Among the Antioch farmers who started for Crater Lake last Tuesday are the following: Mr. and Mrs. Geo. Stacy, Arthur Jones and wife, Elbert Glass and family, Jess Glass and family.

Many people through this section took in the big show of Barnum & Bailey, reporting a fine show.

Everyone is looking forward to a big time the 17, 14, 15, 16—it being the Jackson County fair.

THE MEADOWS

Mrs. Finis Mayfield has rented a house in Woodville and plans to take the children there, that the older girls may attend high school during the winter. Finis is going to batch and care for the ranch.

Joe Mayfield and Fire Warden Pomeroy burned the slashings on Joe's new place near the Hanna ranch the past week.

A dance at the Pomeroy home on Saturday night as a sort of farewell to the Wyland girls, who are to move to the valley this week, was a pleasant occasion, with a big gathering of friends to bid them farewell.

Howard and Frank Mayfield are again "on deck" at the ranch at the forks of the creek, after a long visit in the valley.

Dave Cottrell is taking a bunch of cattle to the Medford market about every ten days.

Mrs. Jim Dinkens is back again on the home ranch, but is planning to go to the valley, where her granddaughter, Beth, can have school near during the winter.

Mr. and Mrs. Fred Moore, accompanied by Mr. and Mrs. William Cottrell, motored to the valley towns on Friday.

Ralph and Ed Russell with their hay racks moved the Pickett family to their new ranch, about four miles east of Medford, on Friday and Saturday.

Bill Cottrell is painting the bungalow inside on the Childers ranch and preparing to move into the house Tuesday or Wednesday of this week.

Bob Hubbard, who lives just over the hill from the Meadows, is enjoying a visit from his nephew from the Willamette valley, who came in on Sunday afternoon.

A result of the sentiment for game protection that is being fostered by the game wardens was the detection and arrest of Nate Biden, who, in company with Fruit Inspector Johnnie Aitken and County Pathologist C. C. Cate, drove up near Rusty cabin hunting deer. Biden's enthusiasm got the better of his judgment and he brought in a doe, with the result that Wallace Dinkens and Ralph Russell finding also another doe and a spotted fawn killed by the party, made complaint of this violation of the game laws, which are being carefully observed in the Meadows country.

Biden pleaded guilty in Justice Taylor's court and was fined \$25, but the indignation of the crowd found vent in a warrant for Dinkens and Russell for chasing deer with dogs.

They were taken to Medford by the sheriff's officers, but when the prosecuting attorney found there was no basis for the charge except using a dog to find a wounded deer to end its sufferings, the case was dismissed at once. The inquiry, however, developed the fact that there were two does and a fawn killed by the Cate-Aitken-Biden party and ended with Jack Aitken pleading guilty and paying his fine. One result of the efforts of the game wardens in this vicinity has been the education of the residents in the value of the state's efforts to preserve the game, and they are now co-operating in an effort to stop illegal slaughter. If any of the Mail Tribune readers fear they can't cut out shooting everything they see there are safer places for an outing than the Meadows district.

Samuel Bertelson spent Thursday, Friday and Saturday at the Utah quicksilver mines, getting samples and planning new work.

Jerry Gibson is driving the tunnel on Dr. Chisholm's Little Jean quicksilver mine, across the big main ledge of the district. He has retorted a number of flasks of quicksilver from the high-grade ore he has been taking out and sent the same to San Francisco via Gold Hill.

Messrs. Drake and Russell, our venerable old settlers, have returned from their trip after huckleberries and deer and report a dandy time, even without bringing home the meat.

Frost Saturday and Sunday nights nipped the meadow vines along the creek. It seems hard to get by the 10th of September without a visit from Jack Frost.

School started the 4th with all the kids of the Meadows on deck, and they all speak enthusiastically of their new teacher, Miss Coffeen.

Bill Cottrell went to the valley on Monday.

The Peart boys and their father spent Saturday night and Sunday forenoon chasing the elusive bucks on Morrison creek. The bucks are still there.

