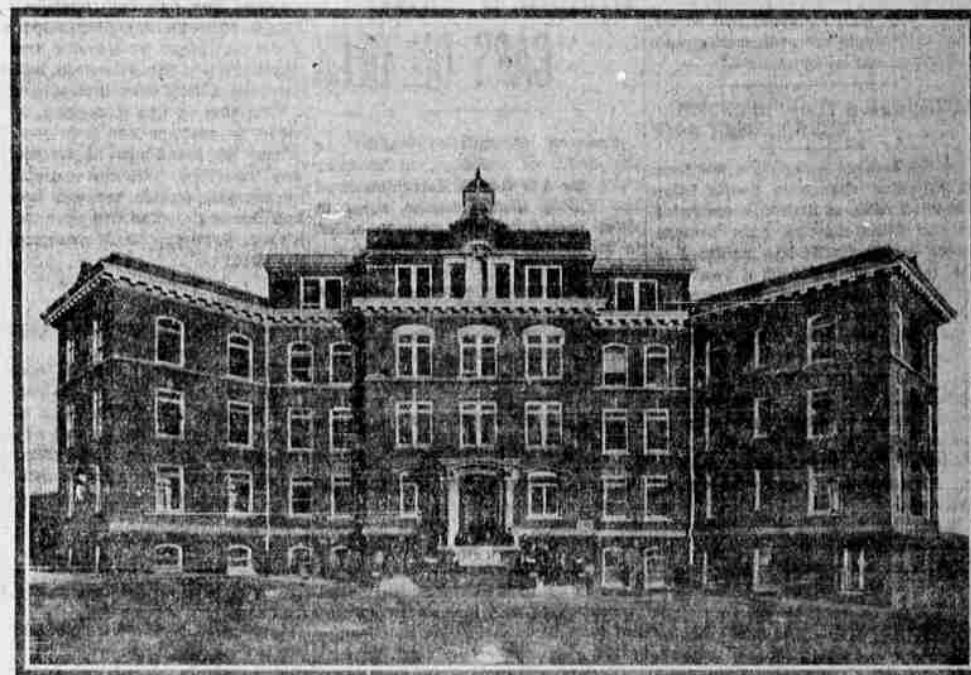

PRICE \$1250 F. O. B. MEDFORD

The motor in the Willys-Knight car is of the Sleeve Valve type, invented by Charles Y. Knight. It is designed and built in its entirety by the Willys-Knight organization and admittedly is the best example of Knight motor construction ever produced.

## This May Interest You

We have just put in a line of the Akron-Trusses. They are the best in the world. No other truss gives so much comfort and relief to the wearer.

### Why?

Because—

1. The pads will not slip.
2. The pads are made from the best quality of rubber.
3. The pads are the most sanitary made.
4. The pads extend beyond the rupture edges and thus afford a holding surface.
5. When it is possible for a truss to cure a rupture by holding it properly, these trusses will accomplish it. Let us show them to you.
