RECORD DAY ON STOCK EXCHANGE STEEL UP TO 117

NEW YORK, Sept. 23.—For a week-end market, today's two-hour session of the stock exchange was probably without parallel. Trading in the first hour amounted to more than half a million shares, with no diminution of activity with the approach of the close.

There were numerous spectacular features, but all were eclipsed by the further meteoric rise in United States Steel, which touched 117 1/2, a new record, shortly after 11 o'clock.

Other leaders rose to highest prices in their history, notably coppers. Dealings embraced every branch of the list, but the movement was far from uniform, rails making comparatively little headway, with reactionary tendency in shipping issues and some equipments and munitions.

Steel closed at 117 after declining to 116 1/2, making a net gain of 3 3/4 points. That stock contributed approximately 25 per cent of the total of 1,100,000 shares, which establishes a week-end record in the local market for many years.

Other stocks to mount to new records included Central Leather and Maxwell and Stutz motors. Realizing sales caused some reduction of gains toward the close, dealings at that period being marked by such tremendous activity as to leave the financial ticker almost ten minutes behind in its report.