Mr. Kinsley, the railroad man who leased the Lampman place up near the Ashcroft postoffice, came out this week for a hunting trip.

Dr. W. P. Chisholm and Henry Ray of Gold Hill, with a couple of other gentlemen, visited the Chisholm group of mines on Sunday.

Loran Prock and Mrs. J. B. Wreth, his aunt, drove to Central Point with Janet Mitchell last week. Loran has been visiting here for some time and is ready to tackle school again.

Finis Mayfield has been rebuilding

several of the highway bridges near his place and now has them in better condition than for years. The Evans creek bridge near Moore's ranch has several dangerous holes in it and needs replanking badly, and there is a bad bridge along the Wyland ranch. Fixing is easier than paying damages at that.

A crew of a dozen or so surveyors, timber cruisers, etc., are camped on Morrison creek, near the old saw mill. They are marking the section lines preparatory to classifying the O. & C. grant lands. The section corners are being re-marked, which is much welcomed by all.

Dave Cottrell and wife drove to the valley Sunday.

Miss Ella Witte spent a short time at Seven Oaks Saturday evening.

EAGLE POINT EAGLETS

By A. C. Howlett

Mrs. Emma Smith and daughter, Miss L. P. Smith, mother and sister of Mrs. Ella Shesler, our primary teacher in the public school, are here visiting the latter.

William Whitman, formerly the town barber, but now living on his homestead on Indian creek, is bringing in a lot of telephone poles for our telephone manager and postmaster, C. W. Clements.

Mr. and Mrs. Hopeland of Fort Klamath came in in an auto and had to stop here for repairs the middle of the week.

Lee Bradshaw of Brownshoro and Charles Oswald of Wellen were here after lumber during the week. The Big Pine Lumber Co. left here just as the business in that line began to be looking up for Amos Ayres, our new depot agent, seems to be doing a lively business in that line.

J. B. Jackson shipped out to Butte Falls a fine lot of onions Thursday.

W. G. Knighton is having his dwelling roofed. G. W. Wamsley is doing the work.

Last Thursday I hitched old Babe to the buggy and started out to work for the Mail Tribune, and the first man I called to see was in the hills gathering beef cattle, so I failed to do any business there. The next one was also gathering beef cattle, and I had taken the precaution to ping to the next one, and his wife answered the phone and said that he was at home, so I drove up to the house and inquired for him. His wife said that when she answered the phone she saw him about the place, but he could not be found, and later his son said that

he had gone to look after some pigs—another failure in my business venture. Next I cut across lots and reached the county road leading up Dry creek, and soon ran into a bunch of men working on the road hauling sand and gravel, donation work, under Carl Beebe, and the first one I met that I knew was John Owens, and he suggested that I better go up to his house, feed my horse and take dinner, and as it was about noon, of course, I accepted the invitation, reaching the place, found Mrs. Owens busy putting up fruit, and I should have said that I found the lady at the last house I visited, Mrs. James Owens, busy putting up peaches and pears. Shortly after I had watered and fed Babe, John Owens arrived with his three teams and we had dinner, and then spent a few moments looking over the farm, and he rushed back to work hauling sand. After dinner I wrote out receipt for a year's subscription to the W. M. T. and then went up to his brother George's place and found George and his wife tying chicks to take to Central Point or Medford, but he stopped long enough to write out and sign a check for a year's subscription to the W. M. T. The three brothers live in the same section and each has good, large farms and are each interested in the stock business and have their barns packed with hay and tons stacked outside. Mr. and Mrs. Geo. Owens were hurrying around to get off to go to Central Point and Medford to meet Mrs. Owens' mother, Mrs. Ella Barnes, and daughter, Miss Ina Barnes, were coming from Honolulu to make a visit to the Owens family and friends. Starting from there, I found Dolph Kent also working on the road with his team, and he told me to go to the house, a short distance off, and his wife would renew the subscription to the W. M. T. and on reaching the place found Mrs. Kent just coming from the garden with a lot of cantaloupes, stated my business and gave her a receipt for a year's subscription to the W. M. T. The reader will notice that the most of the subscribers to the Mail Tribune in the rural districts take the W. M. T. instead of the Daily. This is owing to the fact that they have such poor mail facilities and many of them live so far from the postoffice that they don't get their mail oftener than once a week. But there is a move on foot to get a rural route starting from here, going by Brownsboro, taking in the Yankee creek, Antelope creek and Dry creek countries, and then reach those along the edge of the desert down Little Butte creek, etc., back up to Eagle Point. Mr. Singleton was here a few days ago getting signers to the petition for the change, and said that he was succeeding quite well in securing names to the petition.

