WHY?
NOW TIME TO TRADE.
I have a 160-acre stock ranch, good location; 100 acres in grain, some alfalfa. This place recently sold for \$12,000; no incumbrance. Will trade for good orchard, prefer pears, or would take city property. Would trade even or assume some incumbrance on orchard proposition.
J. C. BARNES
102 West Main Street.
Owner Here for Short Time
On account of sickness offers for sale small orchard tract, mostly in bearing, best of condition. One half mile city limits. Ideal home site. Bank mortgage 60 per cent of asking price; can remain. \$2000 will handle.
BENNETT INVESTMENT CO.
102 West Main St.

COST SYSTEMS NECESSARY FOR TRADE EXPANSION

COLUMBUS, O., Sept. 13.—Establishment of cost systems by manufacturers was regarded as one of the most important means of strengthening American industry to meet European competition after the war by Edward N. Hurley, chairman of the federal trade commission, in an address before the Ohio Bankers' association here today.

"The man who does not know his true costs is the man who prices his goods foolishly and thereby impairs the business of his sound competitors at the same time that he rains his own," said Mr. Hurley. He also urged that strenuous efforts to increase American foreign trade, particularly by establishment of branches of American banks abroad, be made to meet the most efficient and larger scale production of European countries when peace comes.

Nine tenths of the concerns reporting to the federal trade commission do not keep adequate cost systems, Mr. Hurley declared. "Since they cannot tell where they are making money and where they are losing it, they cannot tell where to introduce economies," he added. "Out of the 60,000 corporations that report an annual income of \$50,000 or over, half do not charge off a single penny for depreciation. They even go on paying taxes to the government on inflated values and inflated earnings."

The trade commission has prepared pamphlets describing fundamentals of cost accounting and is prepared to send experts to assist trade associations in adopting sound systems, Mr. Hurley explained.

Comparing British and American banking systems, Mr. Hurley said: "The total capital and reserves of the 57 British overseas banks exceed \$500,000,000. Although our domestic banks, loan and trust companies have a capital and surplus of \$3,400,000,000 which equals that of all the domestic banks of all the rest of the world combined, the capital and surplus represented by our overseas banking is less than \$7,000,000. We are permitting our commercial rivals to do our foreign banking for us and they obtain the profits and commercial advantages that naturally result."

SAYS BENSON NOT FIT FOR CITIZENSHIP

PORTLAND, Ore., Sept. 13.—Charging that S. Benson is not a fit person to become a citizen of the United States, President Eugene T. Smith of the central labor council filed a protest with the county clerk here today against the admission of the millionaire lumberman to citizenship.

Benson was born in Norway and came to this country in 1868. He applied for his first papers in 1894. Final hearing will be held in the state circuit court tomorrow.

Smith alleges that Benson is a "Meddler and dangerous busybody" in local government affairs and specifically charges that he sought to influence the awarding of a paving contract for the Columbia river highway.

Benson, who is widely known for his public gifts, was named as Oregon's first citizen during the Panama-Pacific exposition at San Francisco, where he was duly honored. But his opponents point out that he was not at that time a citizen at all.

His first love and his first hate are two episodes in every young man's career that he never forgets.

With Medford trade is Medford made

HAZE FROM FOREST FIRES DARKEN SKY AT SAN FRANCISCO

SAN FRANCISCO, Sept. 13.—A yellow haze that today half obscures the sky above San Francisco, and increased humidity and mounting temperature are ascribed by Weather Forecaster G. H. Wilkinson to the forest, brush and grass fires that are burning in many places in the counties surrounding or near San Francisco bay.

The most dangerous of the fires, that on the eastern slope of the Santa Cruz mountains above Los Gatos, is, it is hoped, partly under control, though several fine summer homes are still threatened, and fears are expressed that the flames may force their way over Alpine ridge and enter the big timber that leads to the big basin.

In the northern part of Sonoma county several fires are burning and large areas of timber and brush have been swept over by the flames.

A report from Grass Valley says a forest fire in Nevada county has burned over 3000 acres of brush and timber land, destroyed hundreds of cords of stacked cordwood and is still unchecked.

The fire that for several days has been burning in the Oroville district continues to be a menace, the situation being reported as unchanged from yesterday.

Thousands of volunteer fire fighters have been on the battle line two and three days and are almost exhausted, but dare not relax their efforts lest the flames spring into renewed life and undo all their work.

Some residents of the Santa Cruz mountain fire zone, fearing that their homes would fall prey to the flames, have removed their furniture and other household goods and their livestock.

Millionaires, bankers and merchants have for nearly three days been fighting side by side with their rural employes and are equally red-eyed, weary and smoke-begrimed.