My next move was to Fred Lay's and found that he was not to be found. From there I went to the von der Hellen farm, but did no business. From there to the Walsh farm, but did no business there. From there to the Cypress Lawn farm, looked around the beautiful place, for it is one of the prettiest places on my entire route, but found no one at home, but learned later that Mrs. Riley was

out in the garden, so started home, it being after 5 p. m., and met the lord of the manor, Thomas Riley, our ex-county commissioner. He had been out in the field cutting and shocking corn, but he said that he would send it to me by his son, Thomas R. Jr. After a short visit with Mr. R. on the road I went on my way, reaching home at 6:30 p. m., tired and hungry. William Winkle, who started a short time ago to Burns to bring his mother home with him to help to care for his five little children, the oldest of which is only 12 years of age, reached here Wednesday. W. E. Hammond is keeping himself busy these days hauling stove-wood into town. F. S. Johnson, representing Honeyman Hardware Co., Portland, was here Friday. E. M. Stewart, who went to San Francisco a short time ago, returned Wednesday with an auto. T. S. Zimmerman, formerly of this place, but now of Aberdeen, Wash., came in Friday afternoon on the P. & E., spent the night at the Sunny

side and Saturday morning took the train for Butte Falls to visit his brother, A. B. Zimmerman, and family. W. Hart Hamilton, owner of a large farm joining Eagle Point, and who has been a regular boarder at the Sunnyside for the past eight months, started Saturday morning to rejoin his family in San Jose, Cal. L. E. Smith's name has been added to the list of subscribers to the W. M. T. since my last report.

Heals Skin Diseases

It is unnecessary for you to suffer with eczema, ringworm, rashes and similar skin troubles. A little Zeno, gotten at any drug store for 25c, or \$1.00 for extra large bottle, and promptly applied will usually give instant relief from itching torture. It cleanses and soothes the skin and heals quickly and effectively (most skin diseases). Zeno is a wonderful disappearing liquid and does not smart the most delicate skin. It is not greasy, is easily applied and costs little. Get it today and save all further distress. Zeno, Cleveland.

GETTING A WIFE "BY MAIL"

This young man, trained to look for "bargains" from pictures, falls for the matrimonial agency bait. For months he collected his "bargains" from Long Distance with the help of a photograph. The photograph was certainly "easy to look at." The day when he was to meet her could not come too soon. But alas, what a rude awakening! His prize was a Blank. He didn't know that there are always two sides to a picture, the original and the counterfeit. Moral: "Out-of-town" schemers, fliriting for your dollars, do not send you the real picture. Real people, real goods, real bargains and real prosperity are found at home.

Glass of Hot Water Before Breakfast a Splendid Habit

Open sluices of the system each morning and wash away the poisonous, stagnant matter.

Those of us who are accustomed to feel dull and heavy when we arise; splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, lame back, can, instead, both look and feel as fresh as a daisy always by washing the poisons and toxins from the body with phosphated hot water each morning.

We should drink, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it to flush from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary tract before putting more food into the stomach.

The action of limestone phosphate and hot water on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast and it is said to be but a little while until the roses begin to appear in the cheeks. A quarter pound of limestone phosphate will cost very little at the drug store, but is sufficient to make anyone who is bothered with biliousness, constipation, stomach trouble or rheumatism a real enthusiast on the subject of internal sanitation. Try it and you are assured that you will look better and feel better in every way shortly.