DROUGHT INJURES EASTERN APPLES

WASHINGTON, Sept. 13.—In spite of rains in many sections during the past week, the weather bureau's crop bulletin issued today says harvesting and threshing of grain progressed rapidly and plowing for fall sowing is beginning in the plains states and eastward.

Weather during the week was favorable for ripening corn in the central and northwestern states and the crop is maturing rapidly. Conditions were generally favorable for cotton; late potatoes benefited by showers in northern sections, although the bad effects of unfavorable summer temperatures are showing in the harvesting; good progress was made in haying over most of the country and forage crops are generally improving.

Peaches and apples, the bulletin says, are showing the effects of lack of rain in many of the central states.

DUTCH STEAMER ANTWERPIN SUNK BY SUBMARINE

LONDON, Sept. 13.—Lloyd's Shipping agency announces that the Dutch steamer Antwerp is been sunk.

No Dutch steamer Antwerp is listed in available records. A Belgian steamer of that name of 1207 tons gross is on the records, as well as a Danish vessel of the same name of 1637 tons gross.

DR. SUN YAT SEN RADICAL CHINESE REFORMER RETURNS

SHANGHAI, China, Aug. 31 (correspondence of the Associated Press).—Dr. Sun Yat-sen, the most radical of all the Chinese republicans, has returned to Shanghai from Japan and is again sitting in the high council of the more extreme Chinese reformers.

Until the death of Yuan Shi-kai, Dr. Sun Yat-sen remained in Tokio as the head of the young China movement which was directed from that city. Apparently he did not regard it as safe to live in Shanghai, although it is under foreign protection, while his old enemy, Yuan Shi-kai, was in power.

Dr. Sun's part in the abortive revolution of 1913 won him little favor in China. Chinese of practically all classes were unwilling to countenance another revolution until Yuan Shi-kai had been given a longer opportunity to demonstrate his efficiency.

His home in Shanghai is a modest house on Route Villon, in the French concession. It stands at the end of a long row of connected houses. He greeted the Associated Press correspondent in a sunny library at the back of the house overlooking a small walled garden.

Although he is 49 years old, Dr. Sun has the appearance of being very much younger. The only trace which his long strenuous years of political agitation in China have left on him is gray hair. His moustache is also slightly gray. But his round, smiling face is without a wrinkle or line. His eyes are bright and youthful, and he speaks with a mildness and placidness which gives no suggestion of his turbulent career.

"Yes, I am for compromise. I want to see the north and south get together and make peace. Both sides should yield and get on common ground. I also want to see China get on thoroughly friendly relations with all her neighbors. I am unqualifiedly for national and international compromise at this time.

"I want to see China get into such a stable condition that investors will be willing to assist her in developing her great resources. We want factories and all sorts of industries. We want workmen to replace the soldiers."

BRITISH POLICE RAID RACE FOR SHIRKERS

LONDON, Sept. 13.—Military police carried out an extensive raid for shirkers from military service today, at the Newmarket race course, just before the race for the classic St. Leger was started.

Racing had been in abeyance for over a month and thousands of men attended. Everyone of apparent military age was compelled to give an account of himself.

In the principal enclosure the first hour's proceedings produced only two men who declared themselves Irishmen and not liable to registration.

MEXICAN PEONS DIE OF STARVATION

EL PASO, Tex., Sept. 13.—All mining properties in the state of Guanajuato not in operation by October 1 will be confiscated by the Mexican de facto government under a recently promulgated decree of the civil governor of the state, according to an American mining engineer, who reached the border from Guanajuato City today. Hundreds of peons in the state have died recently from disease superinduced by malnutrition, he asserted.

TODAY'S MARKETS

A GOOD FRIEND

A good friend stands by you when in need. Medford people tell how Doan's Kidney Pills have stood the test. Mr. Biden endorsed Doan's over eight years ago and again confirms the story. Could you ask for more convincing testimony? M. S. Biden, shoe repairer, 21 S. Central Ave., Medford, says: "I suffered from what the doctor said was rheumatism, caused by an excess of uric acid in my blood. It showed itself by severe pains, especially in my back. My kidneys were out of order, too, and these troubles caused me to run down in health. I couldn't sleep without getting dizzy. Doan's Kidney Pills did just what they were guaranteed to do and soon I saw a great change in my condition. The pain began to leave me and my kidneys became more regular in action. By the time I had finished three boxes, I was without any signs of the trouble." (Statement given September 13, 1907.)

On March 15, 1916 Mr. Biden said: "It has been some time since I have had any occasion to take Doan's Kidney Pills, but my opinion of them hasn't changed in any way since I first endorsed them. Today I am enjoying first-class health." Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Biden has twice publicly recommended. Foster-Milburn Co., Props., Buffalo, N. Y.—Adv.
